I further report that I have verified the investments of the Corporation at the close of the year, and compared the above Balance Sheet with the Books, and that having obtained all the information and explanations I have required, I am of opinion that such Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Corporation's affairs according to the best of my information and the explanations given to me, and as shown by the books of the Corporation. I certify that no part of any fund has been applied, directly or indirectly, for any purpose other than the class of business to which it is applicable.

N. E. WATERHOUSE, *Auditor.*

8, Frederick's Place, Old Jewry, E. C., 7th April, 1914.

IT IS HEREBY CERTIFIED :—

SUN LIFE ASSURANCE COMPANY OF CANADA.

Statement respecting the Valuation of the Liabilities under Life Policies and Annuities made and signed by the Actuary.

I

The date up to which the valuation is made is 31st December 1913.

II

The general principles and methods adopted in the valuation :—

The valuation has been made on the strict net premium method according to the tables of mortality and at the rates of interest mentioned below. The policies have been arranged in groups according to plan, age at entry and duration and have been valued by means of prepared tables of policy values. The age nearest birthday has been taken, as the age at entry and for the duration each policy has been assumed to have been issued in the middle of the calendar year of entry. Reversionary additions and paid-up policies, payable at death only, have been grouped according to year of birth and those on the endowment assurance plan according to year of maturity also.

The general principles adopted in the valuation are determined by the Canadian Insurance Act, with the provisions of which the Company is bound to comply. A lower rate of interest than that required by the said Act has, however, been voluntarily adopted, and additional reserves have also been set aside for Reserve Dividend policies, as explained below. In accordance with the provisions of this Act a valuation is made at the close of each year.

The method adopted by the Company, in dealing with under-average lives, is to make the policy subject to a lien or contingent debt. In such cases the following endorsement is placed upon the policy :—

"This policy is issued only on the express condition that it is subject to a lien of......................................Pounds Sterling an extra premium, not bearing interest, which lien will diminish by......................................Pounds Sterling, on the........................ ....day of........................in each year, commencing on the........................day of.., until the whole is extinguished, the balance of the lien, if any, still remaining at the death of the assured to be deducted by the Company from the sum assured when paying the claim. If, however, the death shall be caused by purely accidental, violent and external injuries, which shall result in death within three months from the happening of the accident, and if said accident and death shall also be in no way whatever connected or associated with any form of disease, illness or infirmity, temporary or otherwise, then said lien shall be void."

The amount of the lien and the yearly reduction thereof depend upon the nature of the extra risk.

In valuing such policies no account whatever is taken of the lien, but the calculations of both reserves and profits are made exactly as if no such lien existed.

III

The tables of mortality used in the valuation are, for assurances, the British Offices O^{m} (5) Table, and, for annuities the British Offices Select Life Annuity Tables, 1893. An additional reserve, has, however, been set aside for Reserve Dividend policies issued since 31st December, 1899, on the Whole Life and Limited Payment Life plans, the reserves under such policies being calculated on the assumption that the rate of mortality amongst those policyholders who exercise the option of continuing their policies in force beyond the Reserve Dividend period will thereafter be heavier than that predicted by the H^{m} Table. In calculating these reserves it has been assumed that the ordinary H^{m} mortality will prevail during the Reserve Dividend period and thereafter the mortality of the table known as the American Tropical Experience (Transactions of Actuarial Society of America, Volume III, Page 299). The following are specimen policy values per £100 calculated on this basis, assuming 3½°/₀ interest.

IV

The rate of interest assumed in the valuation of assurances is 3°/₀ for all policies issued since 31st December 1902, and 3½°/₀ for all policies issued prior to that date. For annuities the rate assumed is 3½°/₀ throughout.

V

The provision for future expenses and profits is made by reserving the whole difference between the premiums actually receivable and the net 3°/₀ or 3½°/₀ premiums according to the date of issue. (See III and IV.)

The actual proportion of the annual premium income thus reserved is as follows: Policies at Northern rates—5-year dividend, 19·7°/₀; Reserve dividend, 18·3°/₀; Annual dividend, 20·0°/₀; Non-participating, 6·6°/₀. Policies at Sub-Tropical rates—5-year dividend, 28·0°/₀; Reserve dividend, 26·5°/₀; Annual dividend, 28·5°/₀; Non-participating, 6·2°/₀. Policies at Tropical rates—5-year dividend, 35·0°/₀; Reserve dividend, 31·7°/₀; Annual dividend, 34·4°/₀; Policies at Thrift rates, 15·8°/₀.

In the case of tropical and sub-tropical policies the margin above the net premium valued also includes provision for extra mortality expected in these classes of assurance.

The valuation in Canada of the whole of the business of the Company is made on the same basis of valuation, both as regards interest and mortality, as that made for the purpose of the English Act.

SUN LIFE ASSURANCE COMPANY OF CANADA.

VIII.

The principles upon which the distribution of profits is made, are determined by the Board of Directors acting on the advice of the Company's actuary. According to the regulations adopted by the directors and in force at the present distribution the holders of participating polices receive 95°/₀ of the divisible surplus of the participating branch, the shareholders receiving the remaining 5°/₀ and being also entitled to the surplus derived from the non-participating branches.

FIVE YEAR DIVIDEND PLAN.—All ordinary participating policies issued previous to 31st December, 1887, participate in the surplus every five years from the year in which the Company commenced business, or in other words, at the division of 31st December 1896, 1901, 1906, 1911, etc. Those issued since 31st December 1887, have profits allotted to them every fifth year from the date of each individual policy. At this division, therefore, the policies receiving profits are those issued in the years 1889, 1894, 1899, 1904 and 1909. The method of distribution is, a modification of that known as the "Contribution Plan."

RESERVE DIVIDEND PLAN.—Policies on the Reserve Dividend Plan do not receive profits until the expiration of their respective Reserve Dividend periods, usually fifteen or twenty years. The method adopted for recording the accumulations and distributing the profits to Reserve Dividend policies is as follows :—Reserve Dividend assurances are treated as a separate group by themselves or practically as a sub-company within the company. They are credited with all premiums received under Reserve Dividend policies, and all interest or profits earned on their accumulations and are debited with the actual expenses connected with their policies, ascertained as accurately as possible, the actual death claims, surrender values and other payments made under such policies Account is thus kept of the amount of the Company's funds actually contributed by these policies. In order to ascertain the accumulations of individual policies, tables of values designated "standard asset-shares," have been prepared for the various plans of assurances and ages at entry on a basis corresponding very closely with the Company's past experience as regards expenses, mortality, lapses, interest, etc. These tables thus show the approximate share of each individual policy in the assets of the Company, according to the length of time it has been in force. The sum-total of the standard assets-shares for all Reserve Dividend policies is obtained by multiplying the sums assured as grouped for valuation purposes by the corresponding standard asset-shares. This total thus represents the amount of funds the Company should have in hand, in order to pay its Reserve Dividend policies the amounts which would be coming to them at the end of their respective Reserve Dividend periods on the basis of the standard asset-shares. The total of the actual funds at the credit of Reserve Dividend policies is then compared with the total of the standard asset-shares, and this comparison shows whether maturing Reserve Dividend policies should receive larger or smaller amounts than the final standard asset-share, and adjustment is then made by adding or deducting a percentage to correspond.

ANNUAL DIVIDEND PLAN.—Annual dividend policies by their terms receive profits at the end of the second policy year and each year thereafter if in force, but no profits are allotted for the first policy year. A modification of the "Contribution Plan" is also used in allotting profits to these policies.

Under all forms of distribution the profits payable to policies in any calendar year are declared at 31st December preceding, but become vested only on the completion of the particular dividend period, that is to say, on the following policy anniversary and provided the policy be then in force.

IX

The total amount of profit made by the Company during the year was £242,880-12-5, and the undivided surplus carried forward from the last valuation was £1,095,417-2-2, making a total of £1,338,297-14-7, allocated as follows :—

His Majesty The KING has been graciously pleased to award the Victoria Cross to the undermentioned Officers and Non-Commissioned Officers:—

Captain Eustace Jotham, 51st Sikhs (Frontier Force).

For most conspicuous bravery on 7th January 1915, at Spina Khaisora (Tochi Valley).

During operations against the Khostwal tribesmen, Captain Jotham, who was commanding a party of about a dozen of the North Waziristan Militia, was attacked in a nullah and almost surrounded by an overwhelming force of some 1,500 tribesmen. He gave the order to retire, and could have himself escaped, but most gallantly sacrificed his own life by attempting to effect the rescue of one of his men who had lost his horse.

* * * * * * * *

His Majesty the KING has been graciously pleased to approve of the undermentioned rewards for gallantry and devotion to duty in the Field:—

To be Companions of the Distinguished Service Order.

* * * * * * * *

Captain Charles Douglas Roe, 1st-4th Gurkha Rifles.

For conspicuous gallantry and resource near the Bois de Biez on 2nd and 4th July 1915, when reconnoitring the enemy's positions by day. He collected information of great value, and, on one occasion, though opposed by overwhelming numbers, he kept them at bay by bombs and rifle fire, and brought back his party with only one wounded after inflicting considerable loss on the enemy.

* * * * * * * *

Awarded the Military Cross.

* * * * * * * *

Lieutenant Henry Malkin Hance, Indian Army Reserve of Officers, attached 176th (Mining) Company, Royal Engineers.

For excellent work and great determination in the preparation of a mine which was successfully sprung at Duck's Bill (near Givenchy) on 15th June 1915. The success of the mine was largely due to Lieutenant Hance's personal efforts and his fine example under very difficult circumstances.

* * * * * * * *

Second Lieutenant Charles Claude Edmonstoune Manson, Indian Army Reserve of Officers, attached 1st-4th Gurkha Rifles.

For conspicuous gallantry and coolness on reconnaissance duty by day near Bois de Biez, when assistant to another officer on 2nd and 4th July 1915. By his prompt action on one occasion he enabled his patrol to retire without loss after acquiring very valuable information.

* * * * * * * *

Second Lieutenant Carleton Stuart Searle, Unattached List, Indian Army, attached 1st Battalion, Princess Charlotte of Wales's (Royal Berkshire Regiment).

INDIAN ORDER OF MERIT.

No. 819.—The Governor-General in Council is pleased to sanction the following admissions to the Military Division of the Indian Order of Merit:—

For admission to the 2nd Class of the Order.

(*a*) Risaldar Faiz Muhammad Khan, 1st Duke of York's Own Lancers (Skinner's Horse), for conspicuous gallantry at Hafiz Khor on 18th April 1915. In face of an advancing enemy, this Indian officer with Second Lieutenant Harrison searched a nullah in which two wounded sepoys had informed them that a wounded man was lying. They were unable to find the wounded man and came back to the spot where the two sepoys were awaiting their return. These two sepoys were exhausted and unable to move. Risaldar Faiz Muhammad Khan and a sowar lifted them on to their horses and galloped away. After going some 150 yards the sowar's horse fell and Risaldar Faiz Muhammad Khan dismounted to help the sowar. They mounted again and rode off with the exhausted sepoys under a close and heavy fire.

(*b*) Kot-Dafadar Muhammad Fazil, 6th Mule Corps, for conspicuous gallantry at Hafiz Khor on the 18th April 1915. This non-commissioned officer brought in a badly wounded man from the firing line under fire from a distance of about 150 yards. He was cool and collected, showed great resource throughout, and rendered valuable assistance in collecting ammunition mules which would otherwise have been lost.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 26th August 1915, based on the Indian Daily Weather Reports of the period.

Weather was dry over the whole of northwest India with the exception of a few falls of rain, chiefly in the east and north Punjab. In all other parts of the country, however, there was a marked increase in the activity of the monsoon currents, with the result that the rainfall of the week was either equal to or above the average over the greater part of the Peninsula, as well as in the United Provinces and the Central Provinces.

At the close of the week a storm was slowly developing in the Bay off the north Madras coast, and was causing some heavy rain in the Peninsula.

2. *Burma.*—Rainfall was nearly general in Lower Burma on the 19th, 20th, 24th and 25th, and in Upper Burma on the 23rd.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 21st August 1915.

Burma.—Good rain was general in Lower Burma. In the dry zone the fall was meagre but elsewhere it was moderate. Cultivation of winter rice is proceeding normally and the progress of miscellaneous crops in Upper Burma is satisfactory. Standing crops in Upper Burma are satisfactory and are generally doing well. The health of live stock is good. The price of unhusked rice has risen further.

Assam.—Light to moderate rain fell in all districts. Floods are reported from Goalpara, Kamrup, Darrang and Nowgong. They have subsided in Lakhimpur and are subsiding in the Garo Hills. Agricultural operations have been much hampered in Goalpara and Nowgong. Some damage by floods to winter rice is reported from Goalpara, Kamrup and Darrang and by insect pests to transplanted winter rice from Sibsagar and the Garo Hills. Plucking and manufacture of tea continue. Transplantation of winter rice and harvesting of autumn rice and jute are in progress. Prospects of tea are good but those of paddy and jute are not generally favourable. The price of common rice has risen slightly. Cattle disease is reported from eight and insufficiency of fodder from six districts.

Bengal—During the week seasonable rain fell generally throughout the Province. The recent rainfall has greatly helped the transplantation of winter paddy and has somewhat improved the prospects of standing crops in the western Bengal districts. More rain is still wanted. Transplantation of winter paddy and harvesting of autumn crops are in progress. Damage to standing crops by floods continues to be reported from some eastern districts. Fodder is getting scarce in parts of Dacca, Mymensingh and Tippera. Cattle disease is reported from ten districts. Scarcity still prevails in some parts of Tippera. The average price of common rice has risen by about 1·6 per cent as compared with that of the previous week.

Bihar and Orissa.—During the week the rainfall was general over the Province. The fall was generally light. Transplantation of paddy is going on but more rain is urgently wanted in Orissa and in some districts of Bihar and Chota Nagpur. Harvesting of jute has commenced in some districts. Standing crops are doing well except in parts of Saran, Champaran, Muzaffarpur, Darbhanga and Monghyr where autumn crops have been damaged by floods and in Puri where winter paddy on high lands is reported to be suffering from want of rain. The average price of common rice has risen as compared with that of the preceding week. The supply of fodder and water is sufficient. Cattle disease is reported from fifteen districts. The average daily attendance on test works in the Basudebpur and Soro thanas of the Balasore district during the past week was 400. Some distress is also reported from the Kolhan Government Estate in Singhbhum. The condition of standing crops in the Feudatory States of Orissa is good. Transplantation of paddy is going on but more rain is wanted in several States.

United Provinces.—Rain fell throughout the Provinces but the upper and central Doab and parts of the western submontane and Bundelkhand tracts report the need for more. Heavy rain has since fallen in the central Doab. Standing crops are generally doing well. Prospects are favourable but in Muttra drought is beginning to affect the standing crops which are being irrigated where possible and some districts still continue to report damage to crops by floods, locusts and insects. Harvesting of early crops is in progress in several districts. The condition of agricultural stock is generally good though there is some cattle disease in many districts. Food, fodder and water are everywhere sufficient except in Saharanpur where grazing is still reported to be poor. Prices are stationary with a tendency to rise in the western districts. Preparation of fields for the sowing of spring crops is in full sowing.

Punjab.—Light or moderate rain fell in nearly all the reporting districts but it was insufficient and more rain is badly wanted. Late sowings of autumn crops continue and are generally below normal on irrigated and very much restricted on unirrigated areas. The condition of standing irrigated crops is generally fair but unirrigated crops are suffering severely from want of rain and are in some tracts reported as withering. Locusts have damaged crops slightly in parts of the southeast. Cattle are generally healthy and dry fodder is sufficient. Green fodder is getting scarce. Water for drinking and irrigation is generally sufficient. Prices are stationary or are fluctuating and generally range between warning and scarcity rates. Price of wheat :—Ambala, Ferozepore and Lahore 8½, Rawalpindi 9 and Lyallpur 9½ seers per rupee.

North-West Frontier Province.—No rain fell in Peshawar. Slight showers were received at Tank and 2 cents of rain in the Bannu tahsil Rain is urgently needed. The weather is hot and clear. The condition of crops in Peshawar and Dera Ismail Khan is average on irrigated and poor, on the whole, on unirrigated areas. In Bannu the standing autumn crops on irrigated lands are good to average and on unirrigated lands below average. Harvesting of extra spring crops has been finished in Bannu with outturn good to average. Maize and *juar* have been sown in Peshawar. Sowings of autumn crops are proceeding in Bannu and Dera Ismail Khan. Sugarcane has been damaged by insects in the Bannu tahsil. Fodder and water are sufficient in Peshawar except Nowshera where fodder is insufficient and in Bannu except Lakki where both fodder and water are insufficient. In certain villages of Dera Ismail Khan fodder is diminishing and water is becoming scarce. The condition of cattle is fair. The Paharpur canal is running. Prices in Peshawar are high and those of gram are rising. Prices in Bannu and Dera Ismail Khan are stationary and in Lakki they are tending to rise.

Jammu.—During the week the rainfall was fairly good. Prices are fluctuating. Wheat sells from 7 to 12 and maize from 7 to 17 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—No rain fell in Anantnag and Baramula but good rain was received in Muzafferabad. Crops are suffering for want of rain. Cattle are generally healthy. Fodder is insufficient in Baramula. The supply of water is unequal to the demand.

Rajputana.—During the week 159 cents of rain was received in Tonk. The weather is generally cloudy. Autumn crops are showing signs of withering in places and further sowings have been stopped for want of rain. More rain is urgently needed. Scarcity of pasturage and fodder is felt in Jhalawar, Marwar, Ajmer-Merwara, Sirohi and Kishengarh and in parts of Mewar. The condition of cattle is weak in places owing to the deficiency of pasturage. Water is generally sufficient except in parts of Marwar. Prices are generally rising. Cattle emigration from Ajmer-Merwara is increasing. The situation in Merwara is becoming serious.

Central India.—The rainfall during the week was general in Baghelkhand, Bundelkhand and the Southern States, partial in Gwalior, Bhopal and Malwa and slight in Indore, the principal falls being over 3 inches in Bundhelkhand over 2 inches in Barwani and over 1 inch in Alirajpur of the Southern States. The rainfall was sufficient throughout except in Bundelkhand. The weather is seasonable. Sowing of autumn crops is nearing completion in Gwalior and is in progress elsewhere. Weeding is in progress throughout. Land is being prepared for spring crops in the Southern States. Standing crops are generally good. Agricultural stock is in good condition except in two villages of Indore and in the Ajaigarh State of the Bundelkhand Agency where cattle disease is reported The fodder supply is sufficient throughout. Prices are high in Baghelkhand, are normal in Bhopal, are fluctuating in Indore except in the Nimawar district and are steady elsewhere.

Central Provinces.—All the districts in the Provinces except Buldana received light to moderate rain. Weeding continues and transplantation and thinning of rice are well advanced but more rain is required in the Chanda and Chhattisgarh districts. The condition of crops is satisfactory. The supply of fodder and water is adequate. Agricultural stock is in good condition. Variations in prices are unimportant.

Feudatory States :—The rainfall has been general in the States nowhere exceeding 2½ inches but more rain is needed in Kawardha, Raigarh and Sarangarh. Standing crops are generally in good condition. Gram is dear in Udaipur.

Bombay.—Slight rain fell during the week throughout the Presidency Proper. More rain is generally needed for standing crops which are withering in Ahmedabad, Kaira, Kanara, Sholapur, Mahi Kantha, Savantvadi and Cutch, and in two talukas of Hyderabad, three talukas of Bijapur and three divisions of Kathiawar. Sowing and transplantation operations are nearly over. The fodder supply is sufficient except in five districts of Sind and in Ahmedabad, Kathiawar, Baroda, Kutch and Palanpur. Cattle are in good condition. Agricultural stock is sufficient except in two talukas of Poona, Hyderabad and Larkana and in six talukas of Thar and Parkar. Drinking water is generally sufficient. Water for irrigation is deficient in Sind, Ahmedabad, the Panch Mahals, Kaira, Baroda and Palanpur. Prices have slightly risen except in Sind.

Hyderabad.—The rainfall during the week was general. It was light to fair in the Nander, Nizamabad and Mahbubnagar districts and slight elsewhere. The average fall was 39 cents. Autumn crops which needed rain in the Nizamabad and Bidar districts have been saved by the rainfall after the close of the week but they have been damaged by rats and caterpillars in parts of the Raichur, Usmanabad and Nalgonda districts. Early rice crop is generally fair and is being weeded. Lands for spring crops are being prepared. Cattle disease prevails in four talukas. Prices of grains are high and steady. Coarse rice sells at 9½ and white *juar* at 13½ seers per rupee in Hyderabad City. The highest price of *juar* in districts is 10 seers per rupee in Warangal and the lowest 24 seers per rupee in Adilabad.

Mysore.—The rainfall during the week was light in Bangalore and Kadur and *nil* elsewhere. Prices of *ragi* have fallen in Hassan and Kadur and have slightly risen in Mysore. Markets are well supplied. Standing crops are in fair condition but want of rain is generally felt. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg—Rainfall 1 inch 51 cents. Ploughing for rice and transplantation continue. Prices of food grains are high. The public health is fair. Fodder for cattle is sufficient.

Madras.—The rainfall was good to fair in the Circars except Ganjam and in Sandur, Chingleput, South Arcot, North Arcot, Salem, Trichinopoly, the southern parts except Tinnevelly, South Canara and the Nilgiris and light or *nil* elsewhere. Standing crops are fair to good but are withering or require rain in parts of nine districts. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. The water-supply is sufficient except in Ganjam, Kurnool and the west coast and in parts of Vizagapatam, Godavari, the Deccan except Cuddapah, the Carnatic except Chingleput, Madura, Ramnad and the central parts except Trichinopoly. Pasture is sufficient except Kurnool and in parts of four other districts. Fodder is generally sufficient. Prices have slightly risen.

INSURANCE.

RESOLUTION.

Simla, the 28th August 1915.

The following review on the working of the Indian Life Assurance Companies Act, 1912 (VI of 1912), is published for general information :—

The Indian Life Assurance Companies Act came into force on 18th March 1912. The accounts and valuation particulars for two complete years have been received and published each year with an introductory note by the Government Actuary. The figures for the latter year relate in all cases to a period ending before the outbreak of the war.

2. The manner in which the accounts are drawn up exhibits a gratifying degree of improvement, and bears testimony to the capacity of the smaller Companies to profit by the advice and assistance given them in the preparation of their statements and the maintenance of their accounts. In spite of the untoward financial conditions which prevailed throughout much of the period under review, the number of Companies doing business under the Life Assurance Act exhibits little change, and it is obvious that the apprehensions entertained at one time of the possibly injurious effect of the legislation now in force on Indian Life Assurance enterprises have not been justified. When the Act was passed, there were 49 Indian Companies which came under its scope. Of these, 9 have undergone liquidation, while 6 fresh ones have commenced business leaving a balance of 46. In addition to this number, life assurance business is undertaken by other 22 Companies of which 15 are constituted in the United Kingdom, 6 in other parts of the British Empire and 1 in the United States of America. Of the 46 Indian Insurance Companies now working, there are, it is true, a few which, sooner or later, will probably have to admit that their financial position does not warrant a continuance of their operations, and will have to go into liquidation. The Government Actuary's statements relate to two years, during the latter of which the amount of life assurance funds held by Indian Companies increased by nearly half a crore and now exceeds 5¾ crores, while the total sums assured have increased in the same period by about one and a half crores and now amount to nearly 22½ crores. Though the larger Companies naturally account for the bulk of this increase, there are many smaller Companies which had materially improved their position up to the close of the period to which their published accounts relate and the general improvement would have been undoubtedly far greater but for the adverse conditions created by the Bank failures in Bombay and the Punjab.

3. The general policy of the Government of India with regard to Indian Life Assurance Companies has been to bring home to them the disadvantages of unsound methods where such have been pursued and to endeavour to induce the Companies concerned to remedy such methods where it seemed that their financial position had not already been shaken to too great an extent to permit of reparation. While keeping in view the duty of securing the interests of policy holders, Government have also borne in mind the importance of abstaining from action which might unnecessarily harass a Company under temporary difficulties due to unskilled though honest management. This policy has been loyally carried out by Mr. Meikle, the Government Actuary, who has maintained helpful and sympathetic relations with Indian Insurance Companies, while paying due attention to the necessity of safeguarding the interests of policy holders.

4. One of the worst faults which have characterised the less efficiently managed Companies, has been their failure to obtain skilled actuarial assistance

to advise them regarding their financial position. This has led in some cases to their declaring dividends unwarranted by the profits earned. The need for skilled help is now much more generally recognised. During the past two years, 14 actuarial valuations have been received, and there is a wide-spread recognition that something more than zeal and intelligence is needed to manage so highly technical a business as that of Life Assurance. The result has been that since the Act came into force several Companies have discontinued the payment of dividends in consequence of the advice either of their actuary or of Government. Another source of danger was the undertaking, in addition to ordinary Life Assurance, of such business as 'dividing' insurances, payable on death, or on the occasion of births and marriages, a line of business which has involved several Companies in serious difficulties. Thirteen Companies which previously undertook dividing insurance have now discontinued it.

5. In view of the less complicated nature of the accounts of Mutual Companies and the comparative smallness of the sums involved in their transactions, permission has been given to such Companies to employ the services of auditors holding restricted certificates. There are a number of Mutual Companies, the larger proportion of whose business consists of small insurances such as would ordinarily fall under the Provident Insurance Societies Act. In such cases, the Government of India have expressed their readiness to consider applications for some temporary relaxation of the provision of the Act regarding compulsory deposits; and in no case has any such Company been compelled to suspend business solely on account of the necessity for the payment of the statutory deposit. The Government of India are gratified to observe the growing sense of responsibility and the desire to attain a satisfactory standard of working that has generally characterised the smaller Indian Life Assurance Companies; and they see good reason to hope that their efforts to put their business on a sounder basis will be rewarded by an increase in its volume and by enhanced prosperity, when the unfavourable conditions arising out of the war have passed away. These, however, will not begin to be apparent until the receipt of the next series of annual statements.

ORDER.—Ordered that a copy of the foregoing Resolution be forwarded to all Local Governments and Administrations for information, and that it be published in the Supplement to the *Gazette of India.*

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, SEPTEMBER 2, 1915

First COTTON FORECAST 1915-16

This forecast is based upon reports furnished by provinces, which comprise, on the average, about 76 per cent of the entire cotton area of India. It relates generally to sowings up to the end of July, no attempt being made at this stage to estimate the probable outturn.

The returns show that an area of 11,847,000 acres has been sown this year as against 15,187,000 acres (revised figure) on this date last year, a decrease of 22 per cent.

The decrease, as against last year, is most noticeable in Ajmer-Merwara (60 per cent), Rajputana (43 per cent), the Punjab (41 per cent), the United Provinces (38 per cent), Central India (22 per cent), Bombay and Burma (20 per cent each), Hyderabad and Bihar and Orissa (19 per cent each), the Central Provinces and Berar (11 per cent). Madras shows an increase of 74 per cent and Mysore of 73 per cent.

The decrease in the area sown this year is attributed chiefly to low prices and to some extent to the late arrival of the monsoon in Northern, Western, and Central India. It is only Madras and the Mysore State, which show an increase owing to favourable early rains. The present condition of the crop is reported to be generally from fair to good, except in the Punjab, where the crop has been affected by the absence of rain in June and July.

Detailed figures for the Provinces and States are given in the statement below :—

The provincial reports are summarised below :—

Bombay (28·2 per cent of the total area under cotton in India).—The report relates only to the early crop of the **Deccan** (7·7 per cent), which up to the 1st August showed 1,429,000 acres (4,000 acres being in Native States), representing a decrease of 20 per cent as compared with the estimate made at the same time last year. The decrease is attributed to the low prices of cotton, which obtained last year. Sowings, however, did not commence at the date of report in South Deccan owing to the lateness of the rains. The young crop is thriving everywhere.

Central Provinces and Berar (20·1 per cent of the total area under cotton in India).—The total area sown is estimated at 4,113,000 acres as against 4,646,000 acres reported at this date last year, or a decrease of 11·5 per cent. Sowings commenced rather late in all districts where the crop is of importance, except Akola and Chhindwara. The monsoon arrived late in the last week of June, and the rainfall was generally well distributed and sufficient for agricultural purposes. Moderate to heavy rain fell in the latter half of July. Sowings were made under favourable conditions and germination has been successful. The present prospects are good.

Madras (10·2 per cent of the total area under cotton in India).—The area reported, as sown up to date, is 106,000 acres as compared with 61,000 acres at the same date in 1914-15, or an increase of 74 per cent. It is too early to say whether this increase will ultimately be maintained. The south-west monsoon was earlier this year than last year, and there have been heavy rainfalls in Bellary, Kurnool, and the Circars.

Punjab (7·2 per cent of the total area under cotton in India).—The total area under cotton is estimated at 1,085,000 acres (73,000 acres in Native States), which is 41 per cent below the estimate for the corresponding period of last year. The decrease is attributed to deficient rainfall, low prices, and heavy stocks of cotton. The condition of the irrigated crop is from fair to good, but that of the unirrigated crop below average. Continued absence of rain is damaging the crop. Destruction by insects is also reported in parts of a few districts.

United Provinces (5·6 per cent of the total area under cotton in India).—The total area is estimated at 1,050,000 acres as against 1,699,000 acres at this time last year, or a decrease of 38 per cent. Although some rain fell in the first week of July in the Upper and Central Doab, which are the principal cotton growing tracts, it was in most places insufficient for sowing, and the monsoon did not set in regularly until well into the third week of the month when it was late for cotton sowings. In other tracts of the province the season was more favourable; and although there is a falling off in the area sown, it is not so large as in the above-mentioned tracts. The crop sown in early July is reported to have germinated satisfactorily.

(*a*) Including Native States

(*b*) Revised figures. The figures given in the first forecast of 1914-15 (namely, 890,000 acres for Central India and 14,710,000 for Grand total) excluded the Indore and Bundelkhand States in Central India from which returns were not received in time.

Burma (0·9 per cent of the total area under cotton in India).—The total area is estimated at 232,000 acres as against 291,000 acres at this date last year, or a decrease of 20 per cent. All the districts except Magwe show a decrease, especially Meiktila and Thayetmyo. Sowings were generally made at the normal time, and the condition and prospects of the crop are reported to be favourable.

Bihar and Orissa (0·4 per cent of the total area under cotton in India).—The total area sown up to date with both early and late crops is estimated at 67,000 acres as against 83,000 acres at this time last year, or a decrease of 19 per cent. Sowings of the late crop, however, have not as yet begun in Cuttack, Balasore, and Angul. The weather conditions have generally been favourable, and the present condition of the crop is reported to be fair to good except in Manbhum, Singhbhum, and Puri, where the rainfall is reported to be deficient for the growth of the crop.

Bengal (0·2 per cent of the total area under cotton in India).—The area sown up to date, with both early and late cotton, is reported to be 86,000 acres as against 90,000 acres at this time last year, or a decrease of 4 per cent. The condition of the early crop is reported to be fairly good except in Midnapore, where the condition of both varieties of the crop is unsatisfactory owing to the want of timely rain. The late crop has not yet been sown in Bankura.

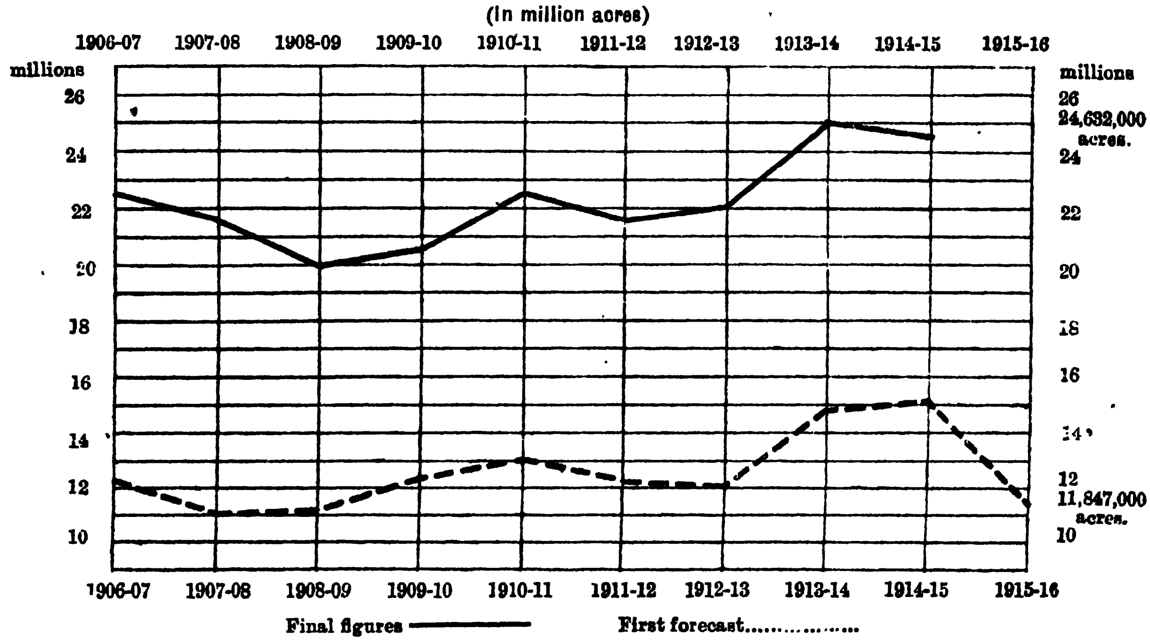
North-West Frontier (0·2 per cent of the total area under cotton in India).—The total area sown is estimated to be 54,000 acres as against 58,000 acres in the corresponding period of last year. The decrease is entirely confined to the irrigated area excepting in Hazara and Kohat, and is generally due to the unfavourable market for cotton on account of the war. The rainfall was about the average in March in all the districts except Bannu where it was below the average. Copious rains fell in April throughout the province, but the rainfall in May was generally below the average.

Ajmer Merwara (0·2 per cent of the total area under cotton, in India).—The area reported is 8,000 acres as against 20,000 acres at this time last year, or a decrease of 60 per cent. The condition of the crop is not good for want of rain.

Assam (0·2 per cent of the total area under cotton in India).—The area is estimated at 32,000 acres, which is nearly the same as reported at this date last year. Heavy rains at the time of sowing caused a slight decrease. The prospects of the crop are at present generally good.

Hyderabad (14·9 per cent of total area under cotton in India).—The area sown with the early crop amounts to 2,296,000 acres, which shows a decrease of 19 per cent as compared with the area estimated at this time last year. The condition of the crop is generally fair to good.

Central India (5·9 per cent of the total area under cotton in India).—Sowings commenced between the middle of June and July in Bhopal, Baghelkhand, and Southern States, and in parts of Gwalior, Indore, Bundelkhand, and Malwa; elsewhere sowings were retarded for want of rain, and in a few places they have not yet commenced. The area reported amounts to 1,060,000 acres as against 1,367,000 acres in the corresponding period of last year, or a decrease of 22 per cent.



Rajputana (1·8 per cent of the total area under cotton in India).—The total area reported is 210,000 acres, as against 366,000 acres reported at this time last year, or a decrease of nearly 43 per cent. Sowings have not yet commenced in some six States for want of timely rain.

Mysore (0·5 per cent of the total area under cotton in India).—The total area sown up to date amounts to 19,000 acres as against 11,000 acres in the corresponding period of last year. The condition of the crop is reported to be fair.

Chart.—The chart below illustrates the variations in the preliminary estimates of the last ten years, as compared with those in the final figures:—

AREA OF COTTON

(In million acres)

Cotton crop in foreign countries.—The latest information published by the International Institute of Agriculture, Rome, shows that in Egypt the crop has germinated well and has a good appearance. From un-official sources it appears that in the United States of America the area sown is estimated at 31,535,000 acres, which is about 6,000,00 acres or 16 per cent less than the area of last year.

CROP FORECAST.

SESAMUM.

First Forecast SESAMUM (Til or Jinjili) crop, 1915-16.

This forecast is based upon reports received from eight provinces, which contain, on an average, 78 per cent of the entire area under sesamum in British India.

In northern and western India the late arrival of the monsoon delayed sowing operations. In the Central Provinces, Madras, and Bengal conditions at sowing time were favourable. The present conditions of the crop is reported to be generally good.

The returns of acreage, received up to date, are incomplete, owing mainly to the absence of any estimate for the United Provinces and for the late crops of Bengal and Bihar and Orissa. It is therefore desirable to make only a general comparison of the figures with those for the corresponding period of last year. The total area so far reported amounts to 1,811,000 acres, as against 1,954,000 acres (revised figure) for the same tracts at this date last year —a decrease of 7 per cent. Details for the provinces are stated below :—

	First forecast, August		
	1915-16	1914-15	Increase + or Decrease—
	acres	acres	acres
United Provinces(*a*)	...	..	...
Central Provinces and Berar	907,000	889,000(*c*)	+18,000
Madras	296,000	215,000	+81,000
Bombay and Sind (including Native States)	304,000	500,000	−196,000
Bengal	194,000	189,000(*c*)	+5,000
Bihar and Orissa	11,000	13,000	−2,000
Punjab	99,000	141,000	−42,000
Ajmer-Merwara	(*b*)	7,000	−7,000
Total(*d*)	1,811,000	1,954,000(*c*)	−143,000

The provincial reports are summarised below :—

United Provinces (24·5 per cent of the total area under sesamum in British India).—In the eastern districts sowings commenced at the beginning of July ; but in Bundelkhand, where the crop is mainly grown, it was not until the third week of the month that sufficient rain fell for general sowings. They are still continuing, and no estimate of the area can, therefore, be at present given. The early sown crop is reported to have germinated well.

Central Provinces and Berar (16·9 per cent of the total area under sesamum in British India).—The weather conditions at the time of sowing were favourable, and germination was successful. Prospects are at present good. The sowing of the late crop did not commence on the date of report (10th August), but it is expected that the area sown during the year will be some 2 per cent in excess of the estimated area of the corresponding date of last year (889,000 acres).

Madras (16·6 per cent of the total area under sesamum in British India).—The total area sown up to date is reported to be 296,000 acres, being 38 per cent in excess of the area at this date last year, but the figures reported at this date last year were incomplete. The area sown is above normal throughout the whole Telugu country or northern parts where rains have generally been favourable. The only districts in deficit are Kurnool and parts of Anantapur. In the centre and the south the sowings have been short in Chingleput, South Arcot, North Arcot, and to a lesser degree in Salem, but are practically up to the average elsewhere.

Bombay and Sind (7·5 per cent of the total area under sesamum in British India).—The report relates to estimates made up to 1st August, and the information is incomplete as sowings were in progress at that date. The total area reported is 304,000 acres (92,000 acres being in Native States), which is 39 per cent less than the area reported at this date last year. The decrease is attributed to the late arrival of the monsoon in the Presidency proper, which delayed sowings, particularly in Gujarat and Kathiawar, and to the deficiency of rain and low inundation in Sind. The condition of the crop is reported to be good in the Presidency. In Sind it is fairly satisfactory, although damage by insects is apprehended in Upper Sind.

Bengal (5·3 per cent of the total area under sesamum in British India).—The total area sown with the early crop is estimated at 194,000 acres, being 2·6 per cent above the revised area at this date last year. Except for some scarcity of rain in the districts of Burdwan, Rajshahi, Bogra, and Malda, the weather conditions generally proved favourable throughout the province at the sowing time. Subsequently towards the end of May and during June heavy rainfall impeded the growth of the crop and caused some damage in Murshidabad, Midnapur, Rajshahi, Dinajpur, Bogra, Pabna, and Dacca. Some damage by insects also is reported from Pabna. The yield is estimated at 69 per cent of the normal, which works out to 20,900 tons, or practically the same as that of last year.

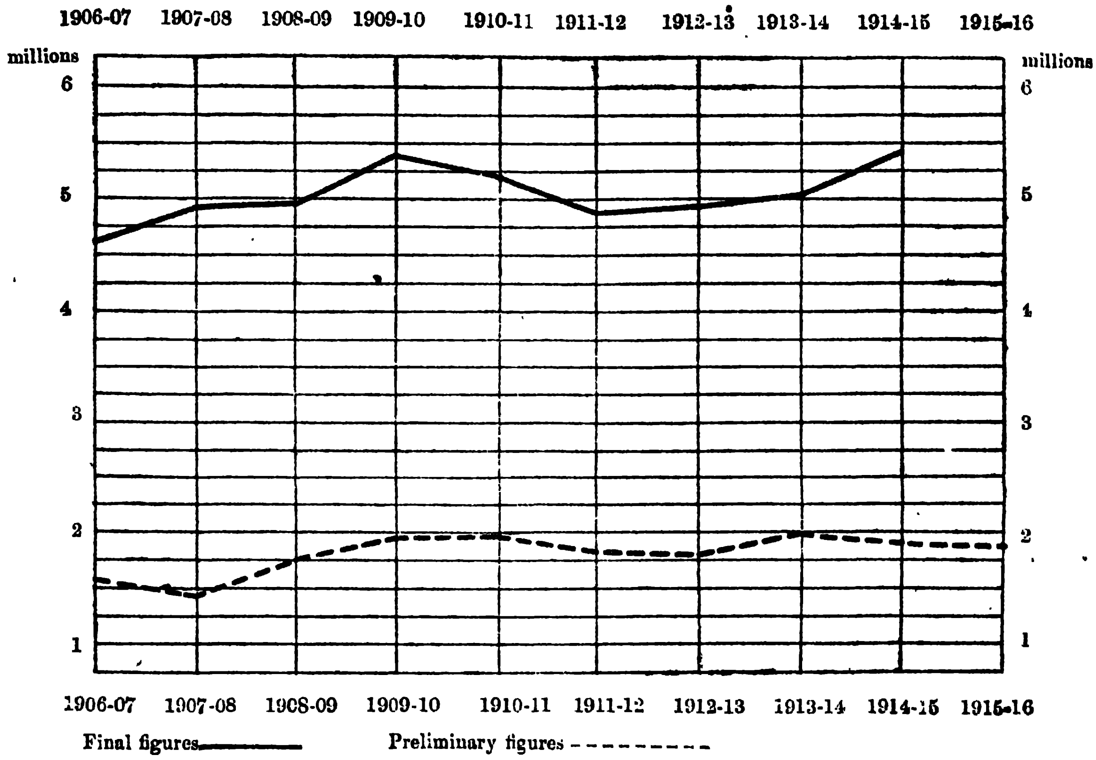
Bihar and Orissa (4·1 per cent of the total area under sesamum in British India).—The total area under the early crop is estimated at 11,000 acres, which is 15 per cent less than the area at this date last year. The decrease is attributed to lack of moisture at the sowing season. The weather conditions have since been favourable, and the prospects of the crop are reported to be good. The yield is estimated at 95 per cent of the normal, giving an outturn of 1,700 tons against 2,000 tons last year.

Punjab (2·7 per cent of the total area under sesamum in British India).—The total area sown up to the end of July is estimated at 99,000 acres, which is about 30 per cent less than the area at the corresponding date last year. The decrease is attributed to deficient rainfall and the short supply of canal water. The crop is an average one on irrigated area, but below the average on unirrigated area. The continued drought, however, is now beginning to tell on the whole crop.

Ajmer-Merwara (0·5 per cent of the total area under sesamum in India).—There has been no cultivation of sesamum up to the date of report (14th August) for want of rains. The area reported at this date last year was 7,000 acres.

Chart.—The chart below illustrates the variations in the preliminary estimates of the last ten years as compared with those in the final estimates. The preliminary figures exclude the United Provinces, which do not, as already noted, make any estimate in the first forecast.

(*a*) The estimated acreage is not reported until October in each year.



(*b*) According to the provincial report there are no estimates available as sesamum this year does not appear to have been sown in any quantity owing to deficient rainfall.

(*c*) Revised figures. The area reported in the first forecast of 1914-15 was:—Central Provinces and Berar 800,000 acres, Bengal 219,000 acres, the Grand Total was 1,896,000 acres.

(*d*) Excluding the United Provinces.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 28th August 1915.

Burma.—Copious rain was general over Lower Burma but in the dry zone the fall was light. Cultivation of winter rice and upland crops is proceeding but agricultural operations in parts of the dry zone have been retarded owing to the absence of rain. The condition of standing crops is generally good. Cattle are healthy. The price of unhusked rice in Rangoon is firm at Rs. 161 per 100 baskets and is much above normal.

Assam.—The weather is seasonable. Moderate rain fell in all districts. Recent floods have retarded agricultural operations in Goalpara, Kamrup and Nowgong and have partially damaged winter rice in Goalpara, Darrang, Nowgong and the Garo Hills. Some damage by insect pests to transplanted winter rice is still reported in Sibsagar. Plucking and manufacture of tea continue Transplantation of winter rice and harvesting of autumn rice and jute are in progress. Prospects of tea are good and those of paddy and jute are generally not favourable. The price of common rice has risen. Cattle disease is reported from six districts. Insufficiency of fodder is reported from five districts.

Bengal.—Light to moderate rain fell generally throughout the Province. More rain is wanted in the western districts. Winter rice seedlings are reported to be withering in parts of the Burdwan division owing to the insufficiency of rainfall. Transplantation of winter paddy and harvesting of autumn crops are continuing. Steeping and washing of jute are in progress. Damage to the standing crops by high floods continues to be reported from some of the eastern districts. Fodder is scanty in parts of the Pabna, Dacca, Mymensingh and Tippera districts. Cattle disease exists in twelve districts. Scarcity still prevails in Bankura and Tippera. The average price of common rice has risen by 1·4 per cent as compared with that of the previous week.

Bihar and Orissa.—Rain was general over the Province. The fall was moderate in Orissa and generally light in Chota Nagpur and Bihar. Transplantation of paddy continues. More rain is urgently needed in Orissa and in parts of Bihar and Chota Nagpur. Standing crops are doing well except in parts of Saran, Champaran, Muzaffarpur and Bhagalpur where they have been damaged by floods and in Singbhum where their condition is reported to be unsatisfactory owing to insufficient rain. The average price of common rice has risen slightly as compared with that of the preceding week. The supply of fodder and water is insufficient Cattle disease is reported from sixteen districts. In the Feudatory States of Orissa transplantation of paddy is going on but more rain is badly wanted in almost all the States.

United Provinces.—Good rain fell throughout the entire Province. Floods are reported from a few districts but damage appears to have been slight. Standing crops are generally doing well and prospects are good. Locusts have again done some damage to standing crops in some districts. Harvesting of early crops, transplantation of late rice and preparation of fields for spring crops are in progress while *urad* and *bajra* are still being sown in a few districts. The condition of agricultural stock is satisfactory and cattle disease is generally confined to a few villages in the districts affected except in Budaun where it is general. Grazing is still reported to be poor in Saharanpur. Otherwise food, fodder and water are ample everywhere. Prices show a slight downward tendency in the western districts and are stationary elsewhere.

Punjab.—Light or moderate rain fell in all the reporting districts except in parts of the central and western tracts. It was insufficient. More rain is badly wanted everywhere. Late sowing of autumn crops is in progress but the area sown is generally below normal on irrigated and very much restricted on unirrigated lands. Standing irrigated crops are generally in fair condition but unirrigated crops are suffering severely from want of rain and are in some tracts reported as withering. Cattle are generally healthy and dry fodder is sufficient. Green fodder is getting scarce. Water for drinking and irrigation is generally sufficient. Prices are generally stationary and range between warning and scarcity rates. Price of wheat :—Ambala, Ferozepore and Lahore 8½, Lyallpur 9 and Rawalpindi 9½ seers per rupee.

North-West Frontier Province.—Slight rain fell at Mardan and Swabi in the Peshawar district, at Tank and Kulachi in the Dera Ismail Khan district and at Lakki in the Bannu district. Rain is much needed everywhere. The condition of standing crops in Peshawar and Dera Ismail Khan is average on irrigated and poor, on the whole, on unirrigated lands, while in Bannu it is good to average on irrigated and below average on

unirrigated areas. Maize, *juar*, *shaftal*, vegetable and spring oilseeds have been sown in Peshawar and sowings of autumn crops are in progress in Dera Ismail Khan. In Bannu the sowing of autumn crops on irrigated lands is proceeding but no sowing is made on unirrigated areas. Cotton and chillies have been picked in some places in Peshawar and picking of cotton has commenced in the Bannu tahsil with outturn average. The condition of cattle is good to fair. Fodder and water are sufficient and available except in the Nowshera tahsil where fodder is insufficient and in certain villages of Dera Ismail Khan and in unirrigated tracts of the Lakki tahsil where water is becoming scarce The public health is good. The Paharpur canal is running. Prices in Dera Ismail Khan are rising and in Peshawar are high but stationary.

Jammu.—The rainfall was fairly good. Prices are fluctuating. Wheat sells from 7¼ to 12 and maize from 8½ to 16 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—The rainfall was insignificant in the Valley and good in Muzafferabad. Rice crops are fair but other crops are bad. Cattle are generally healthy. Prices are rising. Fodder is insufficient in Baramula. The water-supply is unequal to the demand.

Rajputana.—The weather is generally cloudy. The rainfall during the week was general in the eastern Rajputana States, varying from 62 cents in Alwar to 699 cents in Dholpur, 398 cents in Kotah, 212 cents in Jhalawar, 100 cents in Jaipur and below 1 inch in Tonk and Bundi. No rain fell elsewhere. In the other States and also in parts of Jaipur and Tonk autumn crops are beginning to fail. More rain is urgently needed. Scarctyi of pasturage and fodder is still felt in Marwar, Sirohi, Dungarpur, Jhalawar, Kishengarh, Tonk, Alwar and Ajmer-Merwara. Gross crop in the Mewar Hilly Tracts is poor. The condition of cattle is weak in places owing to the deficiency of pasturage. Water is generally sufficient. Prices are falling in Jaipur, Bharatpur, Karauli and Ajmer, are rising in Dungarpur, Tonk and Merwara and are steady elsewhere. Cattle emigration from Ajmer-Merwara is increasing.

Central India.—The rainfall during the week was general in Indore, Bhopal. Baghelkhand, Bundelkhand and the Southern States The principal falls were over 3 inches in Kannod, over 1 inch in Indore, Mehedpur and Garoth, ½ inch in the Khargon pargana of Indore, over 7 inches in Bundelkhand and over 1 inch in Dhar, Barwani, Jhabua and Manpur of the Southern States. More rain is wanted in Indore, the Datia State of Bundelkhand, Malwa and the Southern States. The weather is seasonable. Sowings of autumn crops are nearing completion in Gwalior and are in progress elsewhere. Weeding is in progress throughout. Land is being prepared for spring crops in the Southern States. Standing crops are generally good Agricultural stock is good except in some villages of the Sendhwa paragana of Indore. The fodder supply is sufficient throughout. Prices are high in Baghelkhand, are normal in Bhopal and are steady elsewhere.

Central Provinces.—The weather has been generally cloudy. Nimar, Akola, Amraoti and Buldana received light showers, while moderate to heavy rain fell in the remaining districts, the largest quantity registered being 12 inches in Raipur. An opportune break seems to be setting in. Transplantation and thinning of rice and weeding and ploughing of fields for the sowing of spring crops continue. Prospects are generally favourable. Fodder and water are sufficient.. Cattle are in good condition. Prices of staple food grains remained steady or fluctuated slightly.

Feudatory States :—Eight States received light to moderate rain. More rain would be welcome in Raigarh and Sarangarh. The condition of crops is generally good.

Bombay.—During the week general and beneficial rain fell in the Konkan and the Karnatak. Elsewhere the fall was very slight. More rain is generally needed for standing crops and for agricultural operations. Crops have been damaged by rats in two talukas of Karachi and by insects in two talukas of Bijapur and are withering in Kaira and in the Gujarat Native States. Second sowing has been retarded;and standing crops are withering in parts of Ahmedabad, the Panch Mahals, Ahmednagar, Poona, Sholapur, Satara, Bijapur and Savantvadi. Preparation for the sowing of spring crops has commenced in Sind, Broach, the Deccan, Belgaum and Kolhapur. Cattle are in good condition. Agricultural stock is sufficient except in Thar and Parkar and in two talukas of Poona and Hyderabad. Fodder is sufficient except in five districts of Sind and in Ahmedabad, Kathiawar, Baroda, Cutch and Palanpur. Drinking water is generally sufficient. Water for irrigation is deficient in Sind, Ahmedabad, the Panch Mahals, Kaira, Baroda and Palanpur. Prices have slightly risen in Sind, Gujarat and the Konkan and are steady elsewhere.

Hyderabad.—The rainfall during the week was general. It was light to fair in Mahratwara and very good in Telingana. The highest falls were 10 inches 15 cents in Kalabgur, 9 inches 95 cents in Khammam and 9 inches 21 cents in Mahbubabad. The average fall was 3 inches 13 cents. Autumn crops which needed rain in most places have benefitted by this week's fall and are in fair to good condition but are being damaged by locusts, caterpillars and rats in parts of the Raichur, Usmanabad and Nalgonda districts.

Early rice crop is generally fair to good and is being sown and weeded. Lands are being prepared for the sowing of spring crops. Cattle disease prevails in five talukas. Prices of grains are almost constant. The highest price of *juar* in districts is 10½ seers per rupee in Bidar and Warangal and the lowest 25 seers per rupee in Adilabad.

Mysore.—The rainfall during the week was good in Kolar, Kadur and Shimoga and light elsewhere. The price of rice has slightly fallen in Tumkur and Mysore and that of *ragi* has risen in Kadur. Markets are well supplied. Standing crops are in good condition. The recent rains have been beneficial to crops but more rain is needed in Mysore, Hassan and Chitaldrug. Prospects of the season are fair to good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 4 inches 64 cents. Ploughing for rice and transplantation continue. Prices of food grains are high. The public health is fair. Fodder for cattle is sufficient.

Madras.—The rainfall was very heavy in Kistna, Guntur and South Canara, heavy in the Vizagapatam littoral and Godavari, light in Madras, *nil* in Tinnevelly and good to fair elsewhere. Standing crops are fair to good but require more rain in six districts. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. The water-supply is sufficient except in Ganjam and Kurnool and in parts of Godavari, Bellary, Anantapur, Nellore, South Arcot, Madura, Ramnad, the west coast and the central parts except Trichinopoly. Pasture and fodder are generally sufficient. Prices are stationary.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

[29th July 1915.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Amendment of s. 56 of the Naval Discipline Act.

1.—(1) In paragraph (*a*) of subsection (3) of section fifty-six of the Naval Discipline Act, which relates to authorities having power to try offences, for the words " when the tender is absent from the ship, by the officer in command of the tender" there shall be substituted the words " in the case of a single tender absent from the ship, by the officer in command of such tender, and in the case of two or more tenders absent from the ship in company or acting together, by the officer in immediate command of such tenders. "

(2) In paragraph (*d*) of the same subsection after the words " naval barracks " there shall be inserted " be exercised by. "

Trial of officers for disciplinary offences in time of war.

2. The following section shall be inserted after section fifty-seven of the Naval Discipline Act :—

" 57A.— (1) Where any officer borne on the books of any of His Majesty's ships in commission is in time of war alleged to have been guilty of a disciplinary offence, that is to say, a breach of section seventeen, eighteen, nineteen, twenty-two, twenty-three, twenty-seven, or forty-three of this Act, the officer having power to order a court martial may, if he considers that the offence is of such a character as not to necessitate trial by court martial, in lieu of ordering a court martial, order a disciplinary court constituted as herein-after mentioned.

(2) A disciplinary court shall be composed of not less than three nor more than five officers, of whom one shall be a commander or of higher rank.

(3) A disciplinary court shall have power to impose any punishment inferior to detention in the scale herein-before contained, but no greater punishment.

(4) The Admiralty may from time to time frame general orders for regulating the assembling, constitution and procedure and practice of disciplinary courts under this section, and may by those regulations apply, with the necessary modifications, to disciplinary courts the provisions of sections sixty-two to sixty-four and sections sixty-six to sixty-nine of this Act relating to courts martial, and the regulations shall provide for evidence being taken on oath and empower the court to administer oaths for that purpose. "

Amendment of s. 90 of Naval Discipline Act.

3. Section ninety of the Naval Discipline Act shall extend to vessels in His Majesty's service in time of war other than hired vessels, and accordingly for the words " With respect to hired vessels in His Majesty's service in time of war" there shall be substituted the words " With respect to vessels in His Majesty's service in time of war, whether belonging to His Majesty or not, which are not wholly manned by naval ratings, but, " and the word " hired " shall be omitted wherever it occurs in that section.

Liability of seamen, &c., for maintenance of wives and children.

4. The following section shall be inserted after section ninety-eight of the Naval Discipline Act: —

"98A.—(1) A person subject to this Act shall be liable to contribute to the maintenance of his wife and of his children, and also to the maintenance of any bastard child of which he may be proved to be the father, to the same extent as if he were not so subject ; but execution in respect of any such liability or of any order or decree in respect of such maintenance shall not issue against his person, pay, arms, ammunition, equipments, instruments, or clothing ; nor shall he be liable to be punished for the offence of deserting or neglecting to maintain his wife or family, or any member thereof, or of leaving her or them chargeable to any union, parish, or place.

(2) When any order or decree is made under any Act or at common law for payment by a man who is or subsequently becomes subject to this Act either of the cost of the maintenance of his wife or child, or of any bastard child of whom he is the putative father, or of the cost of any relief given to his wife or child by way of loan, a copy of such order or decree shall be sent to the Admiralty or any officer deputed by them for the purpose, and in the case—

(*a*) of such order or decree being so sent ; or

(b) of it appearing to the satisfaction of the Admiralty or any officer deputed by them for the purpose that a person subject to this Act has deserted or left in destitute circumstances, without reasonable cause, his wife or any of his legitimate children under fourteen years of age,

the Admiralty or officer shall order to be deducted from the daily pay of the person so subject to this Act, and to be appropriated in liquidation of the sum adjudged to be paid by such order or decree, or towards the maintenance of the wife or children of the person, as the case may be, in such manner as the Admiralty or officer may think fit, a portion of such daily pay not exceeding—

where the person is a petty officer or a non-commissioned officer who is not below the rank of sergeant—in respect of a wife or children, one shilling, and in respect of a bastard child, sixpence;

in the case of any other person subject to this Act—in respect of a wife or children, sixpence, and in respect of a bastard child, fourpence:

Provided that no such deductions from pay in liquidation of the sum adjudged to be paid by such order or decree as aforesaid shall be ordered unless the Admiralty, or officer deputed by them, are satisfied that the person against whom the order or decree was made has had a reasonable opportunity of appearing to defend the case before the court by which the order or decree was made, and a certificate, purporting to be a certificate of the commanding officer of the ship on which he was or is serving, or on the books of which he was or is borne, that the person has been prevented by the requirements of the service from attending at a hearing of any such case shall be evidence of the fact unless the contrary is proved.

(3) Where a proceeding under any Act or at common law is instituted against a person subject to this Act for the purpose of enforcing against him any such liability as above in this section mentioned, the process may be served on the commanding officer of the ship on which he is serving, or on the books of which such person is borne, or where, by reason of the ship being at sea or otherwise, it is impracticable to serve the process on such commanding officer, the process may be served by being left with the Admiralty for transmission to such commanding officer, but such service shall not be valid unless there is left therewith in the hands of such commanding officer or Admiralty a sum of money (to be adjudged as costs incurred in obtaining the order or decree, if made against the person on whom the process is issued) sufficient to enable him to attend the hearing of the case and to return to his ship or quarters, and such sum may be expended by the commanding officer for that purpose, and no process whatever under any Act or common law in any proceeding in this section mentioned shall be valid against a person subject to this Act if served after such person is under orders for service on a foreign station.

The production of a certificate of a receipt of the process purporting to be signed by such commanding officer as aforesaid shall be evidence that the process has been duly served unless the contrary is proved.

Where, by an order or decree sent to the Admiralty or officer in accordance with subsection (2) of this section, the person against whom the order or decree is made is adjudged to pay as costs incurred in obtaining the order or decree any sum so left with the process as aforesaid, the Admiralty may cause a sum equal to the sum so left to be paid in liquidation of the sum so adjudged to be paid as costs, and the amount so paid by the Admiralty shall be a public debt from the person against whom the order or decree was made, and, without prejudice to any other method of recovery, may be recovered by deductions from his daily pay, in addition to those mentioned in subsection (2) of this section.

(4) This section shall not apply to persons subject to this Act where such persons are officers.

No. 1960-Est.-A.

The 8th September, 1915.

RESOLUTION—By the Government of India, Foreign and Political Department.

In paragraph 9 of the Resolution by the Government of India in the Foreign Department No. 2485-Est.-A., dated the 1st September 1911, announcing the introduction of a scheme for the reorganisation of the Political Department of the Government of India, it was declared that future entrants into the Political Department, both civilians and military officers, would be graded strictly in accordance with the date from which each officer is entitled to count his service for increment under the time scale. The strict application of this rule to a group of military officers selected simultaneously for the Department has given rise to certain difficulties, while similar difficulties are also liable to occur in the event of two or more officers of the Indian Civil Service of the same year being taken into the Department.

2. With the approval of His Majesty's Secretary of State for India the Government of India are accordingly pleased to decide that seniority in the Political Department will be governed by the following rules :—

(1) The seniority *inter se* of military officers recruited for the Department simultaneously shall be regulated by the dates of their first commissions.

(2) The seniority *inter se* of members of the Indian Civil Service shall be reckoned in the same manner as in the Provinces ; that is to say, according to the order in which they stand on the list resulting from the combined marks of the open competitive and final examinations for admission into the service.

(3) The relative seniority of a member of the Indian Civil Service on the one hand and of a military officer on the other shall be determined with reference to the length of their service in the Indian Civil Service and the Political Department, respectively.

The above rules will govern the seniority of all officers admitted into the Political Department subsequently to the 1st September 1911.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th September 1915:—

No. 10 OF 1915.

A bill further to amend the Indian Trusts Act, 1882.

WHEREAS it is expedient further to amend the Indian Trusts Act, 1882; It is hereby enacted as follows:— [II of 1882.]

Short title.

1. This Act may be called the Indian Trusts (Amendment) Act, 1915.

Amendment of section 20 of Act II of 1882.

2. In section 20 of the Indian Trusts Act, 1882 (hereinafter called the said Act), the following amendments shall be made, namely:— [II of 1882.]

(*i*) To clause (*b*), the following proviso shall be added, namely:—

"Provided that, after   , no money shall be invested in any such annuity being a terminable annuity unless a sinking fund has been established in connection with such annuity; but nothing in this proviso shall apply to investments made before the date aforesaid."

(*ii*) After clause (*b*), the following new clause shall be inserted, namely:—

"(*bb*) in India three and a half per cent. stock, India three per cent. stock, India two and a half per cent. stock or any other capital stock which may at any time hereafter be issued by the Secretary of State for India in Council under the authority of an Act of Parliament and charged on the revenues of India;" [Cf. 56 & 57 Vict., c. 53, s. 1 (*d*).]

(*iii*) In clause (*c*) after the word "Council," the words "or by the Government of India" shall be added.

Insertion of new section 20A in Act II of 1882.

3. After section 20 of the said Act, the following section shall be inserted, namely:—

Power to purchase redeemable stock at a premium.

"20 A. (*1*) A trustee may invest in any of the securities mentioned or referred to in section 20, notwithstanding that the same may be redeemable, and that the price exceeds the redemption value: [Cf. 56 & 57 Vict., c. 53, s. 2]

Provided that a trustee may not purchase at a price exceeding its redemption value any security mentioned or referred to in clauses (*c*) and (*d*) of section 20 which is liable to be redeemed within fifteen years of the date of purchase at par or at some other fixed rate, or purchase any such security as is mentioned or referred to in the said clauses which is liable to be redeemed at par or at some other fixed rate at a price exceeding fifteen per centum above par or such other fixed rate.

(*2*) A trustee may retain until redemption any redeemable stock, fund or security which may have been purchased in accordance with this section."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to extend the powers of trustees in the matter of the investment of trust funds somewhat on the lines of sections 1 and 2 of the Trustee Act, 1893 (56 & 57 Vict., c. 53). Section 20, clause (*b*), of the Indian Trusts Act 1882, (II of 1882), unlike the English Act, does not allow the investment of trust funds in India sterling stock, a defect which it is proposed to remedy. The same clause permits investment not only in annuities of the class in connection with which sinking funds have been established, but also in terminable annuities without sinking funds, such as the A annuities created on the purchase of certain Indian Railways. Annuities of the latter class are not regarded as suitable for the investment of trust funds, and it is proposed to exclude them from the scope of the clause, but not to prejudice the position of trustees who may have bought them already. The necessary provision is made in sub-clauses (*i*) and (*ii*) of clause 2 of the Bill.

2. Clause (*c*) of section 20 of the Act of 1882 contemplates the investment of trust funds in the securities of Railway or other Companies the interest on which is guaranteed by the Secretary of State for India in Council. In some cases, *e. g.*, of branch line Railway Companies, the guarantee is sometimes expressed as given by the Government of India It is desirable to make it clear that investment is equally permissible in the latter case. Clause 2, sub-clause (*iii*), of the Bill accordingly provides for this.

3. Section 2 of the Trustee Act, 1893 (56 & 57 Vict, c. 53), empowers trustees, subject to certain restrictions, to purchase redeemable stock at a premium. Clause 3 of the Bill supplies the want of a similar provision in the Indian Trusts Act, 1882 (II of 1882), which has been experienced in some quarters.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

Postponement of proceedings.

5. On receipt of a notice under section 4, the prescribed authority may, if it is of opinion that a postponement of the proceeding as against such soldier is necessary in the interests of justice, certify the fact in the prescribed manner to the Court in which the proceeding is pending, and thereupon such Court shall postpone the proceeding as against such soldier for the prescribed period, or, if no period has been prescribed, for such period as it thinks fit.

Court may proceed when no certificate received within certain period.

6. If, after the issue of a notice under section 4, the prescribed authority either certifies that such postponement is not necessary or fails to certify, in the case of a soldier resident in the district in which the Court is situate within two months, or in any other case within three months from the date of the issue of the notice under section 4, that such postponement is necessary, the Court may, if it thinks fit, continue the proceeding.

Power to set aside decrees and orders passed against an Indian soldier serving under war conditions.

8. (*1*) In any proceeding before a Civil or Revenue Court in which a decree or order has been passed against any Indian soldier whilst such soldier was serving under war conditions, such soldier may apply to the Court which passed the same for an order to set it aside; and if he satisfies the Court that default after the 5th of May, 1915, has been made in complying with the provisions of section 3 or 4, the Court shall, or, in any other case if the interests of justice require such a course, the Court, subject to such conditions (if any) as it thinks fit to impose, may make an order setting aside the decree or order as against such soldier:

Provided, firstly, that any such application is made within three months from the date on which such soldier ceased to serve under war conditions; secondly, that no decree or order shall be set aside on any such application unless notice thereof has been served on the opposite party; and thirdly, that when the decree or order is of such a nature that it cannot be set aside as against such soldier only, it may be set aside as against all or any of the parties against whom it has been made.

(*2*) The provisions of section 5 of the Indian Limitation Act, 1908, shall apply to applications under this section. [IX of 1908.]

(*3*) Where an order is made in the exercise of the power conferred by sub-section (*1*), the Court shall continue the proceeding.

Power of Civil or Revenue Court to refer question of whether service was under war conditions or not.

9 If any Civil or Revenue Court is in doubt whether any Indian soldier is or was at any particular time serving under war conditions, such Court may refer the point for the decision of the prescribed authority, and the certificate of such authority shall be conclusive evidence on the point.

11. In computing the period of limitation prescribed by the Indian Limitation Act, 1908, or any other law for the time being in force for any suit, appeal or application to any Civil or Revenue Court in which the plaintiff, appellant or applicant is an Indian soldier, the time during which such soldier has been serving under war conditions, since the 4th of August, 1914, shall be excluded.

IX of 1908.

Power to apply the provisions of this Act to other persons in the service of the Crown.

12. The Governor General in Council may, by notification in the Gazette of India, direct that all or any of the provisions of this Act shall apply to any other class of persons in the service of His Majesty specified in such notification in the same manner as they apply to Indian soldiers, and upon such notification such provisions shall apply accordingly.

Repeal of Ordinance No. II of 1915.

13. The Indian Soldiers (Litigation) Ordinance, 1915, is hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

During the course of the present war it was found necessary to enact measures for the protection of the interests of Indian soldiers serving under war conditions. This object was effected by the promulgation of Ordinance II of 1915 which provided for the special protection in respect of civil and revenue litigation of Indian soldiers serving under war conditions. The main objects sought to be secured were that cases to which Indian soldiers were parties should not be proceeded with unless their adequate representation in such proceedings had been secured and that power should be given to the Courts to set aside decrees or orders passed when these conditions had not been observed. A further privilege conferred was the exclusion of any period of service under war conditions from the period of limitation.

The Ordinance has been in operation for four months and, so far as conclusions may be drawn from the limited experience of its working, has been found to meet the objects with which it was passed.

As the Ordinance will cease to be operative in November it is necessary to re-enact the provisions contained in it in a permanent form on the statute book The present Bill effects this object and makes only such formal changes in the provisions of the Ordinance as are necessary in view of their permanent enactment. Opportunity has however been taken to add a fuller definition of the term " serving under war conditions ", which will be suitable after the termination of the present war.

The attention of the Governor General in Council has been further drawn to the fact that there are certain classes of servants of the Crown, who are not technically within the definition of the term " Indian soldier " although it is possible that they have an equal claim to protection of the same nature. Clause 12 therefore gives power to the Governor General in Council to extend the protection conferred by the Bill to persons of this class.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th September 1915 :—

No. 12 OF 1915.

A bill to amend certain enactments and to repeal an enactment.

WHEREAS it is expedient that certain formal amendments should be made in the enactments specified in the First Schedule ;

AND WHEREAS it is also expedient that the enactment specified in the Second Schedule, which is unnecessary, should be expressly and specifically repealed ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Repealing and Amending Act, 1915.

Amendment of certain enactments.

2. The enactments specified in the First Schedule are hereby amended to the extent and in the manner mentioned in the fourth column thereof.

Repeal of certain words and figures in Act VIII of 1915.

3. The enactment specified in the Second Schedule is hereby repealed to the extent mentioned in the fourth column thereof.

Savings.

4. This Act shall not affect the validity, invalidity, effect or consequences of anything already done or suffered, or any right, title, obligation or liability already acquired, accrued, or incurred, or any remedy or proceeding in respect thereof, or any release or discharge of or from any debt, penalty, obligation, liability, claim or demand, or any indemnity already granted, or the proof of any past act or thing ;

nor shall this Act affect any principle or rule of law, or established jurisdiction, form or course of pleading, practice or procedure, or existing usage, custom, privilege, restriction, exemption, office or appointment, notwithstanding that the same respectively may have been in any manner affirmed, recognized or derived by, in or from any enactment hereby repealed.

THE FIRST SCHEDULE.

AMENDMENTS.

(See section 2.)

1	2	3	4	5
Year.	No.	Short title.	Amendments.	Explanations.
1867	XXV	The Press and Registration of Books Act, 1867.	In section 21, after the word "books" the words "or papers" shall be inserted.	The power in the existing section only allows exemption of books. There are certain classes of papers, *e.g.*, railway tickets which are not technically "books", which it is desirable to take power to exempt. Hence the amendment.
1882	IV	The Transfer of Property Act, 1882.	In the last paragraph of section 59 and in clause (*c*) of section 69 of the said Act, for the words "and Akyab" and for the words "or Akyab" the words "Akyab and in any other town which the Governor General in Council may, by notification in the Gazette of India, specify in this behalf," and the words "Akyab or in any other town which the Governor General in Council may, by notification in the Gazette of India, specify in this behalf" shall be substituted respectively.	The extension of a portion of the Transfer of Property Act to Upper Burma has brought to notice the fact that a custom exists in the town of Mandalay of making mortgages by delivery of title deeds, and it is desirable, in the interests of the traders of that town, to make provision for the legalisation of that practice. As similar circumstances may possibly occur in the future, the amendment has been made in a general form, and it is, at the same time, thought desirable to make a consequential amendment in section 69 (*c*).
1887	IX	The Provincial Small Cause Courts Act, 1887.	In section 8, sub-section (*1*), for the words "an Additional Judge" the words "Additional Judges" shall be substituted, and in sub-sections (*2*) and (*3*) of the same section, for the words "the additional" the words "an additional" shall be substituted, and in sub-section (*4*) of the same section, before the word "additional" the word "senior" shall be inserted.	It has been found desirable on administrative grounds to take power to appoint more than one additional judge to a Provincial Small Cause Court. Hence the amendment.
1911	III	The Criminal Tribes Act, 1911.	In section 10 for the word "direct" the word "issue" shall be substituted, and after the word "tribe" the words "either or both of the following directions, namely" shall be inserted, and the word "or" where that word occurs between clauses (*a*) and (*b*), shall be omitted.	The existing law only permits of the orders being made in the alternative. It is desirable that the power should be cumulative or alternative.
1913	VII	The Indian Companies Act, 1913.	In section 246, after the word "company" where that word occurs for the last time in sub-section (*1*), the following shall be added :—"and shall make rules providing for all matters relating to the winding up of companies which, by this Act, are to be prescribed."	The amendment has been made to bring the rule-making power into accord with the definition of "prescribed" in the Act. Doubts have been expressed as to the power of High Courts to give effect to the definition of "prescribed".

THE SECOND SCHEDULE.

REPEAL.

(See section 3.)

1	2	3	4	5
Year.	No.	Short title.	Extent of repeal.	Explanation.
1915	VIII	The Assam Labour and Emigration (Amendment) Act, 1915.	In the Schedule the words and figures "s. 174, clause (*a*)."	The words are superfluous.

STATEMENT OF OBJECTS AND REASONS.

THIS small Bill makes certain formal and unimportant amendments in certain Acts of the Governor General in Council. The reasons for the amendments are explained in column 5 of the Schedule to the Bill. Opportunity has also been taken to repeal superfluous words in another Act.

The 3rd September, 1915.

Collective fines.

13. *Whenever any weapon or part of a weapon or ammunition forming part of the equipment of a company or other similar unit is lost or stolen, the Commandant may, after making such inquiry as he thinks fit, impose a collective fine upon the subordinate officers and men of such unit, or upon so many of them as, in his judgment, should be held responsible for such loss or theft.* [Cf. (2) Such plea may be proved by the production of the warrant or order directing the act, and, if it is so proved, such *member of the Constabulary* shall thereupon be discharged from liability in respect of the act so done by him notwithstanding any defect in the jurisdiction of the authority which issued such warrant or order.

(3) All suits and proceedings (whether civil or criminal) against any person which may lawfully be brought for anything done or intended to be done under the powers conferred by, or in pursuance of, any provision of this Act or the rules thereunder, shall be commenced within three months after the act complained of was committed and not otherwise; and notice in writing of such suit or proceeding and of the cause thereof shall be given to the defendant or his superior officer one month at least before the commencement of the suit or proceeding.

Application of Act to other bodies enrolled for service on frontier.

20. The Local Government, *subject to the control* of the Governor General in Council, may, by notification in the official Gazette, apply, with such modifications (if any) as it may think fit, any of the provisions of this Act and the rules thereunder to the *Border Militia* or to any persons for the time being enrolled for similar service on the external frontier of British India.

THE SCHEDULE.

Conditions of Service.

[*See section 2, clause (a).*]

AFTER you have served for (*such periods as the Local Government may have prescribed in this behalf*) in the *Frontier Constabulary* maintained under the *North-West Frontier Constabulary Act, 1915,* you may at any time, when not on active service, apply for your discharge, through the officer to whom you may be subordinate, to the Commandant, or to the *District Constabulary Officer* of the district in which you may be serving, and you will be granted your discharge after three months from the date of your application, unless your discharge would

cause the vacancies in the *Frontier Constabulary* to exceed one-tenth of the sanctioned strength, in which case you shall be bound to remain until this objection is waived by competent authority or removed. But when on active service you shall have no claim to a discharge, and you shall be bound to remain to do your duty until the necessity for retaining you in the *Frontier Constabulary* ceases, when you may make your application in the manner hereinbefore prescribed:

Provided that, if you wish to withdraw from the *Frontier Constabulary*, you may resign at any time before the expiration of the first three months of your service, but not afterwards until the completion of the period prescribed as aforesaid:—

Provided, also, that the Commandant or the *District Constabulary Officer* may, if he thinks fit, allow you to resign at any time on your giving three months' notice of your wish to do so.

Signature of *the* member of the Constabulary *in acknowledgment of the above having been read to him.* — *A. B.*

Signed in my presence after I had ascertained that A. B. understood the purport of what he signed. — *C.D.*

Commandant *or District Constabulary Officer.*

STATEMENT OF OBJECTS AND REASONS.

IN 1904, an Act [the North-West Border Military Police Act, 1904 (IV of 1904)], was passed to provide for the regulation of the Border Military Police Force in the North-West Frontier Province. Under sanction conveyed by His Majesty's Secretary of State for India on the 3rd December, 1914, this Border Military Police Force has been abolished or absorbed, and its place has been taken by the Frontier Constabulary.

2. The main object of the present Bill is to re-enact and apply the provisions of the North-West Border Military Police Act, 1904 (IV of 1904), to the new force. Since the Act in question was passed, the Indian Army Act of 1911 (VIII of 1911), has been enacted by the legislature, and as experience has shown that certain of its provisions should be applied to the Frontier Constabulary, opportunity has been taken to insert them in the Bill. The constitution of the new force has also necessitated minor amendments due to administrative needs. The changes made by the Bill in the provisions of the former Act are indicated by italics in the Bill as introduced in Council.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 9th September 1915, based on the Indian Daily Weather Reports of the period.

1. At the beginning of the week rain was falling along the west Himalayas and in parts of the United Provinces, as well as in northeast India, Burma and the south of the Peninsula. Low pressure conditions, however, appeared over the northwest of the Bay on the 4th, and slowly developed into a depression which had the effect of withdrawing rainfall from northern India and concentrating it in the Peninsula. Some heavy falls were reported from the Konkan coast and Hyderabad. The depression crossed the coast near Waltair on the 7th and was shown lying over the southeast of the Central Provinces on the morning of the 8th. It remained in practically the same position during the next 24 hours, but decreased somewhat in intensity. Except for a few scattered falls of rain, weather was dry throughout the week in the plains of northwest India.

2. *Burma.*—Rainfall was nearly general in Lower Burma except on the 5th, and local in Upper Burma.

Northeast India, including Orissa.—There was nearly general rain in Assam on the 2nd, 3rd and 8th, in Orissa on the 3rd, 4th, 5th and 6th, in Chota Nagpur on the 4th and in Bihar on the 2nd.

The United Provinces, Central India and the Central Provinces.—Nearly general rain fell in the east of the United Provinces on the 2nd, and in the east of the Central Provinces on the 5th and 6th.

Northwest India.—A few light falls of rain were reported from along the western Himalayas, east Rajputana and southeast Gujarat.

The Peninsula.—Rainfall was nearly general in the Konkan every day except the 2nd, in Malabar on the 3rd, 7th and 8th, in the Bombay Deccan on the 7th and 8th, in Hyderabad on the 6th, 7th and 8th, in Mysore on the 3rd, in the Madras Deccan on the 3rd, 7th and 8th, and on the north Madras coast on the 3rd and 6th.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 4th September 1915.

Burma.—Good rain was general in Lower Burma. In the dry zone the fall was meagre but moderate rain fell elsewhere. Transplantation of winter rice in Lower Burma is nearing completion. In Upper Burma transplantation of irrigated paddy and sowing of *juar* and other miscellaneous crops continue, but these operations are being retarded in some districts for want of rain. Reaping of early sesamum continues. Standing crops are generally healthy but are beginning to suffer from want of rain in the dry zone districts. The price of unhusked rice in Rangoon has risen further and the market is strong at Rs. 179 per 100 baskets.

Assam.—The weather is seasonable. The rainfall during the week was general. It was moderate to heavy in all districts. Damage has been done to paddy crops to a certain extent by the recent floods in Goalpara, Kamrup and Sibsagar and by insect pests in Cachar, Sylhet and Sibsagar. Plucking and manufacture of tea continue. Transplantation of winter rice and harvesting of autumn rice and jute are in progress. Re-transplantation of winter rice fields damaged by floods has commenced in Kamrup and Darrang. Sowing of pulses has commenced in Goalpara. Prospects of tea are good and those of paddy and jute are poor in Sylhet and fair elsewhere. The price of common rice has fallen slightly. Cattle disease is reported in three districts Insufficiency of fodder is reported in six districts.

Bengal.—During the week heavy rain fell in some of the eastern Bengal districts but it was generally light to moderate elsewhere. More rain is urgently required in the western districts for the transplantation of winter paddy and for the growth of the standing crops Transplantation of winter rice is approaching completion. Weeding has commenced. Harvesting of jute and other autumn crops is in progress. Damage to standing crops by floods continues to be reported from the districts of the Dacca division Fodder is scarce in parts of Jessore, Pabna, Dacca, Mymensingh and Tippera. Cattle disease is reported from ten districts. Scarcity still exists in Bankura and Tippera Agricultural loans were issued on a moderate scale in Birbhum. The number of persons employed during the week under the District Board Road Works in Bankura was 4,671. The average price of common rice has risen by about 2·7 per cent as compared with that of the previous week.

Bihar and Orissa.—The rainfall during the week was general over the Province, the fall being light in Chota Nagpur and in South Bihar and generally moderate in the rest of the Province. Transplantation of paddy continues More rain is urgently wanted in Orissa and in parts of Chota Nagpur and Bihar. Harvesting of jute is going on and that of other autumn crops has commenced in some districts Standing crops are, on the whole, doing well except in parts of Champaran, Muzaffarpur, Monghyr and Bhagalpur where the crops have been damaged by floods and in Singhbhum where their condition is unsatisfactory owing to insufficient rainfall. The price of common rice has risen in five and fallen in six districts. Cattle disease is reported from sixteen districts. A test work was opened in the Kolhan Government estate in Singhbhum on Saturday last when it was attended by 60 workers. Transplantation of paddy is being retarded for want of sufficient rain in some of the Feudatory States of Orissa.

United Provinces.—Rain has again fallen throughout the Provinces, while the Upper and Central Doab report the need for more. Heavy floods have occurred in Oudh and in the Allahabad and Gorakhpur divisions causing serious damage in many places. The amount of damage is not yet ascertained. Standing crops are in good condition and prospects are still good. Harvesting of early crops, weeding and transplantation of late rice and preparation of fields for poppy and spring crops continue. Agricultural stock is in good condition but there is still some cattle disease. Grazing is scarce in Saharanpur and fodder is getting dear in Meerut Markets are adequately stocked. Prices are practically stationary.

Punjab.—Except for slight showers in certain districts the weather remained dry. Rain is badly wanted everywhere. Sowings of autumn crops have been nearly completed and are generally below normal on irrigated and very much restricted on unirrigated areas. The condition of standing irrigated crops is generally fair but unirrigated crops are suffering severely from want of rain and in the south-east they are reported as withering. Reaping of autumn crops, sowing of *toria* and ploughings for spring crops have commenced in some districts. Cattle are generally healthy but are getting weak in certain districts owing to the scarcity of green fodder. Dry fodder and water for

drinking and irrigation are generally sufficient. Prices have a slight upward tendency and range between warning and scarcity rates. Price of wheat:—Lyallpur 7¾, Ambala, Ferozepore and Lahore 8½ and Rawalpindi 9 seers per rupee.

North-West Frontier Province.—Rain fell in some places during the week but it is much needed still in Dera Ismail Khan. The weather is comparatively cool in Peshawar and hot and clear in Bannu. The condition of standing crops on irrigated areas is average and on unirrigated areas poor in Peshawar and Dera Ismail Khan and below average in Bannu. *Shaftal*, spring oilseeds and vegetables are being sown and cotton is being picked in Peshawar. The sugarcane crop is still being damaged by insects in the Bannu tahsil. Sowings of autumn crops have been concluded in Bannu and are in progress in Dera Ismail Khan and Lakki. No sowings have been made on unirrigated areas in Bannu. Harvesting of cotton crop has commenced in the Bannu tahsil with outturn average. The condition of cattle is good. Water and fodder are sufficient except in certain villages in the Nowshera tahsil where fodder is insufficient and in certain villages of Dera Ismail Khan where water is scarce. The Paharpur canal is running. Prices are rising in Dera Ismail Khan and are stationary but high in Peshawar In Bannu the price of wheat is tending to rise and that of barley, gram and maize is stationary.

Jammu.—The rainfall during the week was fairly good. Prices are fluctuating. Wheat sells from 8 to 12 and maize from 8½ to 16 seers per rupee. The condition of standing crops is good. There is no cattle disease. Fodder is sufficient.

Kashmir.—Report not received.

Rajputana.—The weather is generally hot and cloudy. The rainfall during the week was 146 cents in Kotah and 310 cents in Tonk. Slight falls are reported from Jhalawar, Karauli, Jaipur, Bundi and Bharatpur. Standing crops are withering for want of rain everywhere except in Kotah, Jhalawar and parts of the eastern Rajputana States. More rain is badly wanted. Pasturage and fodder are sufficient in Bharatpur, Jaipur, Bundi and Kotah but are generally scarce elsewhere and cattle are becoming weak in consequence. Water is generally sufficient. Prices are generally rising especially in Dungarpur and Banswara. Cattle emigration from Ajmer-Merwara and Marwar continues.

Central India.—The rainfall was general throughout. The principal falls were over 3 inches in the Kannod pargana of the Indore State and in Bundelkhand and in Dhar of the Southern States, over 2 inches in the Sarangpur pargana of Malwa and over 1 inch in the Ringnod pargana of Malwa and in Manpur of the Southern States More rain is badly wanted in the Nimawar, Mehdipur and Rampura Bhanpura districts of the Indore State and throughout the Southern States. Insufficient rain was received in the Nadigaon tahsil of the Datia State in the Bundelkhand Agency and in Malwa. Sowing of autumn crops is nearing complетion in Gwalior. Weeding is in progress in Indore, Bhopal, Bundelkhand. Malwa and the Southern States. Fields are being prepared for the sowing of spring crops in Bhopal, Baghelkhand, Bundelkhand and the Southern States. Standing crops are generally in good condition but they are withering in the Jaora, Ratlam, Sitamau, Sailana and Piploda States of the Malwa Agency and in the Southern States for want of rain. Agricultural stock is in good condition except in some villages of the Sendhawa pargana of the Indore State and in parts of the Jaora, Rutlam, Sitamau, Piploda States of the Malwa Agency. Cattle disease is reported in parts of Dhar, Barwani, Alirajpur and Jobat of the Southern States. The fodder supply is sufficient throughout except in the Mehdipur and Rampura Bhanpura districts of the Indore State, in the States of the Malwa Agency and in parts of Dhar of the Southern States. Prices are high in Baghelkhand, are normal in Bhopal, are fluctuating in the Indore State and are steady elsewhere.

Central Provinces.—The northern and the Nerbudda Valley districts and Akola received practically no rain during the week but good rain was received in the south of the Provinces and the rainfall up to date has been sufficient everywhere. Transplantation and thinning of rice are approaching completion. Weeding of autumn crops and preparation of fields for the next spring crops continue. The condition of standing crops is good but rice is being damaged by insects in Chhattisgarh. Fodder and water are sufficient. Agricultural stock is in good condition. Prices of wheat and rice are steady in the districts where these staples are of importance. Fluctuations in the prices of other food grains are unimportant.

Feudatory States.—Good showers were received in the States but more rain is required in Kawardha, Sarangarh and Sakti. Prospects are generally good. Rice is dear in Jashpur.

Bombay.—Rain fell during the week throughout the Presidency Proper. It was sufficient and beneficial in the Konkan and partial but helpful in the revival of standing crops in parts of Ahmedabad, Surat and Kathiawar. Elsewhere the fall was slight. More rain is generally needed Agricultural operations have been retarded in Ahmedabad, the Panch Mahals and Belgaum Crops are withering in the Panch Mahals, Kaira and Sholapur, in six talukas of Poona and Bijapur, in five talukas of Ahmedabad and Ahmednagar and in two talukas of

Belgaum and in parts of Thar and Parkar, Satara and the Gujarat Native States. Preparation for the sowing of spring crops continues in Sind, the Deccan and Kolhapur. Fodder is sufficient except in five districts of Sind and in parts of Ahmedabad, Cutch, Palanpur, one division of Kathiawar and seven mahals of Baroda. Cattle are in good condition. Agricultural stock is sufficient except in the desert tract of Thar and Parkar, and two talukas of Poona and Hyderabad. Drinking water is generally sufficient. Water for irrigation is deficient in Sind, Ahmedabad, the Panch Mahals, Kaira and Baroda. Prices have slightly risen in the Karnatak and are steady elsewhere.

Hyderabad.—The rainfall during the week was plentiful in five districts and fair to light elsewhere. The average fall was 1 inch 66 cents. Autumn crops which needed rain in many places have benefitted enormously and are in fair to good condition but they are being damaged somewhat by insects, caterpillars and rats in parts of the Raichur, Usmanabad and Nalgonda districts. Early rice crop is fair to good and is being weeded. Lands for spring crops are being prepared and sowings have commenced in places. Cattle disease prevails in seven talukas. Prices of grains are high and steady. Coarse rice is selling at 9½ and white *juar* at 14 seers per rupee in Hyderabad City. The highest price of *juar* in districts is 10 seers per rupee in Warangal and the lowest 24 seers per rupee in Adilabad.

Mysore.—The rainfall was good in Bangalore and Kolar and light elsewhere. The price of rice has risen slightly in Tumkur, Mysore, Kadur and Chitaldrug. Markets are well supplied. Standing crops are generally in fair condition but more rain is needed in Mysore, Tumkur, Hassan, Kadur and Shimoga. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 1 inch 43 cents. Transplantation of rice has been completed in parts. Prices of food grains are high. The public health is fair. Fodder for cattle is sufficient.

Madras.—The rainfall was very heavy in the Vizagapatam Agency, good to fair in Ganjam, the Vizagapatam littoral, Godavari, Kistna, Kurnool, Sandur, Cuddapah, The Carnatick, the central parts, Pudukotai, Madura, the Nilgiris and the west coast except Travancore and light elsewhere. Standing crops are fair to good but require more rain in parts of eight districts. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowing of paddy, sugarcane and dry crops is proceeding normally. The condition of catte is generally good. The water-supply is sufficient except in Kurnool and South Canara and in parts of Ganjam, Vizagapatam, Godavari, Bellary, Anantapur, Nellore, South Arcot, Madura, Ramnad, Malabar and the central parts except Trichinopoly. Pasture and fodder are generally sufficient. Prices have slightly fallen.

HISTORICAL RECORD OF THE IMPERIAL VISIT TO INDIA, 1911.

This book, which has been compiled by the Government of India from the official records, contains a complete and authoritative account of the proceedings connected with the visit of Their Imperial Majesties to India and with the Coronation Durbar of December 1911, including lists of the persons taking part in all the various celebrations and ceremonies at which Their Imperial Majesties were present, as well as a large number of illustrations, portraits of Ruling Princes and others, coloured Persian and Sanscrit texts, maps, plans, etc.

The book has been published by Mr. John Murray, Albemarle Street, London, W., and copies are now procurable from all the principal booksellers.

There are two editions—a popular one in a cloth binding, price Rs. 7-8-0, and a very limited edition *de luxe*, price Rs. 250, which has been subscribed for. As the popular edition is strictly limited, and a considerable portion of it has been absorbed in requisitions already received and in the requirements of libraries, schools, etc., it will probably be exhausted very soon after publication. Those who have not yet ordered copies but require them are therefore advised to order at an early date. Application should be made to the Superintendent, Government Printing, India, Calcutta.

DEPARTMENT OF EDUCATION.

NOTIFICATIONS.

ECCLESIASTICAL.

Simla, the 15th September, 1915.

No. 467.—The Governor-General in Council is pleased to direct that the following shall be substituted for Rule 1 and paragraphs 2 and 3 of Rule 9, part V of the Ecclesiastical Rules published with the Department of Education Notification no. 212, dated the 10th May 1913 :—

Rule 1. All State charges for churches [except those referred to in Rule 21 (*b*) (2) which are debitable to "23—Ecclesiastical"] in civil, military or State railway stations are provided from Public Works funds from the ordinary grant for Imperial Works under "45—Civil Works." The limits of expenditure prescribed in Rules 9 10, 23-A and 24 following are exclusive of any charges on account of establishment and tools and plant and grants made under these rules may be increased by a percentage not greater than that which the total charges levied on account of establishment, tools and plant bear to the total outlay on works.

Rule 9. * * * * *

The maximum grant will be found by multiplying the estimated cubic contents of the approved design by a rate 15 per cent. in excess of the local rate per cubic foot for ordinary first-class single storeyed buildings of substantial construction, such as court-houses. In the absence of a building of the class referred to, the cubic foot rate may be obtained from the nearest station where such a building exists in similar conditions, or the rate may be taken from an existing church in the same or the nearest station without the 15 per cent. excess, which is allowed when the rate has been derived from a building other than a church. It is to be clearly understood that the local rate is to be calculated with reference to the actual cost of construction of the building from which it is derived, that is, charges for establishment and tools and plant, if any were paid, should be excluded from the calculation. The cubic contents of a church will be arrived at by multiplying

the plinth areas of the different parts, such as main rooms, verandahs, tower, etc., by the heights from plinth to roof level of these parts and then by adding them together. If a portion of the sitting accommodation has been provided for in a gallery the area of the gallery multiplied by half the height of the church from plinth level to the portion of the roof under which the gallery is situated should also be added In the case of a sloping roof the height will be measured to the mean height of the slope.

STATEMENTS LAID ON THE TABLE.

The Hon'ble Sir Reginald Craddock :—" My Lord, I beg to lay on the table a statement* showing the number of Colonials employed in Government service in British India, which was promised in reply to a question asked by the Hon'ble Mr. Surendra Nath Banerjee at the meeting of the Legislative Council held on the 8th September, 1914."

QUESTIONS AND ANSWERS.

[*Sir Harcourt Butler; Mr. Surendra Nath Banerjee; Sir Reginald Craddock.*] [8TH SEPTEMBER, 1915.]

The Hon'ble Sir Harcourt Butler:—"My Lord, I beg to lay on the table a summary* showing the steps taken during the [illegible] two years in the various Indian provinces to promote free elementary education among the poorer classes in general, and Muhammadans in particular, which was promised in reply to a question asked by the Hon'ble Mir Asad Ali at the meeting of the Legislative Council, held on the 12th January, 1915."

QUESTIONS AND ANSWERS.

The Hon'ble Mr. Surendra Nath Banerjee asked :—

Confinement of one Nogendra Chandra Chandra as a prisoner in the Multan Central Jail.

1. "Will the Government be pleased to state whether it is a fact :—

(1) that a prisoner named Nogendra Chandra Chandra is now confined in the Multan Central Jail;

(2) that his admission weight was 123 lbs., that when he came to the Multan Jail his weight was 104 lbs., and that his weight now varies from 90 to 100 lbs.;

(3) that he was first given *surkhi* pounding, then made to work with the well gang, and that recently he was awarded three months' bar-fetters, and with the fetters on was made to work as before with the well gang;

(4) that he threw himself into a well and was put into a solitary cell and given a daily task of grinding 12 seers of grain;

(5) that when this work was given to him he was in the convalescent gang, and that no prisoner in a convalescent gang is ordinarily given work of this description;

(6) that since then he has been suffering from acute pain in the chest and was awarded twenty-five stripes for not doing his full task."

The Hon'ble Sir Reginald Craddock replied :—

"1. It is a fact that a prisoner Nogendra Chandra Chandra is now confined in the Multan Central Jail. He is undergoing sentences of seven years under section 121A, Indian Penal Code, and of three months' rigorous imprisonment under section 52 of the Prisons Act (1894).

2. On his first admission to jail in October, 1910, his weight was recorded as 111 pounds. On admission to the Multan Central Jail on the 28th July, 1914, his weight was 104 pounds. Since then it has varied from 98 to 106 pounds.

3. As a task he was at first given *surkhi* pounding and was subsequently put to work with the well gang. Recently he was awarded six months' bar-fetters, but was not made to work on the well while wearing them. In fact the fetters were removed from the prisoner shortly after their imposition to enable him to rejoin the well gang.

4. It is not the case that he threw himself into a well. He was relegated to separate (not solitary) confinement in pursuance of a punishment of six months' separate confinement passed upon him in October, 1914, the period of which had not expired. He was at the same time given a task of grinding twelve seers of grain.

5. He has been in the convalescent gang since July, 1914. He was medically examined and certified fit for the above mentioned task when it was given him. Such a task is commonly given to prisoners in the convalescent gang.

6. On the 12th April, 1915, he was awarded 15 stripes after having been medically examined and certified as fit to receive them. He then made no complaint of suffering from acute pain in the chest. This punishment was awarded, not for failing to turn out the full quantity of work, but for persistent refusals to do any work at all."

QUESTIONS AND ANSWERS.

[8TH SEPTEMBER, 1915.] [*Mr. Surendra Nath Banerjee; Sir Reginald Craddock; Rai Sita Nath Ray Bahadur; Sir William Clark; Mr. Huda.*]

The Hon'ble Mr. Surendra Nath Banerjee asked:—

Constitution of an Advisory Board of a judicial character to deal with applications for exemption from internment under the Defence of India Act.

2. "(*a*) Do the Government propose to consider the propriety of constituting an Advisory Board of a judicial character to deal with applications for exemption from internment under the Defence of India Act, 1915?

(*b*) Is it the case that Mr. Asquith has announced that an Advisory Board of a judicial character is to be constituted to deal with applications even by aliens for exemption from internment under the English Defence of the Realm Act?"

The Hon'ble Sir Reginald Craddock replied:—

"(*a*) The answer is in the negative.

(*b*) It is understood that an Advisory Committee of a judicial character has been constituted in England to deal with applications by aliens for exemption from internment. For further information as to the Advisory Committee, the Hon'ble Member is referred to the official report of Mr. Asquith's speech in the House of Commons on the 13th May 1915."

The Hon'ble Rai Sita Nath Ray Bahadur asked:—

Loans advanced to promote industries in the United Provinces and Bengal.

3. "(*a*) Has the attention of Government been drawn to a newspaper report of certain observations, regarding the advance of loans to promote industries in the United Provinces and in Bengal, stated to have been made by the Hon'ble Member for Commerce and Industry in the course of an interview with the members of the Southern India Chamber of Commerce at Madras on the 9th August last?

(*b*) Is it a fact that such loans were advanced in the United Provinces and in Bengal?

(*c*) If the answer to (*b*) is in the affirmative, will Government be pleased to state the respective amounts of such loans in the United Provinces and Bengal, and the parties to whom the same were advanced?"

The Hon'ble Sir William Clark replied:—

"I presume the Hon'ble Member refers to an inaccurate report of my meeting with the Southern India Chamber of Commerce which appeared in the press. I made no mention of any loans having been given in Bengal for the promotion of industries. As regards the United Provinces, the advances I had in mind were those to which I referred in my speech on the Resolution moved by the Hon'ble Member on the 17th March last on the subject of the Indian Sugar industry."

The Hon'ble Mr. Huda asked:—

Number of alien enemy subjects interned in India.

4. "Will the Government be pleased to state the number—

(*a*) of alien enemy subjects (Austrians, Germans and Turks) interned in India since the commencement of the war in Europe, and

(*b*) of such enemy subjects in India that are still un-interned, giving the provinces where they reside and the avocations they are following?"

The Hon'ble Sir Reginald Craddock replied:—

"As regards Austrians and Germans, the Hon'ble Member is referred to the Communiqué issued by the Government of India on the 13th August, of which a copy* is laid on the table.

Turkish subjects may be broadly classified into European Turks and Asiatic Turks. The former have been repatriated. Of the latter (including

* *Vide* Appendix B.

QUESTIONS AND ANSWERS.

[*Mr. Huda; Sir Harcourt Butler; Maharaja Ranajit Sinha; Sir Reginald Craddock.*] [8TH SEPTEMBER, 1915.]

the crew of a Turkish steamer, of whom some may possibly be Europeans) 97 have been interned. There are many Asiatic Turkish subjects, [illegible] most part in Bombay and Bengal, whose sympathies with Turkey are sli[illegible] and who have been left at liberty. They number approximately 1,100.

The Government of India do not consider it necessary to call for detailed information as to the avocations of those who have not been interned."

The Hon'ble Mr. Huda asked :—

Christian Missionary and educational institutions carried on by Germans in India, and grants to such institutions.

5. "(*a*) Is it a fact that Germans are still carrying on Christian Missionary and educational institutions in India? If the answer is in the affirmative, will the Government be pleased to state the number of such institutions and the places where they are located?

(*b*) If the answer be in the negative, will the Government be pleased to state the arrangements, if any, that have been made for the continuation of these institutions?

(*c*) Is it a fact that such German institutions have received grants or pecuniary assistance from the Government after the commencement of the war? If the answer be in the affirmative, will Government be pleased to state the amount of money paid, from time to time, to these institutions and the names of the recipients?"

The Hon'ble Sir Harcourt Butler replied :—

"It is a fact that Germans continued their Missionary and educational institutions in India after the outbreak of the war. The Hon'ble Member is referred to the Communiqué issued by the Home Department on the 13th August, 1915, for a statement of the policy which the Government of India have pursued towards Germans and Austrians in India. In pursuance of the recent decision to repatriate German and Austrian men of non-military age, it has become necessary to make other arrangements regarding the educational institutions at present managed by these Missions. Since therefore the whole question is at present in a transition stage, the Government of India do not consider that it would serve any useful purpose to collect detailed information regarding the number of the institutions, the places where they are located, or the names of the recipients of the grants; nor are they in a position to make any statement regarding the various arrangements which are being or may be made by Local Governments for the safeguarding of educational interests.

The amount of recurring grants ordinarily allotted from public funds to educational institutions managed by German and Austrian Missions is Rs. 1,99,849 per annum. Should the Hon'ble Member desire it, a list of the Missions and institutions which have been in receipt of grants can be shown to him."

The Hon'ble Maharaja Ranajit Sinha asked :—

Representation of the Delhi Province on the Imperial Legislative Council.

6. "Is it a fact that, before the creation of the Chief Commissionership of Delhi, the people of this city had the privilege of electing a member for the Local Council? If so, will the Government be pleased to consider the desirability of giving to the people of the Delhi Province the privilege of electing a representative on the Imperial Council?"

The Hon'ble Sir Reginald Craddock replied :—

"Prior to the constitution of the Delhi Province the Delhi Municipality elected no member of its own to the Legislative Council of the Punjab, but shared in the privileges of election enjoyed by other Municipalities in that Province. As regards the possibility of creating a fresh electorate in the Delhi Province, I would refer the Hon'ble Member to the answer given by me on the 25th February, 1913, to a somewhat similar question asked by the Hon'ble Maharaja Sir Manindra Chandra Nandi of Kasim Bazar."

QUESTIONS AND ANSWERS.

[8TH SEPTEMBER, 1915.] [*Maharaja Ranajit Sinha; Sir Reginald Craddock.*]

The Hon'ble Maharaja Ranajit Sinha asked :—

Utilisation of the Senior Sub-Inspector of each Thana solely for investigating purposes

7. "Is it a fact that two or more Sub-Inspectors are usually posted at every Police station? If so, do the Government propose to issue instructions to all Local Governments and Administrations to arrange that the services of the senior Sub-Inspector of each Thana may be solely utilised for investigating purposes?

The Hon'ble Sir Reginald Craddock replied :—

" The recommendations of the Police Commission were in favour of placing all police-stations in charge of Sub-Inspectors, and of aiming at entrusting investigations to Sub-Inspectors only. In their Resolution of the 21st March, 1905, dealing with the report of the Commission, the Government of India endorsed this policy, and it is believed that all provinces have since been working towards it. The statistics do not support the statement that two Sub-Inspectors are generally posted at every police-station, and the policy must be affected so largely by local conditions that the Government of India do not consider that rigid instructions of the description suggested would be expedient."

The Hon'ble Maharaja Ranajit Sinha asked :—

Recruitment of officers for Provincial and Subordinate Executive Services.

8. " Will the Government be pleased to state if the officers required for the Provincial Executive and Subordinate Services for Delhi Province are solely recruited from Delhi? If not, do the Government propose to issue orders that the officers required for similar services, both in the Punjab and United Provinces, may also be recruited from Delhi? "

The Hon'ble Sir Reginald Craddock replied :—

" Officers of the Permanent and Subordinate Executive Services for employment in Delhi are recruited from the Punjab. In recognition of the claims of inhabitants of Delhi an arrangement has been come to with the Punjab by which the Chief Commissioner makes certain nominations annually to the list of candidates. The matter is one which does not seem to affect the United Provinces."

The Hon'ble Maharaja Ranajit Sinha asked :—

Filling up of the vacancies in the Indian Medical Service by the promotion of Assistant Surgeons.

9. " Will Government be pleased to state how many of the vacancies caused by the deputation to the Military Department of officers of the Indian Medical Service holding appointments as Civil Surgeons have been filled by the promotion of Civil Assistant Surgeons?"

The Hon'ble Sir Reginald Craddock replied :—

" Since the outbreak of hostilities, 84 Civil Assistant Surgeons have been temporarily promoted to act as Civil Surgeons in vacancies caused by the reversion of Indian Medical Service officers to military duty. This total does not include those Civil Assistant Surgeons who have been appointed to act as Civil Surgeons in place of Military Assistant Surgeons similarly reverted."

The Hon'ble Maharaja Ranajit Sinha asked :—

Religious and Charitable endowments.

10. " Will the Government be pleased to state if they propose to take any action in the matter of religious and charitable endowments regarding which a Conference was held at Delhi under the presidency of the Hon'ble Sir Reginald Craddock?"

The Hon'ble Sir Reginald Craddock replied :—

" The Hon'ble Member is referred to the Communiqué issued by the Government of India on the 23rd January 1915, a *copy of which is laid on the table The position remains as then explained."

* *Vide* Appendix C.

QUESTIONS AND ANSWERS.

[*Maharaja Ranajit Sinha ; Sir Reginald Craddock ; Mr. Gillan.*] [8TH SEPTEMBER, 1915.]

The Hon'ble Maharaja Ranajit Sinha asked :—

Amendment of the Court-fees Act.

11. "Will the Government be pleased to state if the opinions of the Local Governments have been received regarding the proposed amendment of the Court-fees Act according to the assurance given by the Hon'ble Sir Reginald Craddock last year, when the Resolution on the subject was moved on 2nd March, 1914?"

The Hon'ble Sir Reginald Craddock replied :—

"Owing to the outbreak of war and the claims of more emergent legislative business, it has not yet been found possible to make the comprehensive reference to Local Governments on the subject of the amendment of the Court-fees Act which is under contemplation."

The Hon'ble Maharaja Ranajit Sinha asked :—

Refund of Court fees in *ex parte* cases.

12. "With reference to the statement made by the Hon'ble Sir Reginald Craddock in accepting my Resolution regarding refund of court-fees in *ex-parte* cases which was moved at the Imperial Legislative Council held on 2nd March, 1914, will the Government be pleased to state if the opinions of the Local Governments and Administrations on the subject have been received? If so, do the Government propose to take any action in the matter?"

The Hon'ble Sir Reginald Craddock replied :—

"The Hon'ble Member will see from the reply which I have just given that the point has not yet been further considered."

The Hon'ble Maharaja Ranajit Sinha asked :—

Discontinuance of the running of the Loop Mail on the East Indian Railway.

13. "(*a*) Is it a fact that a fast train called the Loop Mail used to be run on the loop line of the East Indian Railway, and that this train has been discontinued since March, 1915?"

(*b*) Are the Government aware that the discontinuance of the train has caused much inconvenience to people living in the vicinity of the loop line?

(*c*) Do the Government propose to take any action in the matter?"

The Hon'ble Mr. Gillan replied :—

"(*a*) Owing to a considerable decrease in the Coaching earnings in consequence of the outbreak of war, the East Indian Railway Administration found it necessary to cancel, with effect from 1st December 1915, the running of a mixed train in each direction between Howrah and Jamalpur; and as their discontinuance caused some inconvenience to the public at stations where the Loop Mails were not booked to stop, the Loop Mails were converted into Loop Passengers stopping at every station on and from 1st March, 1915. The average speed of the Loop Mail prior to its conversion was only about 23 miles per hour, and it was never a fast train.

(*b*) The Government are not aware that these alterations of the train service have caused inconvenience to the travelling public. The only complaint that the East Indian Railway Administration have received so far, is from the residents of one station who asked for the number of halts at stations between Burdwan and Howrah on the main line to be curtailed, with a view to an earlier arrival of the Down Loop Passenger train at Howrah.

(*c*) In these circumstances, the Government do not propose to take any action in the matter."

QUESTIONS AND ANSWERS.

[8TH SEPTEMBER, 1915.] [*Maharaja Ranajit Sinha; Sir Reginald Craddock; Mr. Gillan; Mir Asad Ali.*]

The Hon'ble Maharaja Ranajit Sinha asked :—

Officers of the Provincial Judicial service holding appointments as acting and permanent Judges in High Courts

14. "(a) Will the Government be pleased to furnish a statement showing the names of officers of the Provincial Judicial service holding appointments as acting or permanent Judges in the High Courts of the different provinces?

(b) Will the Government be pleased to state if any member of the Provincial Judicial service was ever permanently appointed as a Puisne Judge of the Calcutta High Court?

(c) Do the Government propose to fill up any vacancy in the Calcutta High Court by promotion from the Provincial Judicial service from the rank of District Judges?"

The Hon'ble Sir Reginald Craddock replied :—

"I place on the table a statement* which answers the first part of the Hon'ble Member's question. It is understood that the Hon'ble Maharaja, in addition to the Chartered High Courts, refers also to Chief Courts and to Courts of Judicial Commissioners.

The answer to the second part is in the negative, and to the third that selection for a particular vacancy can only be made on a comparison of the relative merits of the candidates available at the time that it has to be filled, and with due reference to the composition of the Court. Permanent appointments to the Chartered High Courts, it may be added, are made by the Crown."

The Hon'ble Maharaja Ranajit Sinha asked :—

Improvement in the working of the Bengal and North-Western Railway.

15. "(a) Is it a fact that trains on the Bengal and North-Western Railway generally do not run according to the scheduled time, and that there is at present no fast train on that Railway?

(b) Is it a fact that there is no regular platform at most of the stations on the said line?

(c) If so, will the Government be pleased to state if they propose to take steps with a view to improving the working of the said Railway?"

The Hon'ble Mr. Gillan replied :—

"(a) The information before the Railway Board indicates that the Bengal and North-Western Railway use every endeavour to maintain the punctuality of their different services. The Company are peculiarly situated in that their trains run through many junctions, a large proportion of which are foreign. The maintenance of the punctuality of their trains does not therefore rest solely with themselves.

(b) By regular platforms it is presumed that raised platforms are meant. The Railway Board are advised by their Senior Government Inspector that these have been provided where required by the traffic.

(c) The answer is in the negative.

The Government do not propose to take any action, but if the Hon'ble Member has any particular case to bring to the notice of the Railway Board in which the public interest is thought to have been neglected on the Bengal and North-Western Railway, it will be investigated."

The Hon'ble Mir Asad Ali asked :—

Import into India of Straits silver dollar free of duty.

16. "Will Government be pleased to state—

(a) whether it is a fact that the Government-of-India rupee is allowed free import in the Straits Settlements, given its full value of sixteen annas, and circulated freely without loss to persons importing it?

*Vide. Appendix D.

QUESTIONS AND ANSWERS.

[*Sir William Meyer ; Mir Asad Ali ; Sir Reginald Craddock ; Sir William Clark.*] [8TH SEPTEMBER, 1915.]

(*b*) if so, whether Government propose to make a similar concession of allowing import into India, free of duty, in the case of Straits silver dollars ?"

The Hon'ble Sir William Meyer replied :—

"(*a*) As far as the Government of India are aware no import duty is levied on silver imported, whether as coin or bullion, into the Straits Settlements. The rupee is not the standard coin of that colony and, though it is understood to be used there to some extent, the Government of India are not in a position to state the conditions under which it circulates.

(*b*) The answer to the second part of the question is in the negative."

The Hon'ble Mir Asad Ali asked :—

General revision of the pay of lower paid clerks in the several departments of the Government of Madras.

17. "Will Government be pleased to state—

(*a*) whether they are aware of any proposals under consideration by the Government of Madras for the general revision of the pay of lower paid clerks in the several departments of that Government ?

(*b*) whether they propose to consider the advisability of consulting Local Governments as to the necessity for a general revision of the pay of lower paid clerks ?"

The Hon'ble Sir Reginald Craddock replied :—

"(*a*) Beyond some recent proposals for the raising of the pay of clerks in the Registration Department, the Government of India are not aware of any general scheme of revision under consideration by the Government of Madras.

(*b*) The attention of the Hon'ble Member is invited to the answer given to a very similar question asked by the Hon'ble Sardar Daljit Singh at the meeting of the Imperial Legislative Council on 3rd February, 1914."

The Hon'ble Mir Asad Ali asked :—

Levy of fees under Act VII of 1913.

18. "Will the Government be pleased to state—

(*a*) whether it is a fact that in the matter of the levying of fees under the Indian Companies Act, 1913 (VII of 1913), an Indian Company is taxed upon registration or when recording or registering certain documents more than an English Company with the same capital ?

(*b*) whether it is a fact that while an English Company is exempted from paying any fee for filing documents an Indian Company under the present Act is required to pay a fee of Rs. 5 for each document filed ?

(*c*) if the answers to the above questions are in the affirmative, whether the Government propose to consider any measure to obviate this differentiation between an English and an Indian Company ?"

The Hon'ble Sir William Clark replied :—

"All companies to which the Indian Companies Act applies are liable to payment of the same fees for acts which they are required to do under that enactment. No distinction is drawn under that Act between companies registered in England and those registered in British India, or between companies owned by English and those owned by Indian shareholders.

It is the case, however, that the fees for registration and filing of documents in England prescribed by the English Company law are somewhat lower than those prescribed by the Indian Companies Act.

The Government of India have at present under consideration the question of reducing the fees payable under the Indian Companies Act."

QUESTIONS AND ANSWERS.

[8TH SEPTEMBER, 1915.] [*Mir Asad Ali; Sir William Clark; Mr. J. H. Abbott; Sir, Reginald Craddock; Sir Harcourt Butler.*]

The Hon'ble Mir Asad Ali asked :—

Resolutions passed at the eleventh session of the All-India Temperance Conference held at Madras in December, 1914.

19. "Will Government be pleased to state :—

(*a*) whether they have received a copy of the Resolutions passed at the eleventh session of the All-India Temperance Conference which was held at Madras in December last?

(*b*) if so, what action, if any, they propose to take thereon, as regards Resolutions III and IV?"

The Hon'ble Sir William Clark replied :—

"As regards the first question, Government have received no information regarding the proceedings of the 11th session of the All-India Temperance Conference held in Madras last December, other than that contained in the local press.

As regards the second question, it is understood from the press that the third and fourth Resolutions dealt with questions relating to the powers and functions of Advisory Committees, and with measures further to restrict consumption. The policy of Government in regard to most of these questions is stated in the Excise Resolution of the 25th July 1914 and its enclosures to which I may refer the Hon'ble Member.

The only point not covered by the Resolution and its annexures is that relating to the prohibition of temporary licenses at fairs, festivals and melas and during public holidays. With regard to this, the grant of temporary licenses on such occasions is, under existing orders, already restricted to such extent as local conditions permit."

The Hon'ble Mr. J. H. Abbott asked :—

Promotion of Anglo-Indian Inspectors of Police to Deputy Superintendents of Police.

20. "Do the Government propose to consider whether European and Anglo-Indian Inspectors of Police, of proved merit and ability, may not be more freely promoted to the office of Deputy Superintendent of Police than is the case at present?"

The Hon'ble Sir Reginald Craddock replied :—

"The promotion of Inspectors, whether European, Anglo-Indian or Indian, to be Deputy Superintendents of Police is a matter within the discretion of the Local Governments, and the Government of India do not think it necessary to issue any general instructions with the object indicated by the Hon'ble Member."

The Hon'ble Mr. J. H. Abbott asked :—

Establishment of a Training College for men in the United Provinces.

21. "Do the Government propose to consider the expediency of—

(*a*) establishing a Training College for men in the United Provinces on the same lines as that established at Sanawar,

(*b*) establishing a similar College in the Bombay Presidency, and

(*c*) establishing similar colleges in each Presidency and Province where these do not already exist?"

The Hon'ble Sir Harcourt Butler replied :—

"The question of the establishment of one or more additional training colleges was considered at the Conference on the education of the Domiciled

Community in India held at Simla in July 1912. It was pointed out, in the course of discussion, that the number of trained teachers annually required for India is limited. The Government of India are in agreement with the views expressed in Resolution IV of that Conference. Difficulties have arisen regarding the establishment of a college at Bangalore; but proposals are on foot for the establishment of a college at a suitable site in the Madras Presidency. The Government of India are not of opinion that it is necessary to establish similar colleges at present in the United Provinces, in the Bombay Presidency or elsewhere."

The Hon'ble Mr. J. H. Abbott asked:—

Increased rate of pay sanctioned for the Indian Subordinate Medical Department.

22. " (*a*) Will the Government be pleased to state whether the increased rate of pay recently sanctioned for the Indian Subordinate Medical Department also carries with it a corresponding increase of pension?

(*b*) If the answer to part (*a*) is in the affirmative, has the Government notified the fact to the public and those concerned, or does it propose to do so?"

His Excellency the Commander-in-Chief replied:—

" The answer to clause (*a*) is in the negative.

The answer to clause (*b*) does not arise."

The Hon'ble Mr. J. H. Abbott asked:—

Anglo-Indian Settlements in India.

23. " Will the Government be pleased to state whether they propose to consider the advisability of aiding and supporting Anglo-Indian Settlements in India and encouraging British Soldiers and Territorials on the completion of their service to settle in them?"

The Hon'ble Sir Reginald Craddock replied:—

" I am afraid the question is in too vague a form to permit of a definite reply. Speaking generally there would not seem to be much room for action on the lines indicated. The extent to which the settlement of particular communities on land can properly receive encouragement at the hands of Government is a question with which Local Governments are primarily concerned."

The Hon'ble Mr. J. H. Abbott asked:—

Scholarships reserved for Anglo-Indians.

24. " Will Government be pleased to state what, if any, steps are taken to prevent scholarships reserved for the Anglo-Indian community being given to Indians with English names?"

The Hon'ble Sir Harcourt Butler replied:—

" Under the provincial Codes for European Schools, scholarships treated of in those Codes are reserved for Europeans, and it is incumbent on Local Governments, in all cases of doubt, to decide the proper application of that term as defined. The Government of India are not aware that any special steps have been found necessary to prevent the result alluded to by the Hon'ble Member."

QUESTIONS AND ANSWERS; THE INDIAN TRUSTS (AMENDMENT) BILL.

[8TH SEPTEMBER, 1915.] [*Mr. J. H. Abbott; His Excellency the Commander-in-Chief; Sir Reginald Craddock.*]

The Hon'ble Mr. J. H. Abbott asked :—

Number of temporary or other Commissions granted during the war.

25. "Will the Government be pleased to state the number of temporary or other Commissions granted during the war to :—

(*a*) Warrant and Non-Commissioned Officers, Combatant Ranks.

(*b*) Warrant and Non-Commissioned Officers, Supply and Transport Corps.

(*c*) Warrant and Non-Commissioned Officers, Ordnance Department.

(*d*) Commissioned and Warrant Officers of the I.S.M.D.

(*e*) Civil Practitioners in India in the I.M.S."

His Excellency the Commander-in-Chief replied :—

"(*a*) 214 Combatant Warrant and Non-Commissioned Officers have received temporary Commissions in India.

(*b*) None at present; but seven names are under consideration.

(*c*) None at present; but four names are under consideration.

(*d*) No temporary Commissions have been granted.

(*e*) 113 Commissions have been granted."

The Hon'ble Mr. J. H. Abbott asked :—

Employment of Anglo-Indians in the Navy.

26. "Is it a fact that there are no arrangements for the training and employment of Domiciled European and Anglo-Indian lads in the British Navy?"

If so, do the Government propose to consider the expediency of addressing the authorities in the United Kingdom with a view to securing that such arrangements are made?"

His Excellency the Commander-in-Chief replied :—

"Men and boys recruited for the British Navy have to undergo training in establishments in the United Kingdom, and there are no arrangements for sending home recruits from India.

The Government of India do not propose to take up the question at the present time."

THE INDIAN TRUSTS (AMENDMENT) BILL.

The Hon'ble Sir Reginald Craddock :—"My Lord, I move for leave to introduce a Bill to amend the Indian Trusts Act, 1882.

"The object of this Bill is to extend the powers of trustees in the matter of the investment of trust funds somewhat on the lines of the English Act of 1893.

"Section 20 of the existing Indian Trusts Act of 1882, unlike the English Act, does not allow the investment of trust funds in Indian Sterling Stock. It is proposed to remedy this defect.

"The Bill also extends the powers of trustees to invest trust funds in the securities of railways of which the interest is guaranteed by the Government of India. At present this power only applies to railways in which the interest is guaranteed by the Secretary of State. The Bill also lays down the rates at

which trustees may purchase such securities when they are redeemable at par or at some specified rate. On the other hand, it takes away the power of trustees to invest interminable annuities without sinking funds. Future investments, therefore, in trust funds in this class of security will no longer be permissible, but the case of investments already made under the powers given by the existing Act is saved.

"These modifications in the existing law are, I think, such as are likely to commend themselves to the Council, and I beg to move, therefore, for leave to introduce the Bill."

The motion was put and agreed to.

The Hon'ble Sir Reginald Craddock :—"My Lord, I beg to introduce the Bill, and to move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit."

The motion was put and agreed to.

THE INDIAN SOLDIERS (LITIGATION) BILL.

The Hon'ble Sir Reginald Craddock :—"My Lord, I move for leave to introduce a Bill to provide for the special protection in respect of civil and revenue litigation of Indian soldiers serving under war conditions.

"This Bill repeals and re-enacts, with small additions, the Indian Soldiers Litigation Ordinance, II of 1915, which was issued by the Governor General on the 5th of May last. The only reason why this legislation took the form of an Ordinance, in the first place, instead of a Bill was that its terms required much correspondence and consultation in order that the measure might best serve the objects in view. The terms were not settled in time for a Bill to be introduced before the close of the last Delhi sessions of this Council, hence the present Bill to re-enact the Ordinance which would otherwise expire in November, and to put it permanently upon our Statute-book.

"The main objects sought to be secured are that cases to which Indian soldiers are parties should not be proceeded with unless their adequate representation in such proceedings has been secured, and that power should be given to the Courts to set aside decrees or orders passed when these conditions had not been observed. A further privilege conferred is the exclusion of any period of service under war conditions from the period of limitation. The changes made in the Bill from the terms of the Ordinance are those necessary in a permanent enactment as distinct from a temporary one. It has been the common complaint that, when Indian soldiers are serving under war conditions, advantage is often taken of their absence by creditors or other claimants to sue them in circumstances when they are unable properly to defend their suits. They may similarly be prejudiced as plaintiffs, being unable on account of their absence to prosecute a suit properly within the period of limitation. Representations have been made by regimental and military authorities in the past on occasions when Indian soldiers were absent with expeditionary forces. The present great war, however, in which the numbers of Indian soldiers serving under war conditions at home and abroad have attained totals quite unprecedented and unexpected, has brought these difficulties into greater prominence, and the Ordinance of May last and this Bill, which seeks to put it into permanent shape, have been designed to meet these difficulties.

"The term 'Indian soldier' will include any person subject to the Indian Army Act, and the Governor General in Council is given power to declare what is service under war conditions both inside and outside India, both during the

present war and afterwards on any future occasion when the necessity of protecting Indian soldiers on active service may arise. The last clause of the Bill, which is an addition to the Ordinance, takes notice of the fact that there are certain classes of servants of the Crown who are not technically within the definition of the term 'Indian soldier,' although it is possible that they may have a claim to protection of the same nature. Clause 12, therefore, gives power to the Governor General in Council to extend the protection conferred by the Bill to persons of this class.

"I feel quite sure that this Council will heartily approve of a measure designed to benefit the brave soldiers of the Indian Army now fighting in the cause of the Empire in three continents of the world."

The motion was put and agreed to.

The Hon'ble Sir Reginald Craddock:—"I now introduce the Bill, and move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English."

The motion was put and agreed to.

THE REPEALING AND AMENDING BILL.

The Hon'ble Sir Ali Imam:—"My Lord, I move for leave to introduce an Amending and Repealing Bill. It is a small and formal measure involving no material change in the existing law. The reasons for the amendments are explained in the 5th column of the Schedule attached to the Bill, copies of which will be placed before Hon'ble Members. In this Bill opportunity has also been taken to repeal some superfluous words in another Act, VIII of 1915. I move for leave to introduce the Bill."

The motion was put and agreed to.

The Hon'ble Sir Ali Imam:—"My Lord, I beg to introduce the Bill, and to move that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English."

The motion was put and agreed to.

THE NORTH-WEST FRONTIER CONSTABULARY BILL.

The Hon'ble Mr. Grant:—"My Lord, I move for leave to introduce a Bill to provide for the regulation of the Frontier Constabulary in the North-West Frontier Province. In the year 1904 an Act (the North-West Frontier Border Military Police Act, IV of 1904), was passed to provide for the regulation of the Border Military Police Force in that Province. This Force was, however, abolished under sanction conveyed by His Majesty's Secretary of State for India in December, 1914, and its place was taken by a new Force entitled 'The Frontier Constabulary.' The main object of the present Bill is to re-enact and apply the provisions of the North-West Frontier Border Military Police Act of 1904 to this new Force, and, further, to embody in the Bill certain provisions of the Indian Army Act of 1911, which experience has shown may suitably be applied to the Frontier Constabulary. The constitution of the new Force also differs in many particulars from that of the old Border Military Police, and on this account it has been necessary to introduce some new features into the Bill to regularize the administrative control. The Bill thus contains nothing of a novel character, though the necessity for passing it is

somewhat urgent in view of the desirability of conferring on the Local Government of the North-West Frontier Province and the officers concerned the necessary powers to deal on regular lines with questions of discipline and the general administration of the Constabulary. There is no element of contention in the Bill, and I feel confident that the Council will be able to support it without controversy."

The motion was put and agreed to.

The Hon'ble Mr. Grant :—"My Lord, I now introduce the Bill, and move that it, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the North-West Frontier Province Government Gazette in English, and in such other languages as the Local Administration thinks fit.

"I may mention that, if this motion is agreed to, I propose at a subsequent meeting during the present session of Council to move that this Bill be taken into consideration and passed."

The motion was put and agreed to.

THE SIR JAMSETJEE JEJEEBHOY BARONETCY BILL.

The Hon'ble Sir Ali Imam :—"My Lord, I beg to move that the Bill to re-settle the endowment of the Baronetcy conferred on Sir Jamsetjee Jejeebhoy be taken into consideration.

The motion was put and agreed to.

The Hon'ble Sir Ali Imam moved that after clause 27 the following clause be inserted, namely :—

Power to Baronet for the time being to enter into arrangement with Government as to land-revenue payable in respect of land purchased under section 8.

"28. The person for the time being entitled to, and in the enjoyment of the title of Baronet conferred by the said Letters Patent as aforesaid, shall have power, with a view to the more advantageous sale of the land occupied by the said Mansion House and other hereditaments, called Mazagon Castle, in pursuance of the powers in that behalf conferred by section 10, and, notwithstanding anything in this Act contained to the contrary, to enter into an arrangement with the Government of Bombay whereby, in consideration of the waiver in perpetuity by the Government of Bombay of their right to enhance the amount of the assessment to land-revenue for the time being payable in respect of the land occupied by the said Mansion House and other hereditaments, called Mazagon Castle, either the amount of the assessment to land-revenue payable in respect of any land which may be purchased in pursuance of the power in that behalf conferred by section 8, may be enhanced, or an assessment to land-revenue of any land so purchased, which at the time of the purchase thereof shall not be liable to the payment of land-revenue, may be imposed thereon."

The motion was put and agreed to.

The Hon'ble Sir Ali Imam moved that clauses 28 and 29 of the Bill be re-numbered '29' and '30', respectively.

The motion was put and agreed to.

The Hon'ble Sir Ali Imam moved that the Bill, as amended, be passed.

The motion was put and agreed to.

THE INLAND STEAM-VESSELS (AMENDMENT) BILL; THE BENARES HINDU UNIVERSITY BILL.

[8TH SEPTEMBER, 1915.] [*Sir William Clark; Sir Harcourt Butler.*]

THE INLAND STEAM-VESSELS (AMENDMENT) BILL.

The Hon'ble Sir William Clark moved that the Bill further to amend the Inland Steam-Vessels Act, 1884, be referred to a Select Committee, consisting of the Hon'ble Sir Ali Imam, the Hon'ble Sir William Vincent, the Hon'ble Mr. Kesteven, the Hon'ble Sir Fazulbhoy Currimbhoy, the Hon'ble Rai Sita Nath Ray Bahadur, the Hon'ble Mr. Low, the Hon'ble Mr. Stewart and the mover.

He said:—"Hon'ble Members will recollect that this Bill was introduced in the last session of Council. Since then it has been circulated and opinions have been received from those interested in the Bill. While these unanimously approve the principles of the Bill, there have been certain suggestions made for amendments in matters of detail which will be considered in Select Committee."

The motion was put and agreed to.

THE BENARES HINDU UNIVERSITY BILL.

The Hon'ble Sir Harcourt Butler moved that the Bill to establish and incorporate a teaching and residential Hindu University at Benares be referred to a Select Committee, consisting of the Hon'ble Sir Ali Imam, the Hon'ble Sir G. M Chitnavis, the Hon'ble Pandit Madan Mohan Malaviya, the Hon'ble Mr. Kesteven, the Hon'ble Mr. Sharp, the Hon'ble Maharaja Sir Manindra Chandra Nandi of Kasim Bazar, the Hon'ble Mr. Surendra Nath Banerjee, the Hon'ble Mr. Cobb, the Hon'ble Lieutenant-Colonel Gurdon, the Hon'ble Dr. Sundar Lal, and the mover.

He said:—"I need not detain the Council at any length this morning. We have reached a further, but not the final, stage in the promotion of an Hindu University at Benares. It is hardly necessary to remind Hon'ble Members of the reason which induced the Government to proceed with this measure during the war, namely, that there was a very strong desire on the part of the promoters that this Bill should be passed into law during the Viceroyalty of Lord Hardinge with whose name the University will ever be associated, and to whose consistent encouragement and support the success of the movement is, in no small measure, due. Your Excellency was graciously pleased to accede to the request of the promoters in this respect, and I am very glad to be able to say that the negotiations have proceeded on lines which, I think, are worthy and practical, and that there is a general desire in this Council that the Bill should become law during Your Excellency's memorable term of office. It is not that there are not differences of opinion about the Bill. A great many people would like to see another form of constitution and other detailed provisions, but differences of opinion need not result in controversy, and I hope that the Bill will remain a non-controversial measure. In all the statements of opinion—and they are numerous and weighty—I can find no desire to treat this as a controversial measure, and so necessitate its withdrawal. On the contrary, I see a desire to recognise that the promoters of this movement have achieved a great success which reflects credit on India, and I think that I shall not be far from the general sense of this Council when I say that we shall all feel glad and rather proud if, during the greatest war in history, we can place upon the Statute-book a measure creating a new kind of University in India, which owes its existence to non-official effort. The Bill is not an ordinary Bill. It is in the nature of a private Bill which has been taken over by Government, and which is designed to meet, as far as possible, the wishes of the promoters, who have collected large sums of money from the public, amounting, I understand, already to over 50 lakhs of rupees, on certain understandings and with certain objects in view. I

THE BENARES HINDU UNIVERSITY BILL.

[*Sir Harcourt Butler.*] [8TH SEPTEMBER, 1915.]

wish to make it quite clear that the constitution is in no sense a constitution provided by Government. The attitude of the Government has throughout been this, that they desire to help the promoters in every possible way, subject only to those conditions without which neither the Secretary of State nor the Government of India could contemplate the existence of a new University of this kind. In accordance with this attitude, it has been our desire to put upon the Select Committee members of the Hindu community who are interested in the Bill. There are one or two names which we would have liked to have seen added, but the Hon'ble Members in question were unable to attend.

"With these few remarks, I beg to move the motion."

The motion was put and agreed to.

The Council adjourned to Wednesday, the 22nd September, 1915.

Secretary to the Government of India,

[*Referred to in the Answer to Question No. 4.*]

COMMUNIQUÉ.

As some misapprehension appears to exist regarding the action taken by the Government of India since the outbreak of war with Germany and Austria to control the movements of subjects of these nations in this country, the following statement is issued for general information.

On the 4th August, 1914, the registration of all Germans and Austrians at defended ports was ordered to be effected, and on the 8th idem the registration of persons of these nationalities was made general throughout the country. At the same time all were placed under police surveillance, and the extension of sections 5 *et seq.* of the Foreigners Act, 1864, was notified throughout British India, thus preventing these hostile foreigners from travelling without permission.

On the 12th August, the exemption enjoyed by Germans and Austrians under the Arms Act was cancelled, and their disarmament was ordered.

On the 20th August, the Foreigners Ordinance, 1914, was promulgated, which gave power to prohibit or regulate the entry, departure and residence of foreigners in British India, and on the 22nd idem, these powers were delegated to the military authorities with reference to Germans aged not less than 20 or more than 39, and Austrians aged not less than 21 or more than 33. [On the 7th October, when it was known that the military ages in Germany and Austria had been extended, these age limits were put at 17 and 45 years in the case of Germans, and 19 and 42 in the case of Austrians.] As regards all other hostile foreigners of these nationalities Local Governments were similarly empowered, with instructions to exercise such degree of control as circumstances might demand; written paroles vouched for by responsible British subjects were allowed to be taken, though a free hand was reserved to resort to more drastic measures should that be required. The departure from British India of hostile foreigners of military age was prohibited, and that of others restricted to certain ports and dates.

In the case of those of military age the net result of these orders has been their removal (unless for special reasons exceptions were permitted) to the prisoners of war camp at Ahmednagar. The latest figures show 1,143 persons as there interned.

As regards those outside the military ages, although the general policy followed as regards all has been the same, namely, that they should be subjected to whatever degree of restraint was requisite to ensure that they were unable to do harm to the State, orders were issued on the 2nd September that missionaries who were not considered to be obnoxious or dangerous might remain on parole at their posts so long as they continued to be of good behaviour, although failing the observance of this condition other measures were to be resorted to. This was in accordance with the answer in Parliament given by the Under-Secretary of State for India on the 27th August, 1914, to the effect that His Majesty's Government were confident that sympathetic consideration would be extended to German and Austrian missionaries who were engaged in purely religious work.

On these lines Local Governments have since been proceeding, discretion as to individual cases having been left to them. As a general statement it may be said that it has been found necessary in a number of instances to make the restraints more strict than was at first directed, but this has been done on consideration of individual facts and circumstances. It is true that on the 23rd May, 1915, the Government of India ordered the movements of all foreigners to be restricted to the narrowest possible limits, but provincial action as regards persons to whose conduct objection has been taken has mainly consisted in their removal to Ahmednagar (if of military age) or otherwise their concentration at various centres in civil charge, thus ensuring their removal from their normal place of residence and the exercise of a closer supervision than is possible in the case of scattered individuals.

The latest figures available show the following details regarding German and Austrians in civil charge :—

* Details as to the composition of this figure are not available.

It will be apparent from what has been already said that these figures have been and are liable to fluctuation from time to time according as alteration in the treatment of individuals has been found necessary. The Bombay figures, in particular, were compiled some time ago, while the concentration of missionaries in Bihar and Orissa is understood still to be in progress.

Circumstances have now however changed. The prolongation of the war and the methods of savagery adopted by Germany in the conduct of it have engendered feelings of bitterness which cannot be ignored. This is inevitably reflected in the attitude of Germans and Austrians in India towards the British administration, while the strain of exercising supervision over them is bearing heavily on officers already fully employed with other duties.

The Government of India, with the approval of the Secretary of State, have accordingly decided to adopt a general policy of repatriating all German and Austrian women and children and men of non-military age who are not interned as prisoners of war at Ahmednagar, and this will be effected as soon as the necessary arrangements can be completed.

As bearing on the subject it may be of public interest to note that the Secretary of State for Home Affairs stated in the House of Commons on the 27th July that the Repatriation Committee had repatriated from the United Kingdom, since this policy was adopted there, 6,302 alien enemies (including children). Of 14,117 applications presented to the Internment Committee, 7,325 had been refused, and 6,092 granted, while 700 were pending. Consideration had been shown to Austrians and Hungarians in recognition of the fact that British subjects in Austria Hungary had been treated with much more leniency than in Germany.

Connected with the general question is the matter of the grants which German and Austrian missions had prior to the war been receiving from public and local funds. As is known, these institutions had in various instances been conducting educational and philanthropic enterprises, particularly among the backwards races, of benefit to the community, and they had been legitimately assisted from public revenues. On the 15th June, however, orders were issued that all such subsidies should be discontinued.

The question whether anything further is required to safeguard the State from danger from the presence of naturalised Germans and Austrians is engaging the attention of the Government of India in consultation with Local Governments. Effective powers of control have already been taken under the Defence of India Act and the rules made thereunder. In the United Kingdom, the subject has been treated on the following lines. No distinction has been made between naturalised aliens originally of hostile nationality who can establish denationalisation in their country of origin and those who cannot do so, and as regards those who have statutory rights to continue as British subjects the *primâ facie* presumption has been that they should not be subjected to special treatment, unless their attitude or action is shown to be hostile. Action can be initiated either by the military authorities or by the police to establish the need of special treatment and such restrictions are then imposed (extending, if need be, to internment) as the circumstances of each case demand.

The foregoing statement does not deal with such measures of supervision as censorship, etc., which affect others besides hostile foreigners. Neither does it touch upon the action taken in respect of hostile trading.

COMMUNIQUÉ.

As is generally known, the subject of the administration of religious and charitable endowments in this country has, for some time-past, been occupying the attention of Government, and private Bills on the subject have actually been promoted in Madras by Diwan Bahadur L. A. Govindaraghava Ayyar in conjunction with Mr. (now the Hon'ble Justice) Seshagiri Ayyar, and in Bombay by the Hon'ble Sir Ibrahim Rahimtoola. The Government of India had the advantage of discussing the whole question with a mixed conference of officials and non-officials held at Delhi on the 16th March 1914, and the general conclusions then arrived at were made public in a Communiqué, dated the 17th March, 1914. As intimated at that time, the Secretary of State was addressed, and His Lordship has now approved of the proposal of the Government of India, that at a convenient season Imperial legislation should be undertaken dealing with certain main aspects of the matter which, it is thought, may appropriately be provided for in all provinces. Such a Bill will now be drafted, although its introduction is improbable until after the close of the war. Pending its becoming law, it would obviously be inconvenient for separate Provincial legislation to proceed on the same subject.

H. WHEELER,

Secretary to the Government of India.

RESULT OF THE MEASURES ADOPTED IN THE DIFFERENT PROVINCES FOR THE DESTRUCTION OF WILD ANIMALS AND VENOMOUS SNAKES DURING THE YEAR 1914.

Nos. 1528-1543.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

PUBLIC.

Simla, the 11th September, 1915.

RESOLUTION.

The annual reports received from the various local Governments and Administrations show that, during the year 1914, 1,745 persons were killed by wild animals in British India. This figure is about 8·9 per cent higher than the casualties in 1913 but it is lower than in 1910-12. The largest death-roll, as in 1913, was returned by Bihar and Orissa, which was responsible for nearly one-third of the total for all India. The figures for other provinces generally exhibit increases, but in the United Provinces the number of casualties dropped to 122 from 137 in 1913, while there were trivial decreases in the Bombay Presidency and in the North-West Frontier Province. Coorg and Ajmer-Merwara, which returned blank statements in the previous year, record 1 and 3 deaths, respectively, in 1914.

2. The largest number of deaths of human beings was, as usual, caused by tigers, which were responsible for the loss of 646 lives as compared with 641 in 1913. Increases under this head occurred in Bihar and Orissa, the Central Provinces and Berar and Assam, the first named province, with 289 deaths against 251 in the preceding year, showing the highest figure. The depredations of a man-eater in the Ranchi district were responsible for a large proportion of the fatalities. All other provinces except Bombay, which reports 3 deaths as in the last year, show a decline, the most marked being in the United Provinces, where the number has fallen to 9 from 30 in 1913. This decrease is explained by the fact that only 4 persons were killed in the Kumaon Division, which reported 26 deaths in the previous year and as many as 67 in 1912. Tigers claimed 156 victims in Madras, 60 in Bengal and 30 in Burma. Of other animals, leopards were responsible for 281 deaths against [illegible] in 1913. There was a slight decrease in the number of human beings killed by bears, wolves and elephants, the figures under these heads being 95, 137 and 57, against 105, 152 and 62, respectively, in 1913. To hyenas were attributed 27 deaths or 15 more than in the preceding year. The number of deaths recorded under the unclassified head "other animals" rose from 395 in 1913 to 502 in 1914.

3. The loss of human lives due to snake bite amounted to 22,894, the corresponding figure in 1913 being 21,770. The returns under this head show a general increase in nearly all the provinces and, as in 1913, Bihar and Orissa with 5,968 deaths, the United Provinces with 5,513, and Bengal with 4,355 suffered most heavily. Of these three provinces, Bengal shows a slight decrease, while in the other two provinces there was an increase compared with the preceding year. Decreases are noticed in Madras and Assam and no death is reported from Coorg, but the mortality of 1,169 in the Punjab is the highest for that province recorded in recent years. In the last named province *echis* vipers were the greatest source of danger and special measures to exterminate them have been organised. The use made of Sir Lauder Brunton's lancets does not yet afford any useful data on which definite conclusions can be formed as to the efficacy of this method of treatment.

4. The number of cattle reported to have been killed by wild animals totals 94,746, and is slightly in excess of the figure for the preceding year. Assam with 17,739 deaths, an increase of 1,007 over the last year's total, heads the list

of casualties, while Bihar and Orissa with 16,165 comes next. In the former province, the increase is believed to be chiefly due to better registration. Leopards were, as usual, responsible for the largest number of kills and claimed over 50 per cent of the total mortality. Of other animals which figure largely in the destruction of cattle, tigers accounted for 30,418 deaths and wolves for 10,115. Ten thousand nine hundred and thirty-nine head of cattle succumbed to snake bite during the year under review as compared with 10,542 in the preceding year.

5. During the year 1914, 25,903 wild animals were destroyed; in 1913, the number reported was 24,630. The figures for 1914 included 1,481 tigers, 6,557 leopards, 3,076 bears and 3,066 wolves. The total amount paid in rewards for the destruction of wild animals was Rs. 1,91,181 which exceeded the sum so disbursed in 1913 by Rs. 874. There was a considerable increase in the number of snakes destroyed, the figures for 1914 and 1913 being 1,18,816 and 90,186, respectively. This difference was mainly due to the increase of nearly 28,100 over the last year's total in Burma, where floods are believed to have contributed to successful extermination.

6. The number of fresh licenses issued under the Indian Arms Act, 1878, in forms XVI, XVII and XVIII dropped from 25,627 in 1913 to 23,016 in 1914. The total number of licenses in force in the year under report was 1,76,779 against 1,82,412 in the previous year.

ORDER.—Ordered that a copy of this resolution (and annexure) be forwarded to local Governments and Administrations * and that it be published in the supplement to the *Gazette of India* for general information; also that a copy be forwarded to the Director of Statistics.

* Including the Chief Commissioners of the North-West Frontier Province and Ajmer-Merwara and the Resident in Mysore.

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 16th September 1915, based on the Indian Daily Weather Reports of the period.

1. The depression which was lying over the southeast of the Central Provinces at the close of the previous week disappeared without changing its position appreciably. The Arabian Sea current continued to give widespread rain over the northwest of the Peninsula on the 9th and 10th, but it then weakened suddenly and for the next four days there was practically no rain in the Peninsula.

The weakening of the Arabian Sea current coincided with the strengthening of the Bay current, which extended through the United Provinces over the east and north Punjab. The rainfall was heavy at several stations, and was the heaviest that has occurred in the Punjab during the present monsoon. The total amount of rain received during the past week was 8·50″ at Ambala, 5·17″ at Ludhiana, 1·18″ at Delhi, 1·54″ at Hissar and 1·49″ at Lahore. The rainfall in the United Provinces was heaviest at Lucknow, where it amounted to 13·35″ during the forty-eight hours ending at 8 hours on the 15th.

At the close of the week a shallow depression, which had entered the Bay from the east, was apparently crossing the Orissa coast, and there were also indications of unsettled weather over the centre of the Bay, in consequence of which rainfall had increased in the south and east of the Peninsula.

2. *Burma.*—The 11th and 13th were the only days on which rainfall was not nearly general in Lower Burma.

Northeast India, including Orissa.—There was nearly general rain in Orissa and Chota Nagpur on the [illegible]th and 15th, and in Bihar on the 11th and 12th. Local rain fell in Assam and Bengal.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general in the east of the United Provinces every day, except the 14th and 15th, in the west of the United Provinces on the 13th and 14th, in Central India West on the 10th and 15th, in the west of the Central Provinces o[illegible]nd 10th, and in the east of the Central Provinces on the 10th, 11th, 12th and 15th.

Northwest India.—Nearly general rain fell in the east and north Punjab on the 14th. A few light falls occurred in Kashmir and east Rajputana.

The Peninsula.—Rainfall was nearly general in the Konkan on the 9th, in Malabar on the 10th and 11th, in the Bombay Deccan and Hyderabad on the 9th and 10th, in Mysore on the 13th and on the north Madras coast on the 15th.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 11th September 1915.

Burma.—Good rain was general in Lower Burma. It was heavy on the Tenasserim Coast but in the dry zone the fall was slight. Moderate rain fell elsewhere. Transplantation of the main rice crop in Lower Burma is approaching completion. In Upper Burma agricultural operations for autumn and miscellaneous crops continue. Reaping of early sesamum and cotton is progressing. Standing crops are generally healthy but more rain is wanted in the several dry zone districts. The price of unhusked rice in Rangoon has risen further to Rs. 187 per 100 baskets and is considerably above normal.

Assam.—The weather is seasonable. Light to moderate rain fell in all districts. More rain is wanted for the transplantation of winter rice in Darrang. Plucking and manufacture of tea, transplantation of winter rice and harvesting of autumn rice and jute are in progress. Sowing of pulses continues in Goalpara. Some damage to paddy crop by insect pest is reported from three districts and by rats from one district. Prospects of tea are good. Transplanted winter rice is fair, on the whole, and broadcast winter rice and jute are poor in Sylhet and generally fair elsewhere. The price of common rice has risen slightly. Cattle disease is reported from two and scarcity of fodder from six districts.

Bengal.—During the week light to moderate rain fell throughout the Province. More rain is urgently needed in the western districts for the growth of the winter rice crop. Transplantation of winter rice is nearing completion. Weeding is going on. Harvesting of autumn crops is in progress. Prospects of standing crops in east Bengal except in the flooded tracts are generally reported to be satisfactory. Fodder is scanty in parts of Pabna, Dacca, Mymensingh and Tippera. Cattle disease is reported from ten districts. Scarcity exists in Bankura and Tippera. The number of persons employed daily under the District Board Road Works in Bankura amounted to 5,633. The average price of common rice has risen by about 1·6 per cent as compared with that of the previous week.

Bihar and Orissa.—Rain fell in all districts of the Province. The fall was light to moderate. Transplantation of paddy continues. More rain is r[illegible]d in Chota Nagpur and parts of Bihar and Orissa. Harvesting of jute and other aut[illegible]n crops is in progress. Standing crops are doing well except in parts of Muzaffarpur and B[illegible]galpur where serious damage has been done by floods and in Manbhum and Singhbhum [illegible]here the condition of crops is reported to be very unsatisfactory owing to drought. The ave[illegible]ge price of common rice has risen as compared with that of the preceding week. The supply of fodder and water is sufficient. Cattle disease is reported from seventeen districts. The attendance on test work in Singhbhum was 645. Transplantation of paddy continues in the Feudatory States of Orissa but more rain is urgently wanted for the purpose in several States.

United Provinces—[illegible] rain fell throughout the Provinces. Some Western districts reported [illegible] for more though good rain has fallen in these parts. The condition of standing crops is generally good. Lack of rain has caused some damage in western districts and considerable loss has resulted from heavy floods especially in the south Oudh and in the Allahabad and Benares divisions. Another very heavy fall of rain has occurred at Lucknow since reports have been received and increased losses are feared. Picking of cotton and harvesting of indigo, *sawan*, *kakun*, *urd*, maize and early rice continue. Fields are being prepared for spring crops and transplantation of late rice i[s] practically over. Agricultural stock is in good condition though some cattle disease still lingers. Fodder and water are ample except in Saharanpur where grazing is still reported to be scanty. Markets are well stocked but the level of prices remains unchanged.

Punjab.—Light rain fell in parts of all the reporting districts except in the west where the weather was dry. Rain has slightly benefited the crops in parts of the southeast but more rain is badly wanted everywhere. The condition of standing irrigated crops is generally fair but unirrigated crops are suffering severely from want of rain. Reaping of autumn crops, sowing of *toria* and ploughing for spring crops have commenced in some districts. Cattle are generally healthy. Stocks of dry fodder are sufficient but are decreasing. Green fodder is scarce. Water for drinking and irrigation is generally sufficient. Prices are generally stationary but are rising slightly in some western districts and range between warning and scarcity rates. Price of wheat:—Ambala 8¼, Ferozepore and Lahore 8¼, Rawalpindi 8¾ and Lyallpur 9 seers per rupee.

North-West Frontier Province.—The week was rainless. Rain is much needed. The weather is moderate in Peshawar and hot and clear elsewhere. The condition of crops on irrigated areas is average, while on unirrigated areas it is poor in Peshawar and Dera Ismail Khan and below average in Bannu. *Shaftal*, spring oilseeds and vegetables have been sown. Rice is being reaped and fruits, cotton and chillies are being picked in some places in Peshawar with outturn average. Hail fell in a few villages in Bannu damaging maize and sugarcane. Crops are still being damaged by insects in the Bannu tahsil. The condition of cattle is good. Water and fodder are sufficient except in Nowshera where fodder is insufficient and in certain villages of Dera Ismail Khan where both water and fodder are diminishing and are becoming scarce. The Paharpur canal is running. The public health is good. Prices are stationary but high in Peshawar and are rising in Bannu and Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 8 to 12 and maize from 8¼ to [illegible] seers per rupee. The condition of standing crops is fair. There is no cattle disease. Fodder is sufficient.

Kashmir.—No rain fell during the week. Spring crops are being sown. Autumn crops are in a bad condition for want of rain. Cattle are generally healthy. Fodder is insufficient in Baramula. Water is unequal to the demand. Prices are high.

Rajputana.—The weather was generally hot and cloudy. The rainfall was 28[illegible] cents in Kotah, 125 cents in Jhalawar and 166 cents in Tonk. Slight showers are reported from Udaipur, Bharatpur, Dholpur, Karauli and Jaipur. Owing to continued drought crops are withering generally everywhere except in Kotah and in some parts of Jhalawar. More rain is badly wanted. Pasturage and fodder are sufficient in Bharatpur, Bundi and parts of Kotah but are generally scarce elsewhere and cattle are becoming weak in consequence. Cattle disease is reported from Mewar, Dungarpur and Tonk. Water is generally sufficient. Prices are generally rising. Cattle migration from Ajmer-Merwara and Marwar continues.

Central India.—The rainfall was general throughout, the principal falls being over 3 inches in Kannod, over 2 inches in Indore and in the Khargone pargana of the Indore State, over 2 inches in the Bagli State of the Malwa Agency, over 5 inches in Dhar, over 4 inches in Barwani, over 2 inches in Jhabua and Manpur and over 1 inch in Alirajpur and Jobat of the Southern States. Rain is badly needed in the Mohidpur and Rampura Bhanpura districts of the Indore State. It is insufficient in certain tahsils of Gwalior, in the Sarila State of Bundelkhand and in Malwa. Weeding of autumn crops is in progress in Indore, Bhopal, Bundelkhand, Malwa and the Southern States. Fields are being prepared for spring crops in Gwalior, Bhopal, Bundelkhand and the Southern States. Standing crops are generally in good condition but are withering for want of rain in Malwa. Agricultural stock is generally in good condition except in Malwa and in some villages of the Sendhawa pargana of the Indore State. Cattle disease prevails in parts of Jobat of the Southern States. The fodder supply is sufficient throughout except in the Petlawad pargana and the Mehidpur and Rampura Bhanpura districts of the Indore State and in Malwa. Prices are high in Gwalior and Bhaghelkhand, are normal in Bhopal, are rising in Malwa, are fluctuating in the Indore State and are steady elsewhere.

Central Provinces.—Light to heavy rain was received all over the Provinces, the heaviest falls being in Berar and Wardha. Transplantation of rice and thinning operations have been almost completed. Weeding of autumn crops and preparation of land for spring sowings are proceeding. Except for some damage to crops by [illegible] in parts of Damoh, Jubbulpore and the Chhattisgarh area the condition of standing crops is good. The supply of fodder and water is adequate. Cattle are faring well. There are no marked variations in prices of food grains. Prices of wheat and rice are stationary in the districts where they are the staples.

Feudatory States.—Good rain fell during the week. Sarangarh alone needs more rain. Crops are in good condition. The price of rice fell in Jashpur.

Bombay.—Rain fell during the week almost throughout the Presidency Proper and was sufficient and beneficial in the Konkan, the Deccan, Bijapur, Savantvadi and Kolhapur. Slight rain fell elsewhere. More rain is needed for agricultural operations and standing crops in Thar and Parkar, Gujarat and the Gujarat Native States and in parts of Larkana, Thana, Ahmednagar and the Karnatak. Crops are withering in Ahmedabad, the Panch Mahals, Kaira and the Gujarat Native States and in seven talukas of Thar and Parkar. They have been damaged by locusts in two talukas of the Upper Sind Frontier. Preparation for the sowing of spring crops continues. Sowings have commenced in Broach, Poona, Sholapur and Belgaum. Fodder is sufficient except in five districts of Sind and in parts of Ahmedabad, Kaira and Cutch and in one State and three thanas of Palanpur, one division of Kathiawar and ten mahals of Baroda. Agricultural stock is generally sufficient. Cattle are in good condition except in the Hilly Tracts of Karachi, three talukas of Thar and Parkar and Hyderabad. Drinking water is generally sufficient. Water for irrigation is deficient in Sind, Ahmedabad, the Panch Mahals, Kaira and Baroda. Prices are generally steady.

Hyderabad.—The rainfall was excessive in five districts and was fair to good and evenly distributed elsewhere. The highest falls were 20 inches 55 cents in Palam, 14 inches 78 cents in Hadgaon, 13 inches 11 cents in Kandahar, 12 inches 81 cents in Nander and 13 inches 4 cents in Kalam. The average fall was 5 inches 25 cents. Autumn and early rice crops are generally fair to good and have been damaged somewhat by rats, caterpillars and locusts in parts of the Usmanabad and Raichur districts. Lands for spring crops are being prepared and sown. Cattle disease prevails in nine talukas. Prices of grains are almost constant. Coarse rice is selling at 9 and white *juar* at 12½ seers per rupee in Hyderabad City. The highest price of *juar* in districts is 10 seers per rupee in Bidar and Warangal and the lowest 22 seers per rupee in Bir.

Mysore.—Good rain fell during the week in Kadur and Shimoga and light elsewhere. The price of *ragi* has risen in Mysore, Hassan and Chitaldrug and of rice in Chitaldrug. Markets are well supplied. Standing crops are in good condition but more rain is required in almost all parts of the State. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 5 inches 98 cents. Transplantation of rice is nearing completion. Prices of food grains are high. The public health is fair. Fodder for cattle is sufficient.

Madras.—The rainfall was very heavy in South Canara, heavy in Ganjam, Vizagapatam, Malabar and Cochin, good to fair in Godavari, Kistna, Guntur, Kurnool, Bellary, Sandur, Anantapur, Travancore and the Nilgiris and light or *nil* elsewhere. Standing crops are in fair to good condition but require more rain in parts of eight districts and have been damaged in parts of one. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good except for rinderpest in Kistna. The water-supply is sufficient except in Kurnool and in parts of Godavari, Bellary, Anantapur, Nellore, South Arcot, Madura, Ramnad and the central parts except Trichinopoly. Pasture is sufficient except in parts of four districts. Fodder is sufficient except in parts of Ganjam, Godavari, Nellore, Chittoor and North Arcot. Prices are stationary.

LONDON GAZETTE.

No. 932.—The following extracts are published for general information :—

Second Supplement dated the 16th August 1915, to the "London Gazette" of the 13th August 1915, pages 8125 to 8136.

Admiralty, 16th August, 1915.

The following despatch has been received from Vice-Admiral John M. de Robeck, reporting the landing of the Army on the Gallipoli Peninsula, 25th-26th April, 1915 .—

"Triad," July 1, 1915.

SIR,—I have the honour to forward herewith an account of the operations carried out on the 25th and 26th April, 1915, during which period the Mediterranean Expeditionary Force was landed and firmly established in the Gallipoli peninsula.

The landing commenced at 4-20 A.M. on 25th. The general scheme was as follows :—

Two main landings were to take place, the first at a point just north of Gaba Tepe, the second on the southern end of the peninsula. In addition, a landing was to be made at Kum Kale, and a demonstration in force to be carried out in the Gulf of Xeros near Bulair.

The night of the 24th-25th was calm and very clear, with a brilliant moon, which set at 3 A.M.

The first landing, north of Gaba Tepe, was carried out under the orders of Rear-Admiral C. F. Thursby, C. M. G. His squadron consisted of the following ships :—

Battleships.	Cruiser.	Destroyers.	Seaplane Carrier.	Balloon Ship.	Trawlers.
Queen.	Bacchante.	Beagle.	Ark Royal.	Manica.	15
London.		Bulldog.			
Prince of Wales.		Foxhound.			
Triumph.		Scourge.			
Majestic.		Colne.			
		Usk.			
		Chelmer.			
		Ribble.			

To "Queen," "London," and "Prince of Wales" was delegated the duty of actually landing the troops. To "Triumph," "Majestic," and "Bacchante" the duty of covering the landing by gunfire.

In this landing a surprise was attempted. The first troops to be landed were embarked in the battleships "Queen," "London," and "Prince of Wales."

The squadron then approached the land at 2-58 A.M., at a speed of 5 knots. When within a short distance of the beach selected for landing the boats were sent ahead. At 4-20 A.M. the boats reached the beach and a landing was effected.

The remainder of the infantry of the covering force were embarked at 10 P.M., 24th.

The troops were landed in two trips, the operation occupying about half an hour, this in spite of the fact that the landing was vigorously opposed, the surprise being only partially effected.

The disembarkation of the main body was at once proceeded with. The operations were somewhat delayed owing to the transports having to remain a considerable distance from the shore in order to avoid the howitzer and field guns' fire brought to bear on them and also the fire from warships stationed in the Narrows, Chanak.

The beach here was very narrow and continuously under shell fire. The difficulties of disembarkation were accentuated by the necessity of evacuating the wounded; both operations proceeded simultaneously. The service was one which called for great determination and coolness under fire, and the success achieved indicates the spirit animating all concerned. In this respect I would specially mention the extraordinary gallantry and dash shown by the 3rd Australian Infantry Brigade (Colonel E. G. Sinclair Maclagan, D.S.O.), who formed the covering force. Many individual acts of devotion to duty were performed by the personnel of the Navy; these are dealt with below. Here I should like to place on record the good service performed by the vessels employed in landing the second part of the covering force; the seamanship displayed and the rapidity with which so large a force was thrown on the beach is deserving of the highest praise.

On the 26th the landing of troops, guns and stores continued throughout the day; this was a most trying service, as the enemy kept up an incessant shrapnel fire, and it was extremely difficult to locate the well-concealed guns of the enemy. Occasional bursts of fire from the ships in the Narrows delayed operations somewhat, but these bursts of fire did not last long, and the fire from our ships always drove the enemy's ships away.

The enemy heavily counter-attacked, and though supported by a very heavy shrapnel fire he could make no impression on our line, which was every minute becoming stronger. By nightfall on the 26th April our position north of Gaba Tepe was secure.

The landing at the southern extremity of the Gallipoli peninsula was carried out under the orders of Rear-Admiral R. E. Wemyss, C.M.G., M.V.O., his squadron consisting of the following ships:—

Battleships.	Cruisers.	Fleet Sweepers.	Trawlers.
Swiftsure.	Euryalus.	6	14
Implacable.	Talbot.		
Cornwallis.	Minerva.		
Albion.	Dublin.		
Vengeance.			
Lord Nelson.			
Prince George.			

Landings in this area were to be attempted at five different places; the conditions at each landing varied considerably. The position of beaches is given below.

Position of Beach.—" Y " beach, a point about 7,000 yards north-east of Cape Tekeh.

" X " beach, 1,000 yards north-east of Cape Tekeh. " W ", beach, Cape Tekeh—Cape Helles " V " beach, Cape Helles—Seddul Bahr. Camber, Seddul Bahr. " S " beach, Eski-Hissarlik Point.

Taking these landings in the above order :—

Landing at "Y" Beach.—The troops to be first landed, the King's Own Scottish Borderers, embarked on the 24th in the "Amethyst" and " Sapphire " and proceeded with the transports " Southland " and " Braemar Castle," to a position off Cape Tekeh. At 4-0 A.M. the boats proceeded to " Y " beach, timing their arrival there at 5-0 A.M., and pulled ashore covered by fire from H.M.S. " Goliath." The landing was most successfully and expeditiously carried out, the troops gaining the top of the high cliffs overlooking this beach without being opposed; this result I consider due to the rapidity with which the disembarkation was carried out and the well-placed covering fire from ships.

The Scottish Borderers were landed in two trips, followed at once by the Plymouth Battalion, Royal Marines. These troops met with severe opposition on the top of the cliffs, where fire from covering ships was of little assistance and, after heavy fighting, were forced to re-embark on the 26th. The re-embarkation was carried out by the following ships: "Goliath," "Talbot" "Dublin," "Sapphire," and "Amethyst." It was most ably conducted by the beach personnel and covered by the fire of the warships, who prevented the enemy reaching the edge of the cliff, except for a few snipers.

Landing at "X" Beach.—The 2nd Battalion, Royal Fusiliers (two companies and M.G. Section) embarked in "Implacable" on 24th, which ship proceeded to a position off the landing-place, where the disembarkation of the troops commenced at 4·30 a.m., and was completed at 5·15 a.m.

A heavy fire was opened on the cliffs on both sides. The "Implacable" approached the beach, and the troops were ordered to land, fire being continued until the boats were close into the beach. The troops on board the "Implacable" were all landed by 7 a.m. without any casualties. The nature of the beach was very favourable for the covering fire from ships, but the manner in which this landing was carried out might well serve as a model.

Landing at "W" Beach.—The 1st Battalion, Lancashire Fusiliers embarked in "Euryalus" and "Implacable" on the 24th, who proceeded to positions off the landing-place, where the troops embarked in the boats at about 4 a. m. Shortly after 5 a. m. "Euryalus" approached "W" beach and "Implacable" "X" beach. At 5 a.m. the covering ships opened a heavy fire on the beach, which was continued up to the last moment before landing. Unfortunately this fire did not have the effect on the extensive wire entanglements and trenches that had been hoped for, and the troops, on landing at 6 a. m., were met with a very heavy fire from rifles, machine guns, and pom-poms, and found the obstructions on the beach undamaged. The formation of this beach lends itself admirably to the defence, the landing-place being commanded by sloping cliffs offering ideal positions for trenches and giving a perfect field on fire. The only weakness in the enemy's position was on the flanks, where it was just possible to land on the rocks and thus enfilade the more important defences. This landing on the rocks was effected with great skill, and some maxims, cleverly concealed in the cliffs and which completely enfiladed the main beach, were rushed with the bayonet. This assisted to a great extent in the success of the landing, the troops, though losing very heavily, were not to be denied and the beach and the approaches to it were soon in our possession.

The importance of this success cannot be over-estimated; "W" and "V" beaches were the only two of any size in this area, on which troops, other than infantry, could be disembarked, and failure to capture this one might have had serious consequences as the landing at "V" was held up. The beach was being continuously sniped, and a fierce infantry battle was carried on round it throughout the entire day and the following night. It is impossible to exalt too highly the service rendered by the 1st Battalion, Lancashire Fusiliers, in the storming of the beach; the dash and gallantry displayed were superb. Not one whit behind in devotion to duty was the work of the beach personnel, who worked untiringly throughout the day and night, landing troops and stores under continual sniping. The losses due to rifle and machine-gun fire sustained by the boats' crews, to which they had not the satisfaction of being able to reply, bear testimony to the arduous nature of the service.

During the night of the 25th-26th enemy attacked continuously and it was not till 1 p.m. on the 26th, when "V" beach was captured, that our position might be said to be secure.

The work of landing troops, guns, and stores continued throughout this period and the conduct of all concerned left nothing to be desired.

Landing at "V" Beach.—This beach, it was anticipated, would be the most difficult to capture; it possessed all the advantages for defence which "W" beach had, and in addition the flanks were strongly guarded by the old castle and village of Seddul Bahr on the east and perpendicular cliffs on the west; the whole foreshore was covered with barbed wire entanglements which extended in places under the sea. The position formed a natural amphitheatre with the beach as stage.

The first landing here, as at all other places, was made in boats, but the experiment was tried of landing the remainder of the covering force by means of a collier, the "River Clyde." This steamer had been specially prepared for the occasion under the directions of Commander Edward Unwin; large ports had been cut in her sides and gangways built whereby the troops could reach the lighters which were to form a bridge on to the beach.

"V" beach was subjected to a heavy bombardment similarly to "W" beach, with the same result, *i.e.*, when the first trip attempted to land they were met with a murderous fire from rifle, pom-pom and machine gun, which was not opened till the boats had cast off from the steamboats.

A landing on the flanks here was impossible and practically all the first trip were either killed or wounded, few managing to find some slight shelter under a bank on the beach; in

several boats all were either killed or wounded; one boat entirely disappeared, and in another there were only two survivors. Immediately after the boats had reached the beach the "River Clyde" was run ashore under a heavy fire rather towards the eastern end of the beach, where she could form a convenient breakwater during future landing of stores, etc.

As the "River Clyde" grounded, the lighters which were to form the bridge to the shore were run out ahead of the collier, but unfortunately they failed to reach their proper stations and a gap was left between two lighters over which it was impossible for men to cross; some attempted to land by jumping from the lighter which was in position into the sea and wading ashore; this method proved too costly, the lighter being soon heaped with dead and the disembarkation was ordered to cease.

The troops in the "River Clyde" were protected from rifle and machine-gun fire and were in comparative safety.

Commander Unwin, seeing how things were going, left the "River Clyde" and, standing up to his waist in water under a very heavy fire, got the lighters into position; he was assisted in this work by Midshipman G. L. Drewry, R.N.R., of H.M.S. "Hussar"; Midshipman W. St. A. Malleson, R.N., of H.M.S. "Cornwallis"; Able Seaman W. C. Williams, O.N. 186774 (R.F.R. B.3766), and Seaman R.N.R. George McKenzie Samson, O.N. 2408A, both of H.M.S. "Hussar."

The brigade to the shore, though now passable, could not be used by the troops, anyone appearing on it being instantly shot down, and the men in "River Clyde" remained in her till nightfall.

At 9.50 a.m, "Albion" sent in launch and pinnace manned by volunteer crews to assist in completing bridge, which did not quite reach beach; these boats, however, could not be got into position until dark owing to heavy fire.

It had already been decided not to continue to disembark on "V" Beach, and all other troops intended for this beach were diverted to "W."

The position remained unchanged on "V" beach throughout the day, men-of-war and the maxims mounted in "River Clyde" doing their utmost to keep down the fire directed on the men under partial shelter on the beach.

During this period many heroic deeds were performed in rescuing wounded men in the water.

During the night of 25th-26th the troops in "River Clyde" were able to disembark under cover of darkness and obtain some shelter on the beach and in the village of Seddul Bahr, for possession of which now commenced a most stubborn fight.

The fight continued, supported ably by gunfire from H.M.S. "Albion," until 1-24 p.m., when our troops had gained a position from which they assaulted hill 141, which dominated the situation. "Albion" then ceased fire, and the hill, with old fort on top, was most gallantly stormed by the troops, led by Lieutenant-Colonel C. H. H. Doughty-Wylie, General Staff, who fell as the position was won. The taking of this hill effectively cleared the enemy from the neighbourhood of the "V" Beach, which could now be used for the disembarkation of the allied armies. The capture of this beach called for a display of the utmost gallantry and perseverance from the officers and men of both services—that they successfully accomplished their task bordered on the miraculous.

Landing on the Camber, Seddul Bahr.—One half company, Royal Dublin Fusiliers, landed here, without opposition, the Camber being "dead ground." The advance from the Camber, however, was only possible on a narrow front, and after several attempts to enter the village of Seddul Bahr this half company had to withdraw after suffering heavy losses.

Landing at "De Totts" "S" Beach.—The 2nd South Wales Borderers (less one company) and a detachment 2nd London Field Company, R.E., were landed in boats, convoyed by "Cornwallis," and covered by that ship and "Lord Nelson."

Little opposition was encountered, and the hill was soon in the possession of the South Wales Borderers. The enemy attacked this position on the evening of the 25th and during the 26th, but our troops were firmly established, and with the assistance of the covering ships all attacks were easily beaten off.

Landing at Kum Kale.—The landing here was undertaken by the French.

It was most important to prevent the enemy occupying positions in this neighbourhood, whence he could bring gun fire to bear on the transports off Cape Helles. It was also hoped that by holding this position it would be possible to deal effectively with the enemy's guns on the Asiatic shore immediately east of Kum Kale, which could fire into Seddul Bahr and De Totts.

The French, after a heavy preliminary bombardment, commenced to land at about 10 a.m., and by the afternoon the whole of their force had been landed at Kum Kale. When they attempted to advance to Yeni Shehr, their immediate objective, they were meet by heavy fire from well-concealed trenches, and were held up just south of Kum Kale village.

During the night of the 25th-26th the enemy made several counter-attacks, all of which were easily driven off; during one of these 400 Turks were captured, their retreat being cut off by the fire from the battleships.

On the 26th, when it became apparent that no advance was possible without entailing severe losses and the landing of large reinforcements, the order was given for the French to withdraw and re-embark, which operation was carried out without serious opposition.

I now propose to make the following more general remarks on the conduct of the operations:—

From the very first the co-operation between army and navy was most happy; difficulties which arose were quickly surmounted, and nothing could have succeeded the tactfulness and forethought of Sir Ian Hamilton and his staff.

The loyal support which I received from Contre-Amiral E. P. A. Guepratte simplified the task of landing the Allied armies simultaneously.

The Russian fleet was represented by H.I.R.M.S. "Askold," which ship was attached to the French squadron. Contre-Amiral Guepratte bears testimony to the value of the support he received from Captain Ivanoff, especially during the landing and re-embarkation of the French troops at Kum Kale.

The detailed organisation of the landing could not be commenced until the Army Headquarters returned from Egypt on the 10th April. The work to be done was very great, and the naval personnel and material available small.

Immediately on the arrival of the Army Staff at Mudros, committees, composed of officers of both services, commenced to work out the details of the landing operations, and it was due to these officers' indefatigable efforts that the expedition was ready to land on the 22nd April. The keenness displayed by the officers and men resulted in a good standard of efficiency, especially in the case of the Australian and New Zealand Corps, who appear to be natural boatmen.

Such actions as the storming of the Seddul Bahr position by the 29th Division must live in history for ever; innumerable deeds of heroism and daring were performed; the gallantry and absolute contempt for death displayed alone made the operations possible.

At Gaba Tepe the landing and the dash of the Australian Brigade for the cliffs was magnificent—nothing could stop such men. The Australian and New Zealand Army Corps in this, their first battle, set a standard as high as that of any army in history, and one of which their countrymen have every reason to be proud.

In closing this despatch I beg to bring to their Lordships' notice the names of certain officers and men who have performed meritorious service. The great traditions of His Majesty's Navy were well maintained, and the list of names submitted of necessity lacks those of many officers and men who performed gallant deeds unobserved and therefore unnoted. This standard was high, and if I specially mention one particular action it is that of Commander Unwin and the two young officers and two seamen who assisted him in the work of establishing communication between "River Clyde" and the beach. Rear-Admirals R. E. Wemyss, C.M.G., M.V.O., C. F. Thursby, C.M.G., and Stuart Nicholson, M.V.O., have rendered invaluable service. Throughout they have been indefatigable in their efforts to further the success of the operations, and their loyal support has much lightened my duties and responsibilities.

I have at all times received the most loyal support from the Commanding Officers of His Majesty's ships during an operation which called for the display of great initiative and seamanship.

Captain R. F. Phillimore, C.B., M.V.O., A.D.C., as principal Beach Master, and Captain D. L. Dent, as principal Naval Transport Officer, performed most valuable service.

SPECIAL RECOMMENDATIONS.

Commander Edward Unwin, R. N.

While in "River Clyde," observing that the lighters which were to form the bridge to the shore had broken adrift, Commander Unwin left the ship and under a murderous fire attempted to get the lighters into position. He worked on until, suffering from the effects of cold and immersion, he was obliged to return to the ship, where he was wrapped up in blankets. Having in some degree recovered, he returned to his work against the doctor's order and completed it. He was later again attended by the doctor for three abrasions caused by bullets, after which he once more left the ship, this time in a lifeboat, to save some wounded men who were lying in shallow water near the beach. He continued at this heroic labour under continuous fire, until forced to stop through pure physical exhaustion.

Midshipman George L. Drewry, R. N. R.

Assisted Commander Unwin at the work of securing the lighters under heavy rifle and maxim fire. He was wounded in the head, but continued his work and twice subsequently attempted to swim from lighter to lighter with a line.

Midshipman Wilfred St. A. Malleson, R. N.

Also assisted Commander Unwin, and after Midshipman Drewry had failed from exhaustion to get a line from lighter to lighter, he swam with it himself and succeeded. The line subsequently broke, and he afterwards made two further but unsuccessful attempts at his self-imposed task.

Able Seaman William Chas. Williams, O. N. 186774 (R. F. R. B. 3766).

Held on to a line in the water for over an hour under heavy fire, until killed.

Seaman R. N. R. George McKenzie Samson, O. N. 2408A.

Worked on a lighter all day under fire, attending wounded and getting out lines; he was eventually dangerously wounded by maxim fire.

Lieutenant-Commander Ralph B. Janvrin, R. N.

Conducted the trawlers into Morto Bay, for the landing at "De Totts," with much skill.

This officer showed great judgment and coolness under fire, and carried out a difficult task with great success.

Lieutenant John A. V. Morse, R. N.

Assisted to secure the lighters at the bows of the "River Clyde" under a heavy fire, and was very active throughout the 25th and 26th at "V" beach.

Surgeon P. B. Kelly, R. N., attached to R. N. A. S.

Was wounded in the foot on the morning of the 25th in "River Clyde." He remained in "River Clyde" until morning of the 27th, during which time he attended 750 wounded men, although in great pain and unable to walk during the last twenty-four hours.

Lieutenant-Commander Adrian St. V. Keyes, R. N.

General Sir Ian Hamilton reports as follows :—

"Lieutenant-Commander Keyes showed great coolness, gallantry, and ability. The success of the landing on 'Y' beach was largely due to his good services. When circumstances compelled the force landed there to re-embark, this officer showed exceptional resource and leadership in successfully conducting that difficult operation."

I entirely concur in General Hamilton's opinion of this officer's services on the 25th-26th April.

Commander William H. Cottrell, R. N. V. R.

This officer has organised the entire system of land communication ; has laid and repaired cables several times under fire ; and on all occasions shown zeal, tact, and coolness beyond praise.

The work accomplished by the destroyer flotillas fully maintained the high standard they have established in these waters.

On the 25th and 26th "Wolverine" (Commander O. J. Prentis) (killed in action) "Scorpion" (Lieutenant-Commander (now Commander) A. B. Cunningham), "Renard" (Lieutenant-Commander L. G. B. A. Campbell), "Grampus" (Lieutenant-Commander R. Bacchus), "Pincher" (Lieutenant-Commander H. W. Wyld) and "Rattlesnake" (Lieutenant-Commander P. G. Wodehouse) carried out mine-sweeping operations under Captain Heneage inside the Dardanelles in a most satisfactory manner, being frequently under heavy fire. On the 26th the French sweepers "Henriette" (Lieutenant de Vaisseau Auverny), "Marius Chambon" (Lieutenant de Vaisseau Blanc), and "Camargue" (Lieutenant de Vaisseau Bergeon) assisted them, "Heneriette" doing particularly well.

"Beagle" (Commander (now Captain H. R. Godfrey), "Bulldog" (Lieutenant-Commander W. B. Mackenzie), "Scourge" (Lieutenant-Commander H. de B. Tupper),

Rear-Admiral Thursby reports as follows on the work accomplished by these boats :—

" The destroyers under Captain C. P. R. Coode (Captain ' D ') landed the second part of the covering force with great gallantry and expedition, and it is in my opinion entirely due to the rapidity with which so large a force was thrown on the beach that we were able to establish ourselves there."

I entirely concur in Admiral Thursby's remarks on the [illegible]d work performed by this division.

No officer could have been better served by his staff than I have been during these operations. The energy and resource of my Chief of Staff, Commodore R. J. B. Keyes, was invaluable, and, in combination with Major-General Braithwaite—Chief of the General Staff—he established a most excellent working agreement between the two services.

Captain George P. W. Hope, of "Queen Elizabeth," acting as my flag captain. His gift of organisation was of the greatest assistance in dealing with the mass of details inseparable from an operation of such magnitude.

Commander the Hon. A. R. M. Ramsay has used his sound practical knowledge of gunnery to great advantage in working out, in connection with the military, the details of gun-fire from the covering ships.

Captain William W. Godfrey, R.M., a staff officer of great ability, has given me invaluable assistance throughout the operations.

I would also mention my secretary, Mr. Basil F. Hood, Acting Paymaster, and secretarial staff, whose good services under the direction and example of Mr. Edward W. Whittington-Ince, Assistant Paymaster, will form the subject of a later separate report. Also Lieutenant-Commander James F. Sommerville (Fleet Wireless Telegraph Officer), and Flag Lieutenants L. S. Ormsby-Johnson, Hugh S. Bowlby, and Richard H. L. Bevan, who have performed good service in organising with the military the inter-communication between the allied fleets and armies.

I have, &c.,

Admiralty, 16th August 1915.

The following awards have been made in recognition of services during the operations in the vicinity of the Dardanelles prior to 25th-26th April :—

The KING has been graciously pleased to approve of the grant of the Victoria Cross to Lieutenant-Commander (now Commander) Eric Gascoigne Robinson, R N., for the conspicuous act of bravery specified below.

Lieutenant-Commander Robinson on the 26th February advanced alone, under heavy fire, into an enemy's gun position, which might well have been occupied, and destroying a four-inch gun, returned to his party for another charge with which the second gun was destroyed. Lieutenant-Commander Robinson would not allow members of his demolition party to accompany him, as their white uniforms rendered them very conspicuous Lieutenant-Commander Robinson took parts in four attacks on the mine fields—always under heavy fire.

The KING has been graciously pleased to give orders for the following appointment to the Distinguished Service Order and for the award of the Distinguished Service Cross to the undermentioned Officers in recognition of their services as mentioned :—

To be Companions of the Distinguished Service Order.

Commander William Mellor, R.N.

Commander Mellor was in charge of the trawler mine-sweepers, and took part in all the mine-sweeping operations under fire prior to and, including the 18th March; he displayed conspicuous gallantry, always going to the fore in a picket boat in the most exposed positions, encouraging his sweepers and setting a fine example.

Lieutenant-Commander (now Commander) John Rickards Middleton, R.N.

Lieutenant-Commander Middleton on three occasions entered the minefields under heavy fire, where he organized and successfuly carried out attacks—by means of explosive creeps—on the cables and jack stays.

Lieutenant Francis Hugh Sandford, R.N.

Lieutenant Sandford was specially recommended for his good work in connection with the attacks on the minefields, which he entered on several occasions, including night of 13th-14th March. He invariably displayed great determination when under fire. Lieutenant Sandford also rendered good service in the demolition of Fort Seddul Bahr.

Acting Lieutenant Bernard Thomas Cox, R.N.R.

Lieutenant Cox behaved in a most gallant manner when a volunteer in trawler No. 318 during the attack on the minefield on 13th-14th March. Though severely wounded he refused to quit his bridge until out of action. His vessel suffered serious damage and severe casualties.

Captain Christopher Powell Metcalf, R.N.

On the 18th March, after H.M.S. "Irresistible" struck a mine, Captain Metcalfe took H.M S. "Wear" alongside her, and rescued nearly the whole of her crew under a very heavy fire, which caused several casualties—a very fine display of seamanship.

Lieutenant-Commander (now Commander) the Hon. Patrick George Edward Cavendish Acheson, M.V.O., R.N.

Acting Sub-Lieutenant (now Sub-Lieutenant) Alfred Edward Boscawen Giles, R.N.

Lieutenant-Commander Acheson, with Acting Sub-Lieutenant Alfred E. B. Giles, Chief E. R. A. 2nd Class Robert Snowdon, O.N. 270654. and Stoker 1st Class Thomas Davidson, O. N. K. 14753, went down into the fore magazine and shell room of H.M.S. "Inflexible" when the parties working in these places had been driven out by fumes, caused by the explosion of a mine under the ship; they closed valves and water-tight doors, lights being out, the shell room having two feet of water in it, rising quickly, and the magazine flooding slowly.

The fumes were beginning to take effect on acting Sub-Lieutenant Giles, but neither he nor the others left until ordered to do so by Lieutenant-Commander Acheson who was the last to leave the shell room.

Engineer-Commander Harry Lashmore, C.B, R.N.

Engineer-Lieutenant-Commander Arthur Ellis Lester, R.N.

Engineer-Lieutenant Rey. Griffith Parry, R.N.

Surgeon Martyn Henry Langford, R.N.

During the time H.M.S. "Inflexible" was steaming to Tenedos—after having struck a mine—the engine-room being in semi-darkness and great heat, the ship in possible danger of sinking on passage, a high standard of discipline was called for in the Engineer Department, a call which was more than met. Engineer-Commander Harry Lashmore, responsible for the discipline of the engine-room department, was in the starboard engine-room throughout the passage, and set a fine example to his men.

Engineer-Lieutenant-Commander Lester was in the port engine-room carrying out the same duties as Engineer-Commander Lashmore did in the starboard engine-room.

Engineer-Lieutenant Parry went twice through the thick fumes to the refrigerator flat to see if the doors and valves were closed; he also closed the escape hatch from the submerged flat, fumes and vapour coming up the trunk at the time.

Surgeon Langford brought up the wounded from the fore distributing station in the dark. Fumes permeated the place, rendering five men unconscious. Surgeon Langford though partially overcome by the fumes, continued his work.

Lieutenant Claud Herbert Godwin, R.N.

Lieutenant Godwin commanded H.M.S. "Majestic's" picket boat, and was responsible for the successful shot by which the submarine E. 15 was destroyed after running aground.

To receive the Distinguished Service Cross.

Sub-Lieutenant (now Acting Lieutenant) Stephen Augustus Bayford, R.N.R., H.M.S., "Majestic."

Midshipman James Charles Woolmer Price, H.M.S. "Ocean."

These officers were both in command of picket boats on night of 13th-14th March.

When "Ocean's" boat lay helpless, having been struck in the boiler-room by a shell, "Majestic's" took her in tow, under heavy fire, the conduct of these two young officers being altogether admirable, as was their handling of their boats.

Gunner (T) John William Alexander Chubb, R.N.

Mr. Chubb, when a volunteer in trawler No. 408, on the night of 13th-14th March, brought his vessel out of action in a sinking condition, his commanding officer and three of the small crew being killed.

Gunner (T) William Walter Thorrowgood, R.N.

Mr. Thorrowgood was in command of an armed whaler which, on night of 4th-5th March, twice went into the shore between Kum Kale and Yeni Shehr, bringing off two officers and five men, two of them wounded, exposed to rifle fire on both occasions.

Midshipman Hugh Dixon, R.N.

Midshipman Dixon was in command of "Queen Elizabeth's" picket boat, and was responsible for saving several officers and men from "Irresistible" while under heavy fire, on the 18th March.

Acting Sub-Lieutenant (now Sub-Lieutenant) George Tothill Philip, R.N.

Acting Sub-Lieutenant Philip, H.M.S. "Inflexible," was in charge of his picket-boat on the 18th March to deal with floating mines.

The picket-boat was struck by a heavy shell. Acting Sub-Lieutenant Philip got her alongside "Inflexible," ordered his crew inboard, and, though his knee was injured, got into the engine-room, shut off steam and closed scuttle to stokehold before leaving his boat.

Lieutenant Arthur Cyril Brooke-Webb, R.N.R.

Midshipman John Blaxland Woolley, R.N.

These officers took part in the picket-boat attack on the 18th April.

Lieutenant Colin George MacArthur, R. N.

Lieutenant MacArthur (commanding submarine B 6) carried out two most enterprising reconnaissances of E 15, both under fire. During the latter reconnaissance his skilful handling saved his ship.

The following Officers are *Commended for service in Action* :—

Paper No. III.

Paper No. IV.

From the Government of Bengal, dated 2nd August, 1915.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Inland Steam-vessels Act, 1884, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. It has been represented to us that clause 5 of the Bill, as introduced, is not satisfactory in two respects. In the first place, it is suggested that the authority granting a certificate of competency or service as master or serang to any person should be empowered to direct that such certificate should have effect only in part of a province in any case in which such a restriction is considered necessary. In the second place, it has been pointed out that the provisions of this clause of the Bill which require that certificates of masters and serangs, in order to have effect outside the province in which they are granted should in every case be endorsed by the authorities of each particular province in which such certificate is to have effect, are likely to cause practical inconvenience ; we have therefore modified the clause so as to empower the authority granting any such certificate to restrict the area in which it is to be valid to particular parts

of a province, and to meet the second objection, we have further amended the clause so as to empower the authority granting such a certificate in one province to direct, with the consent of the Local Government of any other province, that it shall have effect in the whole or any part of such other province.

3. We have omitted *in toto* the provisions of clause 6 of the Bill which imposed an obligation on masters of Inland steam-vessels to report to the police every case of collision. This clause has been objected to by various authorities consulted, for reasons which appear to us to be very cogent, and we think that the existing law meets all reasonable requirements. It will be seen that the Act at present requires the master of every inland steam-vessel to inform the police if loss or material damage is caused to any other vessel.

4. We have amended clause 8 in two particulars. In the first place, we have made it clear that the provisions of section 43 apply to cases in which loss or damage is caused to vessels other than inland steam-vessels; and in the second place, the provisions of clause (*c*) of that section have now been made applicable to holders of certificates as second-class masters or serangs, or as engine-drivers, whether they are actually in charge or control of an inland steam-vessel or not.

5. We have modified clause 12 of the Bill as introduced so as to provide that all or any of the provisions of the Act may be made applicable to inland steam-vessels belonging to, or in the service of, the Government of India. It is doubtful whether the particular sections of the Act, referred to in clause 12 of the Bill as introduced, can suitably be made applicable to all inland steam-vessels in the service of the Government of India, and it is more convenient to empower the Government of India to declare what provisions of the Act shall apply to particular vessels of this class.

6. With reference to the comments made by certain authorities on the provisions of the new section 50B, and to the suggestion that great care should be exercised in framing rules under that section, we think that the provisions of section 69 of the Act, which make the previous publication of all rules under the Act obligatory, are sufficient to ensure that those interested will have a reasonable opportunity of objecting to any proposed rule before it comes into force.

7. The remaining changes in the Bill are verbal, consequential or of such minor importance, that it is not necessary to discuss them in this Report.

8. The publication ordered by the Council has been made as follows :—

2. The Bill as originally drawn contemplated that, the first officers and members of the chief authorities of the University would be specified by name in the first Schedule. We understand that great practical difficulties have arisen in giving effect to this plan. It has further been represented to us that, there is a possibility of changes among the personnel of these authorities and bodies for which there would be no provision under this plan. This is the more important as a considerable period may intervene between the date of the passing of the Act and the date it comes into force. We have accordingly modified clause 3 of the Bill so as to give power to the Governor General to specify the first officers of the new University before the Bill comes into force, and have indicated the first members of the authorities by a modification of the second Schedule to the Bill, which, owing to the deletion of the first Schedule, now becomes Schedule I.

3. *Clause 4* of the Bill was a subject of our anxious consideration. We have so amended the clause as to make it clear that the responsibility for the decision that compulsory religious instruction should be given to Hindu students should rest with the Court.

4. *Clause 5* has been modified so as to provide that the Governor General of India shall be designated the Lord Rector of the University, and consequently provision has been made for a body of Patrons and Vice-Patrons.

5. We have definitely provided in clause 6 that before the Visitor exercises the powers conferred on him by that clause of annulling proceedings of the University, he shall, in the first place, call upon the University to offer any explanation it may desire to make.

6. We have modified clause 13 so as to provide that the accounts of the University shall be published in the *Gazette of India*.

7. We have discarded the complicated provisions which were originally contained in clause 14, and have provided for a lump assessment at the commencement of the Act, of the capital value of permanent grants made, and of the income of immoveable property transferred, to the University on that date.

8. We have thought it desirable to insert a sub-clause in clause 20 making it clear that the debts and liabilities of the Hindu University Society are transferred to the University at the same time as the assets of that body.

9. The remaining changes we have made in the Bill are of so slight a nature as to require no special reference in this Report.

10. As regards the Schedule, the changes we have previously referred to have required the amendment of many of the Statutes, and we have also made amendments reconciling what appear to us to be conflicting provisions in certain cases. We have, at the request of the promoters of the Bill, expanded the Statute relating to the Registrar (see Statute 12), and for the same reason have inserted additional provisions for the representation on the Court of Donors. We have added a provision to the Statute dealing with the powers of the Council making it clear that the powers of that body do not extend to matters of discipline in respect of graduates and under-graduates. We have provided for further representation on the Senate of persons elected from those engaged in the teaching work of the University or its colleges, and we have also made a considerable number of minor drafting changes.

11. The publication ordered by the Council has been made as follows :—

NOTE.

I sign the Report of the Select Committee subject to the following note:—

2. There are some provisions in the Bill, specially those relating to the Government of the University, to which I take exception. It seems to me that very considerable powers in excess of what I consider to be necessary have been assumed by the Government, for example, the powers vested in the Visitor and in the Governor General in Council under section 19 of the Bill. At the same time, I recognise that the Hindu University represents a new type in our educational system. The Education Commission of 1882 and the Government of Lord Ripon in their Resolution on the Report of the Commission emphasised the need for the encouragement of different types of educational institutions. Moreover, there are sections of the Hindu community, the Marwaris for instance, who do not take sufficient advantage of our existing educational institutions.

3. From the interest which they have shown in the Hindu University movement, it may be presumed that they will join the University in large numbers. The expansion of the educational area must always be welcome. Lastly, it appears that the Bill is the result of a compromise between the Government and the promoters of the Hindu University movement. The Statement of Objects and Reasons says that " the general items of the Bill and the Statutes are the outcome of long negotiations " with the Hindu University Society. For the above reasons, I refrain from recording a note of dissent, though I take exception to some of the provisions of the Bill. I hope, however, that the Act will be amended later on in the light of the practical experience gathered from its working, and placed upon a broader and more popular basis.

SURENDRANATH BANERJEE.

The 20th September, 1915.

NOTE.

There are some provisions of the Bill to which I take exception; but in view of the negotiations which took place between the Government and the Hindu University Society before the Bill was introduced, and of the fact that the Government have been pleased to take up the Bill at the present time as a non-controversial measure, I refrain from raising a dissent regarding them. I accept them in the hope that the Bill will be amended when a suitable opportunity arises for doing so.

There is one change, however, which has been introduced in the Bill in the Select Committee which I consider to be of vital importance and to which, I regret, I am unable to reconcile myself. From the time that the Government was approached with the request to approve and sanction the establishment of the proposed University, the imparting of instruction in Hindu religion to Hindu students was regarded as one of the cardinal features of the scheme. Subscriptions were invited on that basis. The Government were pleased to make provision for such instruction in the Bill which was introduced into the Council and referred to the Select Committee. At its second sitting, the Select Committee agreed that the provision for such instruction should stand as follows:—

" 4 (2). Instruction in religion shall in the case of Hindu students be compulsory.

(3) Special arrangements shall be made for the religious instruction of Jain and Sikh students from funds provided for the purpose. "

These were unanimously agreed to. But at the last meeting of the Committee, for the clauses quoted above, the present clause 4 (2) was substituted, by a majority vote, which merely empowers the University Court to provide

for the instruction of Hindu youth in religion. I submit that this should not have been done, and that the carrying out of one of the principal objects of the University should have been provided for, definitely and once for all, by the clear provision of the Bill as it had been agreed to at the second sitting of the Select Committee. To leave it to the Court to provide for it by Statutes, takes away the certainty which donors would feel regarding it, if it was provided for by the Bill. I earnestly urge upon the Government and the Members of the Council to resubstitute clauses 2 and 3 of section 4 as they had been agreed to at the second sitting of the Select Committee, for the present clause 4 (2), with a proviso, if it be required, to the effect that no student shall be compelled to attend lectures on tenets of a denomination not professed by him. If this should not unfortunately be accepted, I hope the Government and the Council will agree to at least such an amendment of the clause as at present drafted as will ensure that the instruction of Hindu students in their religion shall be an integral part of the education imparted at the University.

NOTE.

I sign the report subject to the following note :—

In my opinion the clauses (2) and (3) of section 4 of the Bill should have been allowed to stand as they were settled at the second meeting of the Select Committee. I beg further to point out that one of the main grounds on which the demand for the Hindu University rested has been the provision for compulsory religious instruction for the Hindu boys. To remove that ground which supplies one of the fundamental and distinguishing features of the new University is to remove one of the causes which justify its very establishment. I also know as a matter of fact that some of the larger subscriptions were secured on the basis of the said religious instruction being a differentiating feature of the Hindu University and to do away with it in the Act would land the promoters in a difficult position. It should also be pointed out that in altering the aforesaid clauses we are also departing from the decision of the Secretary of State who fully conceded the provision of the said religious instruction as will appear from the correspondence on the University scheme between the Hindu University Society and Government to which a reference may be made. For convenience of Hon'ble Members I will quote from the speech of the Hon'ble Sir Harcourt Butler in introducing the Bill. "My Lord, this is no ordinary occasion. We are watching today the birth of a *new, and, many hope, a better type* of University in India. The *main features* of this University *which distinguish it from existing Universities* will be, first, that it will be a teaching and residential University; secondly, that while it will be open for all castes and creeds *it will insist upon religious instruction for Hindus*, and, thirdly, that it will be conducted and managed by the Hindu community and almost entirely by non-officials."

The argument that the Act empowers the Court to give effect to compulsory religious instruction for the Hindu boys is to my mind of very little force because it means that such a fundamental principle is not accepted as the starting point of the University but is left to the uncertain chances and exigencies of annual debate and discussion of a preeminently heterogenous body like the Court and is recognised, contrary to facts, as an open and undecided question on which the Hindu community as represented by the Hindu University Society has not expressed its definite opinion. Nor is the acceptance of the said religious clauses any departure from the settled policy of religious neutrality of Government, considering that they make religious instruction compulsory only for the Hindu boys and not for the non-Hindus.

STATEMENT OF OBJECTS AND REASONS.

SECTION 34 of the Indian Ports Act, 1908 (XV of 1908), gives power to exempt vessels entering a port from the payment of port-dues. In January 1911, the Government of Madras brought to the notice of the Government of India that this section permitted only of the exemption of all vessels and not of any particular class of vessels entering a port, and represented the advisability of amending the Act so as to exempt fishing vessels from the payment of port-dues. The Government of India agreed with the Local Government that every facility should be afforded to the development of this rising industry. Before taking up legislation, however, they consulted the other maritime Local Governments on the proposal, and invited suggestions, with regard to any other difficulties arising in the administration of the Act. The Local Governments, in reply, submitted a number of proposals for amending the law ; and the Government of India have accorded these their careful consideration. They have also taken the opportunity to consider whether any of the powers under the Act now exercised by Local Governments, subject to the previous sanction of the Governor General in Council, could not with advantage, be surrendered absolutely to Local Governments, and whether the law does not call for amendment in other respects ; and they have decided to amend the Act in the directions indicated in the draft Bill. The precise amendments proposed are explained in the *Notes on Clauses.*

The 6th September, 1915. W. H. CLARK.

Notes on Clauses.

Clauses 2 and 3.—It has been decided, in connection with the recommendations of the Royal Commission on Decentralization, that the previous sanction of the Governor General in Council, for which provision is made under section 4 (*1*) in respect of extensions and withdrawals of the Act, or of certain sections thereof, and under section 5 (7) in respect of alterations to the limits of ports, should be dispensed with, and it is proposed to legislate accordingly.

Clause 4.—It has been represented that there is at present no statutory provision in the Act enabling Local Governments to frame rules for the control and working of Government jetties, etc. Similarly, the Local Governments possess no power to punish refractory boatmen, to revoke the licenses granted to boatmen, to levy fees, to fix the rates of hire, to compel licensed vessels to ply for hire, or to fix the number of crews to be carried by such vessels. As the absence of these powers causes much practical difficulty and inconvenience to local authorities in their control of an important section of port traffic, it is proposed to empower Local Governments in these respects in the manner indicated in this clause.

Clause 5.—The adherence of India to the International Maritime Convention for the unification of rules of law relating to collisions and salvage renders it necessary to legislate so as to give effect to the Article abolishing the defence of compulsory pilotage. Similar legislation was found necessary in the United Kingdom, and is embodied in section 15 of the Pilotage Act, 1913, on which the provisions of clause 5 of the Bill are based.

Clauses 6 and 7.—Under section 33 (*1*) of the Indian Ports Act, 1908, Local Governments have power to levy port-dues, and under section 34, they are empowered to exempt vessels entering a port from the payment of port-dues, and also to vary the rates at which port-dues are to be levied. But these powers are limited in the case of existing ports by the maximum fixed by the First Schedule of the Act, and are further restricted by the fact that, apart from the exemptions specially provided in the Schedule, no power is given to Local Governments to discriminate between particular vessels or classes of vessels either with respect to the exemption from payment of the due, or with regard to the nature or frequency of its incidence. They have also no power to disturb the grouping of ports laid down in the Schedule, although alterations may, from time to time, be desirable for administrative reasons. It is considered that these restrictions may suitably be relaxed in the interests of administrative convenience; and it is proposed accordingly to amend sections 33 and 34 of the Act in the manner indicated in clauses 6 and 7 of the Bill.

Clause 8.—Under section 35 of the Act, Local Governments have full power to prescribe the rates for fees chargeable on account of special services rendered, subject to the proviso that the previous sanction of the Governor General in Council is required in determining the fees to be charged for pilotage. In accordance with the general principle of decentralisation already recognised in clauses 2 and 3 *supra*, it is considered unnecessary to retain the proviso to this section.

Clause 9.—In view of the provisions of section 4 (*xi*) of the Local Authorities Loans Act, 1914 (IX of 1914), the provisions of section 36, sub-section (*3*), of the Indian Ports Act, 1908, have become unnecessary; and it is therefore proposed to repeal the sub-section.

Clause 10.—Section 37 (*2*) (*a*) of the Indian Ports Act, 1908, permits of Local Governments grouping together certain ports for the purposes of accounts, subject to the previous sanction of the Governor General in Council. Although the previous sanction of the Governor General in Council is considered unnecessary, the Government of India are of opinion that it is desirable that their general control should be maintained. It is proposed to amend the section accordingly.

Clause 11.—The military authorities carry out periodical practices of the examination services which will be instituted at ports in time of war, in order to ensure a thorough knowledge of their working. It is considered important that the port authorities should be required to provide vessels and *personnel* for these practices during peace, and it is accordingly proposed to impose this requirement on them by law. The new section 68-A is intended to provide for this and, at the same time, to ensure that the necessary requisitions for the loan of the vessels on Port Trusts are made with a due regard to the convenience of the Trusts concerned.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 22nd September 1915 :—

No. 15 OF 1915.

A Bill to prevent the grant to unqualified persons of titles implying qualifications in western medical science, and the assumption and use by such persons of such titles.

WHEREAS it is expedient to prevent the grant to unqualified persons of titles implying qualifications in western medical science, and the assumption and use by such persons of such titles; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian Medical (Bogus Degrees) Act, 1915.

Definition.

2. In this Act "western medical science" means the western methods of allopathic medicine, obstetrics and surgery, but does not include the Homœopathic or Ayurvedic or Unani systems of medicine.

Exclusive privilege of granting qualifications in western medicine, etc.

3. The right of granting or issuing in British India degrees, diplomas, licenses and other documents stating or implying that the grantee or the recipient thereof is qualified to practise in western medical science, shall be exercisable only by the authorities specified in the Schedule and by any other authority which the Governor General in Council may, by notification in the Gazette of India, and subject to such conditions and restrictions as he thinks fit, authorize in this behalf.

Prohibition of unauthorised issue of degrees, etc., in western medicine or surgery.

4. Save as provided by section 3, no person in British India shall grant, or issue or hold himself out as entitled to grant, or issue any degree, diploma, license, or other document stating or implying that the grantee or the recipient is qualified to practise in western medical science.

Contravention of section 4.

5. Whoever contravenes the provisions of section 4 shall be liable to fine which may extend to one thousand rupees, and if the person so contravening is an association, every member of such association, who knowingly and wilfully authorises or permits the contravention, shall be liable to the like fine.

Penalty for falsely assuming titles.

6. Whoever voluntarily and falsely—

(*a*) pretends to be, or assumes, or uses the name or title of any person holding any qualification in western medical science, granted by any authority referred to in section 3, or by the General Council of Medical Education of the United Kingdom; or

(*b*) assumes or uses any colourable imitation of any such title or any name, addition or description implying that he possesses any such qualification;

shall be liable to fine which may extend to five hundred rupees.

SCHEDULE.

(*See section 3.*)

1. Every University established by an Act of the Governor General in Council.

2. The State Medical Faculty in Bengal.

3. The College of Physicians and Surgeons of Bombay.

STATEMENT OF OBJECTS AND REASONS.

ACTS of the Local Councils provide in many of the larger provinces of British India for the registration of persons duly qualified to practise western medicine or surgery, and where such Acts have been passed, Medical Councils have been constituted with specific powers and duties.

2. It is now considered necessary to supplement this provincial legislation by an Imperial Act, restricting the right to issue degrees and diplomas in these systems of medicine and surgery to duly constituted authorities, so as to ensure that such degrees and diplomas are not issued to unqualified persons. It has been found that, at present, diplomas are issued by private institutions to untrained or insufficiently trained persons, and that many of these diplomas are colourable imitations of those issued by recognised Universities and Corporations. The result is that recipients of such diplomas are able to pose to the public as possessing qualifications in medicine and surgery which they do

not possess. The present Bill is intended to remove the public inconvenience and injury arising out of the present state of affairs. It prohibits all persons, save certain specified authorities, from issuing or alleging that they are entitled to issue any degree or diploma in western medicine or surgery. It also penalises persons who voluntarily and falsely assume any medical title which is granted either by the General Council of Medical Education of the United Kingdom, or by the authorities constituted under the Act, and further prohibits the use of any colourable imitations of such titles.

3. The Bill does not affect the right of any person to exercise the profession of medicine or to practise as a Physician or Surgeon, provided he does not pretend to qualifications which he has not got; and its operation is rigidly restricted to the western methods of Allopathic medicine and surgery, Homœopathic, Ayurvedic and Unani practitioners being excluded from the purview of the Bill.

Amendment of section 3 of Ordinance VI of 1914 as re-enacted by Act I of 1915.

15. Section 3 of the Commercial Intercourse with Enemies Ordinance, 1914, as in force by virtue of section 2 of the Emergency Legislation Continuance Act, 1915, shall be read and construed as if after the word "contravenes" the words "attempts, or directly or indirectly offers, proposes or agrees, or has, since the 4th day of August, 1914, attempted or directly or indirectly offered, proposed or agreed, to do any act in contravention of," were inserted. VI of 1914. I of 1915.

STATEMENT OF OBJECTS AND REASONS.

SINCE the outbreak of the present war, various Proclamations have been issued by His Majesty, prohibiting commercial and other dealings with enemy subjects, and any contravention of the provisions of these Proclamations is punishable under the law of British India. In these Proclamations domicile and not nationality is, generally speaking, made the basis for deciding whether a person is or is not an enemy. In British India, these prohibitions have been supplemented by orders issued under the Foreigners Ordinance, 1914, prohibiting certain persons of enemy nationality, who are resident in British India and may not come within the definition of the term "enemy" according to the King's Proclamations, from carrying on any trade or business. These orders have also been applied to certain companies and firms in which hostile foreigners are interested.

2. In view of the position created by the Proclamations in the United Kingdom, it was found necessary in 1914 to constitute by legislation a public authority to whom certain sums due to enemies have to be paid. There is, however, no authority in British India to whom sums payable by way of interest, dividends or profits to an enemy, or sums due to individuals or firms prohibited from carrying on business or from receiving payments of money in British India can be paid, and the lack of such an authority has caused practical inconvenience.

3. Following the example of the English legislature, the Government of India have therefore found it necessary, in the interests of the State and the mercantile community alike, to introduce the present Bill, constituting a public authority to receive payments of the nature referred to above. The provisions of the Bill are largely based on the English Trading with the Enemy (Amendment) Act, 1914 ; but the Bill differs from the English Act in this important respect, that payment of such sums to the constituted authority is optional and not obligatory.

4. The application of the English Act is restricted to payments of the nature of dividends, interest or profits, and the provisions of the present Bill apply also *proprio vigore* to such payments only so far as debts due to enemies are concerned. In view, however, of the fact that it may be necessary to apply these provisions in British India to other classes of payments prohibited by or under any Royal Proclamation or Order in Council, it has been thought expedient to insert in the Bill a clause authorising the Governor General in Council to declare that they shall apply to any other payments of this class. Power has also been taken to authorise payment to the custodian appointed under the Bill of any money which may come into the hands of any public authority by virtue of orders issued under any enactment relating to foreigners.

5. The opportunity has also been taken of remedying two defects, which experience has shown to exist in the present law on the subject of commercial intercourse with the enemy. In the first place, although the Governor General in Council has at present power to restrict the liberty of foreigners in British India, and to prohibit certain persons from carrying on trade or business from dealing with any property in their possession, no specific provision exists authorising the Government to prohibit or restrict other persons from carrying on trade or business with, or transferring property to, foreigners or firms in respect of whom any such order has been made; and this lacuna in the law has been filled. In the second place, doubts have arisen as to whether the provisions of the law are sufficient to penalise attempts and offers to trade with enemy subjects in contravention of the King's Proclamation and to remove these doubts, a clause based on section 10 (*1*) of the Trading with the Enemy (Amendment) Act of 1914 has been inserted in the Bill.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 18th September 1915.

Burma.—The rainfall during the week was general. It was heavy on the Tenasserim coast and good elsewhere except in Upper Burma where the fall was generally slight. More rain is badly needed in some dry zone districts. Cultivation of winter rice and upland crops is progressing normally. Reaping of early sesamum and cotton is progressing. Standing crops are generally well but the unirrigated paddy and the miscellaneous crops are withering in several dry zone districts for want of rain. Cattle are generally healthy. The price of unhusked rice in Rangoon has fallen to Rs. 171 per 100 baskets and is still much above normal. Supplies are small.

Assam.—The weather is seasonable. The rainfall during the week was general and moderate in all districts. More rain is wanted for the transplantation of winter rice in Darrang. Damage to paddy crops by insect pests is reported from Sylhet and Sibsagar and to millet and paddy from the Khasi and Jaintia Hills. Plucking and manufacture of tea, transplantation of winter rice and harvesting of autumn rice are going on. Sowing of pulses is in progress in Goalpara. Prospects of tea and cotton are good. Transplanted winter rice is fair to good and broadcast winter rice is poor in Sylhet and fair elsewhere. The price of common rice has risen slightly. Cattle disease is reported from three and scarcity of fodder from four districts.

Bengal.—During the week seasonable rain fell generally throughout the Province. The effects of the rainfall have been beneficial to winter rice and other standing crops but more rain is very urgently wanted in most of the western districts. Paddy is reported to be withering in parts of the Burdwan district where considerable tracts still remain untransplanted for want of adequate rain. Cutting and steeping of jute are in brisk progress. The operations are nearing completion in the eastern Bengal districts. Harvesting of other autumn crops and weeding of winter rice crop are proceeding. Fodder is reported to be scanty in certain low-lying parts of Pabna, Dacca, Mymensingh and Faridpur. Cattle disease is reported from eight districts only. A certain amount of distress still exists in Bankura and Tippera. The number of persons employed daily on the District Board Road Works in Bankura fell to 3,537 from 5,633 in the previous week. The average price of common rice shows a very slight tendency to rise.

Bihar and Orissa.—Rain was general over the Province and the fall was light to moderate. Transplantation of paddy continues in some districts. More rain is wanted in parts of Orissa and Chota Nagpur. Harvesting of jute and other autumn crops is in progress. Standing crops are doing well except in parts of Muzaffarpur, Champaran and Bhagalpur where damage has been done to crops by floods and in Singhbhum and parts of Manbhum and Angul where their condition is unsatisfactory owing to insufficient rainfall. The price of common rice has slightly risen in three districts, has fallen in two and has remained stationary in the remaining districts as compared with that of the previous week. The supply of fodder and water is generally sufficient. Cattle disease is reported from fifteen districts. Distress is reported from thanas Manbazar and Hura in Manbhum. A test work has been opened at Manbazar. The attendance of persons on test work in Manbhum was 652 and in Singhbhum 801. In Manbhum 200 persons were given gratuitous relief. More rain is urgently wanted in some of the Feudatory States of Orissa. The crop on high lands in the Mayurbhunj State has suffered considerably owing to insufficient rainfall.

United Provinces.—Rain again fell throughout the Provinces but more rain is needed in the western districts and in Aligarh, Bulandshahr, Muttra, Mainpuri and Agra where crops on unirrigated areas are suffering from drought. Floods and heavy rains have caused serious damage particularly to *urd*, maize and *juar* in Oudh and the Lower Doab and in some of the south eastern districts. In other parts standing crops are doing well. Harvesting of some of the early crops is approaching completion and threshing and winnowing operations have begun in places. Picking of cotton continues. Preparation of fields for the poppy and spring crops, though somewhat retarded by torrential rains, is still in progress. Agricultural stock is in good condition and cattle disease is decreasing. Food, fodder and water are ample. Markets are full. Prices are still high.

Punjab.—Light or moderate rain fell in all the reporting districts except in parts of the west where the weather was dry. Rain was beneficial for standing crops but more rain is still wanted. The condition of standing irrigated crops is generally fair. Unirrigated crops though improved by recent rainfall are still in poor condition. Reaping

of autumn crops, sowings of *toria* and gram and ploughings for spring crops continue in some districts. Sowings of *toria* are generally normal. Cattle are generally healthy. Stocks of dry fodder are sufficient but are decreasing. Green fodder is scarce. Water for drinking and irrigation is generally sufficient. Prices are generally stationary but have fallen slightly in some districts and range between warning and scarcity rates. Price of wheat :—Ambala 8½, Ferozepore and Lahore 8¼ and Rawalpindi and Lyallpur 9 seers per rupee.

North-West Frontier Province.—No rain fell except 60 cents at Sheikh Budin in Dera Ismail Khan. Rain is much needed. The weather is abnormally hot in Peshawar and hot and clear in Bannu. The condition of crops on irrigated areas is average everywhere and on unirrigated areas they are poor in Peshawar and Dera Ismail Khan and below average in Bannu. *Shaftal*, vegetables and *sarshaf* are being sown, rice is being reaped and fruits, cotton and chillies are being picked in some places in Peshawar with average outturn. In Bannu sugarcane is still being damaged by insects, harvesting of cotton is proceeding with outturn average and sowing of spring crops has commenced. Preparation for the sowing of spring crops is in progress in Dera Ismail Khan. The condition of cattle is generally good. Fodder and water are sufficient except in the Lakki tahsil of Bannu where fodder is scanty and in certain villages of Dera Ismail Khan where fodder is diminishing and water is scarce. The Paharpur canal is running. Prices are high but stationary in Peshawar and Lakki. Prices of wheat and *bajra* are rising in Dera Ismail Khan and of gram is rising in Peshawar. The general public health is good.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 8 to 12 and maize from 8¼ to 15 seers per rupee. The condition of standing crops is fair. There is no cattle disease. Fodder is sufficient.

Kashmir.—The rainfall was insignificant in Kharij. Crops are being harvested. Cattle are generally healthy. Prices are high. Fodder is insufficient in Baramulla. Water is inadequate.

Rajputana.—The weather is generally hot and cloudy. The rainfall during the week was 300 cents in Marwar, 153 cents in Bharatpur, 130 cents in Jaisalmer, 128 cents in Dholpur, 87 cents in Sirohi, 84 cents in Karauli and 69 cents in Tonk. Slight showers are reported from Alwar, Shahpura, Bundi, Udaipur, Jaipur and Ajmer-Merwara. Owing to continued drought crops have more or less withered except those in irrigated areas. More rain is badly wanted. Pasturage and fodder are sufficient in Bharatpur, Bundi and parts of Kotah but are generally scarce elsewhere and the condition of cattle is bad in consequence. Cattle disease is reported in part of Mewar. Water is generally sufficient. Prices are falling in Jaisalmer, Mewar, Jaipur and Karauli, are rising in Marwar, Sirohi, Shahpura, Banswara, Partabgarh and Ajmer and are steady elsewhere. Cattle emigration from Ajmer-Merwara, Kishangarh and Marwar continues.

Rain is badly needed in the Mehidpur and Rampura Bhanpura districts of the Indore State. It is insufficient in Gwalior, Malwa and throughout the Southern States. Weeding of autumn crops and preparation of fields for spring crops are in progress everywhere. Harvesting of the early autumn crops has begun in places in Bundelkhand. Standing crops are generally good except in the Sheopur pargana of the Gwalior State and are withering for want of rain in the States of the Malwa Agency. The condition of standing crops is generally very good. Damage by insects in Chhattisgarh side has not been serious and is abating. Prospects for autumn crops are good. The supply of fodder and water is sufficient. Agricultural stock is in good condition. Prices of staple food grains remain practically stationary but there is a slight upward tendency in a few districts.

Feudatory States.—Moderate to heavy rain fell in the States and benefited the standing crops which are in good condition. The price of gram rose and of rice fell in Udaipur.
